**Efficiency and Competitiveness of International Airlines** Almas Heshmati,Jungsuk Kim,2016-05-18 This book focuses on the factors that support the strengths of international airlines in general and the Asian airline carriers in particular Defining the quality of human capital as the level of education and the competence of airline employees it analyzes the efficiency of 39 airlines in various regions both in terms of production and cost structures It argues that despite Asia s well developed and globally competitive manufacturing sector aided by open market practices its overall service sector still lags far behind more advanced economies As this does not stop Asia based carriers from generally being more efficient than their counterparts in Europe and North America the book investigates how competitiveness analysis of the airline industry can help Asian policymakers better prepare for the liberalization of the service sector given how crucial this aspect is for the future growth of the Asia Pacific region Efficiency and Competitiveness of International Airlines offers a valuable resource for policymakers airline employees and researchers and students of microeconomics *Financial Markets and Corporate Finance* Shveta Singh,Sonali Jain,2024-11-05 This book presents a selection of the best papers from the 5th International Conference on Financial Markets and Corporate Finance ICFMCF2023 held in the Department of Management Studies IIT Delhi in July 2023 In today s dynamic and swiftly changing financial environment marked by heightened volatility and

complexity ensuring the financial sector's resilience is paramount. The contents of this book address this gap by offering state of the art research in the fields of financial institutions, financial markets and corporate finance. The book specifically explores dynamic topics such as risk management in banks, the growth of fintech, cryptocurrencies, the proliferating usage of derivative instruments, CSR policies and the effect of corporate governance and earnings management on firm performance, with a special emphasis on emerging economies. The studies utilize advanced and innovative qualitative and quantitative techniques to offer valuable insights into finance. The studies included in this book deliberate on theoretical work, empirical findings and policy implications related to financial markets and corporate finance. Given the scope, the range of papers in this collection benefits academics, practitioners, industry experts and policymakers seeking economic insights to address various challenges.

**Economic Regulation of Urban and Regional Airports** Peter Forsyth, Jürgen Müller, Hans-Martin Niemeier, Eric Pels, 2023-05-02. This book offers new insights into the theory and practice of economic airport regulation. In light of recent developments in aviation markets and policy and the debate on airport regulation and benchmarking, it offers case studies on various aspects of economic regulation of city and regional airports. Written by experts in the field, the volume features contributions on the theory of regulation and benchmarking as well as case studies on recent experiences in Europe and Latin America. This book is divided into three parts. Part I provides the theoretical background for the study of airport regulation and regulatory systems. Competition at airports is discussed as are common forms of regulation and potential pitfalls. Part II addresses benchmarking as benchmarking is often applied as an input to the regulatory process. Although benchmarking is necessary, reviews of how benchmarking is applied in the literature and in practice show that improvements can be made. Part III provides case studies on real world examples. Addressing the question of whether and how European airport regulators set incentives for efficiency and how benchmarking is used in the regulatory process, this book is an important contribution to the development of the transport industry in Europe and Latin America. It will appeal to scholars and students in transport economics, regional economics and related fields as well as to practitioners and policy makers in the transport industry.

**Revisiting Electricity Market Reforms** Han Phoumin, Rabindra Nepal, Fukunari Kimura, Gazi Salah Uddin, Farhad Taghizadeh-Hesary, 2022-09-19. This book combines the fundamentals of industrial organization theories based on microeconomic foundations, applied econometrics and environmental and natural resource economics in undertaking a comprehensive review of reforms of the power sector and its impact on industrial and socio-economic performance. The book provides the reader with the intellectual groundwork necessary for understanding the workings and interactions of today's reforming power markets such as in the ASEAN and East Asia that are striving to achieve the energy policy trilemma of affordability, energy sustainability and energy security. The topics addressed in this book include application of welfare theorems such as competition in and for the market in the electricity sector, market failures such as lack of electricity access, analysis of forecasting models under volatility, energy resource allocation such as renewable energy.

and competitive market designs of energy markets Country specific and region specific case studies are used to analyze the progress and outcomes of market driven electricity reforms across the reforming and advanced electricity markets Therefore the book derives policy lessons and provides policy recommendations in reforming power markets for the ASEAN and East Asia taking stock of more than three decades of global experience with power sector reforms The electricity markets case studies are carefully chosen and supported by extensive data analyses as appropriate This book on energy economics and policy is highly recommended to readers who seek an in depth and up to date integrated overview about the evolving literature and status on electricity market reforms with a particular reference to Asia *Ibss: Economics: 1995* Compiled by the British Library of Political and Economic Science at the London School of Economics, 1996 The IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences International Encyclopedia of Transportation, 2021-05-13 In an increasingly globalised world despite reductions in costs and time transportation has become even more important as a facilitator of economic and human interaction this is reflected in technical advances in transportation systems increasing interest in how transportation interacts with society and the need to provide novel approaches to understanding its impacts This has become particularly acute with the impact that Covid 19 has had on transportation across the world at local national and international levels Encyclopedia of Transportation Seven Volume Set containing almost 600 articles brings a cross cutting and integrated approach to all aspects of transportation from a variety of interdisciplinary fields including engineering operations research economics geography and sociology in order to understand the changes taking place Emphasising the interaction between these different aspects of research it offers new solutions to modern day problems related to transportation Each of its nine sections is based around familiar themes but brings together the views of experts from different disciplinary perspectives Each section is edited by a subject expert who has commissioned articles from a range of authors representing different disciplines different parts of the world and different social perspectives The nine sections are structured around the following themes Transport Modes Freight Transport and Logistics Transport Safety and Security Transport Economics Traffic Management Transport Modelling and Data Management Transport Policy and Planning Transport Psychology Sustainability and Health Issues in Transportation Some articles provide a technical introduction to a topic whilst others provide a bridge between topics or a more future oriented view of new research areas or challenges The end result is a reference work that offers researchers and practitioners new approaches new ways of thinking and novel solutions to problems All encompassing and expertly authored this outstanding reference work will be essential reading for all students and researchers interested in transportation and its global impact in what is a very uncertain world Provides a forward looking and integrated approach to transportation Updated with future technological impacts such as self driving vehicles cyber physical systems and big data analytics Includes comprehensive coverage Presents a worldwide
