Problem Of Uganda A Study In Acculturati:

The Problem of Uganda Ramkrishna Mukherjee, 1956 Decolonising State and Society in Uganda Katherine Bruce-Lockhart, Jonathon L. Earle, Nakanyike Musisi, Edgar C. Taylor, 2022 Key book on the debates surrounding the knowledge economy and decolonialization of African Studies that brings the subject up to date for the 21st century

Decolonization of knowledge has become a major issue in African Studies in recent years brought to the fore by social movements such as RhodesMustFall and BlackLivesMatter This timely book explores the politics and disputed character of knowledge production in colonial and postcolonial Uganda where efforts to generate forms of knowledge and solidarity that transcend colonial epistemologies draw on long histories of resistance and refusal Bringing together scholars from Africa Europe and North America the contributors in this volume analyse how knowledge has been created mobilized and contested across a wide range of Ugandan contexts In so doing they reveal how Ugandans have built disputed and reimagined institutions of authority and knowledge production in ways that disrupt the colonial frames that continue to shape scholarly analyses and state structures From the politics of language and gender in Bakiga naming practices to ways of knowing among the Acholi the hampering of critical scholarship by militarism and authoritarianism and debates over the names of streets lakes mountains and other public spaces this book shows how scholars and a wide range of Ugandan activists are reimagining the politics of knowledge in Ugandan public life Uganda: A Modern History Jan Jelmert Jørgensen, 2023-10-09 Uganda A Modern History 1981 provides a comprehensive political social and economic history of Uganda from the beginnings of colonial rule in 1888 It focuses particularly on the development of the Ugandan economy and demonstrates how the economy became structurally dependent on world capitalism during the colonial period and how this has affected its subsequent development The book also deals with the political and social tendencies which shaped Ugandan society in both the colonial and postcolonial period The first four chapters examine the initial colonial occupation and the colonial state's role in the rural nexus of chiefs peasants and migrant workers They also look at the colonial state and the context of the wider national regional and international economy and analyse the African nationalist response and the formation of political parties to take control of the postcolonial state The second part of the book considers the political alliances and economic strategies of the Obote regime and the events of Amin's military regime The epilogue looks at events since the fall of the Amin regime and suggests ways in which Uganda may be able to tackle its underlying economic problems

War and Underdevelopment: Country experiences Frances Stewart, Edmund Valpy Knox Fitzgerald, 2001 This series traces the economic and social consequences of conflict both theoretically and through empirical investigations including seven country case studies *The African Charter on Human and Peoples' Rights Volume 1* Nat Rubner, 2023 Landmark study of the African Charter on Human and Peoples Rights that positions it within the African Lives Matter struggle to assert an African identity rather than as simply a human rights document The Twilight of European Colonialism Stewart C.

Easton,2023-05-03 The Twilight of European Colonialism 1961 is a comprehensive appraisal of modern colonialism as well as providing historical background of the governments of British French Belgian and Portuguese colonies Political events in colonies and former colonies in all parts of the world are discussed Charting the political development of each colony the author analyses at each stage the significance of the major advances toward self government in addition to critically examining and comparing the policies and performances of the European powers involved **French Perspectives in African Studies** Pierre Alexandre,2018-08-16 Originally published in 1973 this volume presents some of the main approaches that were developed by French Africanists during the 1940s 50s and 60s The book covers social structure kinship systems economic change ethnography language history and archaeology in West Africa Understanding Social Dynamics in South Asia Partha Nath Mukherji,N. Jayaram,Bhola Nath Ghosh,2019-02-26 This volume includes fourteen essays by eminent sociologists in memory of Ramkrishna Mukherjee 1919 2017 the last of the founding architects of sociology in India It also includes two interviews with Ramkrishna Mukherjee by senior sociologists The essays cover a variety of themes and topics close to the works of Ramkrishna Mukherjee the idea of unitary social science methodology of social research the question of facts and values rural society and social change social mobility family and gender and nationalism In the two interviews included here Mukherjee clarifies his intellectual trajectory as well as issues of methodology and methods in social research Overall this volume endorses his emphasis on the need for social researchers to transcend the what and how to why in the pursuit of sociological knowledge The volume is a valuable addition to the history of sociology in India Students of sociology and other social sciences will find it useful as a book of substantive readings on social dynamics those researching the social world will find in it a useful guide to issues in designing and execution of social research projects **The African Charter on Human and Peoples' Rights Volume 2** Nat Rubner,2023 Landmark study of the African Charter on Human and Peoples Rights Documents on one side the international community s inability to foist a human rights system upon Africa and on the other the process within the OAU now African Union that eventually brought it into being and determined its content The African Charter on Human and Peoples Rights ACHPR which was proposed in 1979 adopted in 1981 and came into effect in 1986 was the first non Western declaration of human rights and the first official statement of an African human rights perspective With Africa largely absent in 1948 when the Universal Declaration of Human Rights UDHR was adopted it stands in stark historical reproach to the Western conception of universal human rights as a pivotal document in the decolonisation of the continent This book for the first time presents a comprehensive account of the development of the ACHPR which is key to a proper understanding of its fundamental nature Through documenting its process of construction it becomes possible to understand how Africans themselves understood the process and the issues involved and how the ACHPR became a political text asserted by African leaders and not a continuum of a so called universal human rights tradition The result is a radical repositioning of the underlying context of the ACHPR one of the most important documents in

modern African history of how it came to be and how it should therefore be understood Volume 2 describes the process through which the ACHPR came into being Analysing the role of Western governments the UN and NGOs it shows that contrary to the prevailing view of African human rights commentators their influence was limited and at times counter productive That in fact the formulation of the ACHPR was a profoundly political process that was primarily a product of an African desire to instigate its own human rights perspective as a counter to the human rights universalism advanced by the Western post war human rights tradition

Mukerjee, Ramkrishna: Dynamics of Rural Society Ramkrishna Mukherjee, **Human Rights NGOs in East Africa** Makau Mutua, 2009 Critically explores the anatomy of the human rights movement in East Africa examining its origins challenges and emergent themes in the context of political transitions in the region In particular the book seeks to understand the political and normative challenges that face this young but vibrant civil society in the vortex of globalization

The Sociology of the Blue-collar Worker Norman Francis Dufty, 1969 **The Implementation of International Humanitarian Law** Frits Kalshoven, Yves Sandoz, 1989-07 *Builders of Indian Anthropology* Gaya Pandey, 2022-01-01 The book entitled Builders of Indian Anthropology deals with profiles and contributions of Indian anthropologists and foreign anthropologists who worked hard to establish Indian anthropology in our country and devoted their life in anthropological researches and studies on Indian tribals villages castes urban centres towns cities and metropolises They did researches in social cultural Anthropology physical anthropology linguistic anthropology and prehistoric anthropology in India Thus they established Indian anthropology as a full fledged paper to be taught under different under graduate and post graduate departments of Anthropology in different universities of states of our country The present generation anthropologists are very much grateful to them for their dedication and commitment to the subject
