Research in Education ,1972 *A Dingo Ate My Math Book* Burkard Polster,Marty Ross,2017-12-27 *A Dingo Ate My Math Book* presents ingenious unusual and beautiful nuggets of mathematics with a distinctly Australian flavor It focuses for example on Australians love of sports and gambling and on Melbourne s iconic mathematically inspired architecture Written in a playful and humorous style the book offers mathematical entertainment as well as a glimpse of Australian culture for the mathematically curious of all ages This collection of engaging stories was extracted from the Maths Masters column that ran from 2007 to 2014 in Australia s Age newspaper The maths masters in question are Burkard Polster and Marty Ross two immigrant Aussie mathematicians who each week would write about math in the news providing a new look at old favorites mathematical history quirks of school mathematics whatever took their fancy All articles were written for a very general audience with the intention of being as inviting as possible and assuming a minimum of mathematical background Scott Foresman-Addison Wesley Mathematics ,2008 Teaching Young Children Mathematics Sydney L. Schwartz,2005-09-30 Children learn mathematics most effectively in contexts that are meaningful to them Realizing the potential of these contexts for fostering young children s mathematical learning while nurturing and challenging them requires knowledge of mathematics as well as of child development Avoiding the debates surrounding hands on learning vs direct instruction the author focuses on the value of different contexts for learning and illustrates ways to genuinely engage children as active learners The work is rich with examples of children s interactions with each other and with adults as they utilize and extend their understanding of mathematics Examples and guidelines for developing lessons and activities will be useful to educators and parents Chapters explore how we underestimate young children s mathematical capabilities how appropriate sequencing of learning and building on prior knowledge will enhance understanding what teachers including parent teachers need to know and high stakes testing This is a work that brings together the connections between knowing the basics and constructing knowledge in accessible and practical ways **Hayes Mastery Arithmetic Drills and Tests** ,1969
