Usability Analysis Evaluation at a Bargain Price or Simply Damaged Merchandise Wayne Gray who organized the panel presented a controversial critique of studies that had evaluated various usability evaluation methods UEMs The level of interest in this discussion led Gray to propose a review article that dealt with the issues in a more systematic fashion The resulting essay written by Gray and his collaborator Marilyn Salzman conducted an in depth review of a series of influential studies that used experimental methods to compare a variety of UEMs Gray and Salzman s analysis was framed using Cook and Campbell s 1979 well known discussion of various forms of validity They used this to evaluate numerous details of these comparative studies and they concluded that the studies fell short on the criteria by which good experimental studies are designed and interpreted
