**Concerns** M.S. Kenzer,2013-11-11 The completion of this collection took many months and for a variety of reason required the assistance and or indulgence of a number of individuals First and foremost I would like to thank Tim Hudson for his useful input and support at the outset of the project Likewise I would like to thank Jesse O McKee for providing a hospitable environment during my affiliation with the University of Southern Mississippi At Louisiana State University I am grateful to Sam Hilliard and Carville Earle for their invaluable understanding The book became part of the GeoJournal Library as a result of Wolf Tietze s confidence in the topic and because of Henri G van Dorssen s and Kluwer Academic Publishers good nab lre despite numerous problems Curtis C Roseman and the remainder of the Geography Department at the University of Southern California where I completed many last minute details for the volume are to be thanked for the cordial and warm environment I received while a visitor in Los Angeles Finally no multi authored collection reaches completion without the help of many patient contributors This particular book suffered many set backs along the way so I am particularly grateful to the authors herein They demonstrated their compassion and exceptional professionalism throughout by never second guessing my decisions and by allowing me to remedy the set backs in my own way They were a pleasure to work with and they should take pride in their achievements The Geography of Tourism and Recreation C. Michael Hall,Stephen J. Page,2006-03-27

Highlighting the inter relationships between tourism leisure and recreation this revised edition introduces growing theoretical debates from geography and the wider social science arena to assess how new conceptualizations of tourism and leisure are advancing knowledge and understanding Underpinning this book is the concept of the evolving nature of geography and social science and their role in leading the analysis of the leisure phenomenon as a living subject which has recently seen significant contributions from the new cultural geographies of consumption and leisure These developments are clearly introduced giving readers new to the subject area bite sized introductions to key issues Whilst this third edition retains the successful format and structure of previous editions making it attractive and user friendly to students without

being overwhelming it is completely revised and redeveloped to accommodate new case studies insights summary points and learning objectives It is the only book to systematically compare and contrast in a spatial context tourism and recreation in relation to leisure time and its encyclopaedic reference section provides an excellent resource for new students Retaining a global focus this edition now features a greater emphasis on North America and investigates the importance of less developed countries and the critical issues surrounding inequality exploitation underdevelopment and globalization as powerful forces affecting tourism and leisure
