history of spaceflight The technical challenge of reaching space with chemical rockets the high costs associated with space launch the long lead times necessary for scheduling flights and the poor reliability of the rockets themselves show launch vehicles to be the space program s most difficult challenge Critical Issues in the History of Spaceflight Stephen J. Dick, Steven J. Dick, Roger D. Launius, 2006 In March 2005 the NASA History Division and the Division of Space History at the National Air and Space Museum brought together a distinguished group of scholars to consider the state of the discipline of space history This volume is a collection of essays based on those deliberations The meeting took place at a time of extraordinary transformation for NASA stemming from the new Vision of Space Exploration announced by President George W Bush in January 2004 to go to the Moon Mars and beyond This Vision in turn stemmed from a deep reevaluation of NASA s goals in the wake of the Space Shuttle Columbia accident and the recommendations of the Columbia Accident Investigation Board The new goals were seen as initiating a New Age of Exploration and were placed in the context of the importance of exploration and discovery to the American experiences Amazon **Critical issues in the history of spaceflight** Steven J. Dick, 2018 **Historical Studies in the Societal Impact of Spaceflight** Steven J. Dick, 2015 Scientific and Technical Aerospace Reports , 1995 **Human Spaceflight** Joseph A. Angelo, 2014-05-14 Presents an introduction to human space exploration discussing the evolution of space technology that has allowed the human race to go from merely orbiting the Earth to landing on the Moon and living for months in a space station *Blazing the Trail* Mike Gruntman, 2004 Winner of the Luigi Napolitano Award 2006 from the International Academy of Astronautics This book presents the fascinating story of the events that paved the way to space It introduces the reader to the history of early rocketry and the subsequent developments that led into the space age People of various nations and from various lands contributed to the breakthrough to space and the book takes the reader to faraway places on five continents It also includes many quotes to give readers a flavor of how the participants viewed the developments Most publications on the topic either target narrow aspects of rocket history or are popular books that scratch the surface with minimal and sometimes inaccurate technical details This book bridges the gap It contains numerous technical details usually unavailable in popular publications The details are not overbearing and anyone interested in rocketry and space exploration will navigate through the book without difficulty There are 340 figures and photographs many appearing for the first time
