Problematic Rebel:

Rebel Recruitment and Information Problems Kazuhiro Obayashi, 2017-09-05 How do rebel groups decide how to recruit members To answer this question Obayashi classifies recruitment techniques of rebel groups into two types coercion and inducement and develops a theory of rebel recruitment that simultaneously addresses agency problems inside rebel groups and the rebel state contest over information Important themes such as desertion counterinsurgency strategies including amnesties and civil war termination are also examined to further understand the dynamics of rebellion and violent disorder The theory is applied to examine the changes in conflicts involving the Liberation Tigers of Tamil Eelam in Sri Lanka and the Lord s Resistance Army in Uganda

Problematic rebel Maurice S. Friedman, 1970

Problematic Rebel Maurice S. Friedman, 1963 Based on an intensive study of three modern writers Herman Melville Fyodor Dostoevsky and Franz Kafka as well as a work on the novels of Camus and other ancient and modern literary works

Rebel Without a Cause J. David Slocum, 2005-09-27 Assesses the layered meanings and persistent global legacy of an American film classic

Is the Quest for Meaning the Quest for God? W Stoker, 1996 Traditionally religion was the supplier of meaning It is often said that the quest for meaning is at bottom a quest for God a quest that can only find an adequate answer in religion But then what is the alternative for those who reject religion Emptiness and meaninglessness as Nietzsche succinctly formulated it We have killed God Are we not straying as through an infinite nothing In the meantime non believers have found a solution for the crisis in meaning People are not usually nihilists but live their lives and consider them to be meaningful without religion This study is concerned with determining once again the place of the ascription of meaning from the perspective of the Christian faith in its relation to the non religious ascription of meaning For this purpose an analysis is given of contemporary theological and philosophical views of the problem of meaning The crisis of meaning as it has arisen in Nietzsche and the theatre of the absurd is examined Stoker also discusses contemporary forms of the ascription of meaning without religion such as self actualization and functional rationality as sources of meaning Stoker rejects an apologetics of need He posits that the Christian faith does not have an exclusive right to the ascription of meaning but this obtains also for secular forms of the ascription of meaning such as humanism Is God then the ultimate concern of each person From the perspective of the Christian faith yes but this does not mean that the non religious ascription of meaning as such must be viewed negatively Stoker illustrates how the religious and the non religious ascriptions of meaning are similar and how they differ Both are intended to be the source of meaning for human questions of life and death With respect to their differences the author demonstrates that the ascription of meaning from the perspective of the Christian faith does not entail a disqualification of a non religious worldview but is intended to make people more human

Producing Masculinity Michele White, 2019-02-08 Thoughtful witty and illuminating in this book Michele White explores the ways normative masculinity is associated with computers and the Internet and is a commonly enacted online gender practice Through close readings and a series of case

studies that range from wedding forums to men's makeup video tutorials White considers the ways masculinities are structured through people's collaborations and contestations over the establishment of empowered positions including debates about such key terms and positions as the nice guy nerd bro and groom She asserts that cultural notions of masculinity are reliant on figurations of women and femininity and explores cultural conceptions of masculinity and the association of normative white heterosexual masculinity with men and women A counterpart to her earlier book *Producing Women* White has crafted an excellent primer for scholars of gender media and Internet studies

Rebels and Legitimacy Isabelle Duyvesteyn, 2018-10-29 Legitimacy is generally a term that is associated with the state The term surfaces when there are problems with state legitimacy when it is lacking or absent This present volume attempts to think through the relevance of the concept of legitimacy for other political actors than the state Rebel groups in the shape of insurgents terrorists warlords and guerrillas are all engaged in a process of claim making as legitimate actors representing certain political agendas and constituencies We are interested in dissecting

the processes of the emergence of legitimacy in contexts of disorder and conflict Legitimacy is not only a belief or belief system that informs social action but it is also a practice with a repertoire of legitimacy claiming reinforcing copying and emulating elements Governance provision is an important legitimacy generating activity just as it has been in the formation of states The volume however points out that there are many more aspects to legitimacy that deserve attention The contributors draw on a wide variety of cases and in depth investigation to bring forward individual and micro level dynamics related to legitimacy claims as well as bringing forward the often times problematic role of external actors when it comes to legitimacy and illegitimacy dynamics The chapters in this book were originally published in a special issue of Small Wars Insurgencies

insights to the study of dissent rebellion and revolution **Arrested Development** Andrew Calcutt, 2016-10-06 Since the 1990s both politics and pop culture have been dominated by the twin motifs of the victim and the child Calcutt traces the history of these motifs back to their origins in the counterculture of the 1950s and 1960s and concludes that the counterculture far from being liberating has provided a ready made verbal and visual language for today's victim culture and the authoritarian politics arising from it This title discusses the erosion of adulthood as a pop cultural phenomenon that requires demystification and as a social problem which must be overcome Petre Tutea Alexandru Popescu, 2018-01-16 Petre Tutea 1902-91 was one of the outstanding Christian dissident intellectuals of the Communist era in Eastern Europe Revered as a saint by some he spent thirteen years as a prisoner of conscience and twenty eight years under house arrest at the hands of the Securitate This book explores his unique response to the horrors of torture and re education and reveals the experience of a whole generation detained in the political prisons Tutea's understanding of human needs and how they can be fulfilled even amidst extreme adversity not only reflects huge learning and great brilliance of mind but also offers a spiritual vision grounded in personal experience of the Romanian Gulag Following the fall of the Ceausescus he has begun to emerge as a significant contributor to ecumenical Christian discourse and to understanding of wider issues of truth and reconciliation in the contemporary world As Tutea's pupil and scribe for twelve years as a psychiatrist and as a theologian Alexandru Popescu is uniquely placed to present the work of this twentieth century Confessor of the faith Drawing on bibliographical sources which include unpublished or censored manuscripts and personal conversations with Tutea and with other prisoners of conscience in Romania Popescu presents extensive translations of Tutea which make his thought accessible to the English speaking reader for the first time Through his stature as a human being and his authority as a thinker Petre Tutea challenges us to question many of our assumptions The choice he presents between sacrifice and moral suicide focuses us on the very essence of religion and human personhood Resisting any ultimate separation of theology and spirituality his work affirms hope and love as the sole ground upon which truth can be based At the same time hope and love are not mere ideal emotions but are known and lived in engagement with the real world in politics economics science ecol
