Selma J. Mushkin

Problems Of Capital Formation Concepts Measurement And Controlling Factors:

Problems of Capital Formation Conference on Research in Income and Wealth,1957 **PROBLEMS OF CAPITAL FORMATION : CONCEPTS, MEASUREMENT, AND CONTROLLING FACTORS** ,1975 Problems of Capital Formation Conference on Research in Income and Wealth,1968 **Problems of Capital Formation** Conference on research in income and wealth,1957 On Concepts of Capital and Technical Change Thomas K. Rymes,1971-09-30 **Fixed Reproducible Tangible Wealth in the United States, 1925-89** ,1993 **Inventory Fluctuations and Economic Stabilization** ,1961

Problems of Capital Formation Concepts, Measurement, and Controlling Factors Studies in Income and Wealth Volume 19 ,1957 **Capital in the American Economy** Simon Smith Kuznets,2015-12-08 An examination of long term trends in capital formation and financing in the U S this study is organized primarily around the principal capital using sectors of the economy agriculture mining and manufacturing public utilities non farm residential real estate and government The analysis summarizes major trends in real capital formation and financing and the factors that determined the trends Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Survey of Current Business* ,1997 *Journal of the American Statistical Association* American Statistical Association,1957 A scientific and educational journal not only for professional statisticians but also for economists business executives research directors government officials university professors and others who are seriously interested in the application of statistical methods to practical problems in the development of more useful methods and in the improvement of basic statistical data **Capital in the Nineteenth Century** Robert E. Gallman,Paul W. Rhode,2022-06-03 A nation s capital stock is widely recognized as a crucial determinant of the productivity of its workers and the standard of living of its citizens Tracking the evolution of capital is therefore a critical input to economic history The economist Robert E Gallman 1926 98 gathered extensive data on US capital stock and created a legacy that has until now been difficult for researchers to access and appraise in its entirety Gallman measured American capital stock from a range of perspectives viewing it as the accumulation of income saved and invested and as an input into the production process He used the level and change in the capital stock as proxy measures for long run economic performance Analyzing data in this way from the end of the US colonial period to the turn of the twentieth century Gallman provided a firm empirical foundation for our knowledge of the long nineteenth century the period during which the United States began to experience per capita income growth and became a global economic leader Gallman s research was painstaking and his analysis meticulous but he did not publish the material supporting his findings during his lifetime Here Paul W Rhode

completes this project giving permanence to a great economist's insights and endeavors Provided by publisher *An Analysis of the Use of Regulation A for Small Public Offerings* United States. Securities and Exchange Commission. Directorate of Economic and Policy Analysis, 1982 *The Objectives of Macro-Economic Policy* Ajit K. Dasgupta, A.J. Hagger, 1971-06-18 **Declining Profitability and the Evolution of the US Economy** Ascension Mejorado, Manuel Roman, 2023-09-01 The 1970s were a pivotal decade for the US economy deindustrialization broke the power of the labor unions and made possible the redistribution of income in favor of corporate profits globalization and offshore investments opened alternatives to domestic nonfinancial capital accumulation domestic productivity growth declined and labor saving technology empowered superstar corporations to rapidly gain market share This book argues that the persistent fall in profitability leading to the stagflation crisis was a direct result of the transition from the Fordist phase of capital accumulation based on large scale manufacturing to the neoliberal phase and the rising power of finance Neoliberalism restored the power of rentiers but not the profit rates of nonfinancial corporations Falling accumulation rates weakened the growth capacity of nonfinancial corporate firms and secular stagnation became the norm Neo Keynesian economists Larry Summers and Paul Krugman explained the persistence of secular stagnation with arguments borrowed from Alvin Hansen in the 1930s such as the declining birth rate or the falling relative prices of investment goods hence a shortfall of demand In the Classical paradigm profitability drives capital accumulation and falling profitability slows down growth As the accumulation rate declined and the capacity growth diminished breakdowns in supply links due to the COVID 19 pandemic prevented large infusions of purchasing power to find matching levels of supply hence the stagflation crisis returned The book will be a great asset to researchers and scholars interested in the development of Classical Political Economy concerning issues related to inflation stagnation growing inequality and the next phase of neoliberalism Inventory Fluctuations and Economic Stabilization United States. Congress. Joint Economic Committee, 1961 **Financial Research and Problems of the Day** Solomon Fabricant, 1957 Economics of Higher Education Selma J. Mushkin, 1962 Composite work in economic research on higher education in the USA covers labour demand and supply of professional workers and university graduates financing educational investment etc References and statistical tables **Bulletin**, 1962 Inventory Fluctuations and Economic Stabilization: Supplementary study papers United States. Congress. Joint Economic Committee, 1961
