Working With Troubled Men Morley D. Glick, 2006-04-21 This book offers a concise readable research grounded synthesis of the special concerns mental health and other helping professionals need to address when working with men today and explains a wealth of effective gender specific approaches to assessment and intervention that result in more successful outcomes for male clients Many more women than men seek counseling and therapy and to some extent standard services have evolved in response to female styles of communicating and problem solving Practitioners frequently feel frustrated and baffled by their male clients because they seem unresponsive to treatment approaches that work so well for women But many men benefit from therapy when practitioners understand male socialization and the ways men communicate and problem solve Too many men today are doing badly and are in real need of help Almost half of America's male children grow up in single parent homes headed by mothers where they seldom have male mentors or role models Fewer men than women attend or graduate from college and increasing levels of binge drinking and date rape on campuses paint a discouraging picture of men on campus Male violence continues to be a serious problem in many American communities with male youth violence continuing at epidemic levels Men die younger than women overall and in much higher proportions from suicide homicide and cirrhosis of the liver

Healing Sexually Betrayed Men and Boys Richard B. Gartner, 2017-08-09 *Healing Sexually Betrayed Men and Boys* Treatment for Sexual Abuse Assault and Trauma is the new authoritative source for treatment of sexually victimized men and boys Male victims and survivors of sexual trauma lived in shadow until the turn of the 21st century when scandal after scandal about the sexual abuse of boys and men shed light on their suffering These men and boys require different treatment roadmaps than their female counterparts Yet there is little in the professional literature to help a clinician work

with sexually traumatized boys and men Richard B Gartner is a seasoned psychologist psychoanalyst who has worked therapeutically with sexually abused men for over three decades He is a clinician advocate teacher lecturer and nationally and internationally recognized expert on the subject Dr Gartner s classic book Betrayed as Boys Psychodynamic Treatment of Sexually Abused Men is one of the few written to guide clinicians Now nearly two decades after writing that groundbreaking volume he follows up on his earlier work Healing Sexually Abused Men and Boys together with its companion volume Understanding the Sexual Betrayal of Boys and Men is a thorough comprehensive guide to learning about and healing male victims and survivors Dr Gartner has invited a group of experts to write about specific problems faced by these boys and men Specialists from the psychoanalytic psychodynamic trauma and legal worlds fill in the details about a wide range of interconnected subjects related to the complex reverberations of male sexual trauma Healing Sexually Betrayed Men and Boys covers such diverse topics as therapy with young sexually traumatized boys the aftermath for men who were raped as adults covert seduction of boys and its aftereffects treatment for substance addictions and sexual compulsions couples work with male survivors and their partners or spouses bodywork with male survivors treatment for male veterans who suffered sexual trauma in the military profiling sexual predators and working with survivors who have also been sexual predators This book is a valuable resource for clinicians at every level of training With strategies for how survivors can build support networks and descriptions of clinical familial and community based treatments Healing Sexually Betrayed Men and Boys is essential reading for clinicians of all theoretical persuasions who work with male sexual abuse survivors Filling in gaps in the relatively scant literature on the subject it will also help sexually abused or assaulted men themselves understand what is available to them

Men in Transition Kenneth Solomon, 2013-11-11 Every year the few hundred members of the Committees Task Forces and Councils of the American Psychiatric Association meet in Washington D C to conduct their business They deliberate on a wide variety of issues encompassed in the activities of each group The psychiatrists constituting this mixed and somewhat elite group include some of the better known and promising people in the profession which makes the plenary session and cocktail party good occasions to meet old friends and to make new ones Several years ago one of us N B L attended this gathering as a member of a soon to be defunct group the Committee Liaison with the American College of Physicians and met Ann Chappell a member of the Task Force on Women We were soon joined by Richard Grant Ann impressed us with the work her group was doing on issues surrounding the Women s Movement as it relates to patients and the changing roles of the early 1970s She was struck by the fact that although some women had been very active in this endeavor nobody in American psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association

most generous as well as the one most closely committed to realizing complete equality between men and women in every sphere of social life In analyzing this unique social program Haas describes the social political and economic circumstances which led Sweden to take such a revolutionary stance on the issue of shared parenthood Haas also discusses the extent to which Swedish fathers take advantage of their right to parental leave barriers to fathers participation and fathers experiences while on leave along with the effects that leavetaking has on mothers and fathers later labor market involvement and participation in childcare This study of the Swedish program raises important questions about future prospects for equal parenthood in Sweden and other industrial societies and more significantly about the potential effectiveness of social policy for bringing about the end of such a cultural universal as women s responsibility for infants *Industrial Management* ,1918
