Problems Of Ethics:

Living Issues in Ethics Richard T. Nolan, Frank G. Kirkpatrick, 2000 In 1959 at a fashionable New England college I introduced a course with what I believed to be an engaging title Problems in Christian Ethics It quickly became very popular probably because the students thought it might provide a last gasp answer to the enormous problems raised by the changing world of the 50 s and 60 s For both professor and students the course provided a wonderful opportunity to work out one s point of view on ethical issues But the major pedagogical stumbling block came in attempting to assign appropriate readings for the juicy subject matter I either assigned the students a dozen different books to cover the course material or I prohibited them from reading anything insisting that the course s substantive content would come from the lectures Now after all these years the problem has been solved Living Issues in Ethics a new book by Richard T Nolan and Frank G Kirkpatrick fulfills admirably the need for a one volume text discussing the basic problems in ethics and dealing with them in both a theoretical and a practical way It is a solid book totally contemporary and aware of the latest developments in Christian ethical thinking In a lucid and engaging way the authors present the following topics The Search for a Moral Philosophy Personal Identity and Fulfillment Health and Sexuality and Social Ethics They engage the reader in subject matter ranging from The Ingredients of a Moral Philosophy to an insightful rendering of the history of that philosophy as well as problems of femininity varieties of love marriage and the family medical ethics moral sexual conduct obligations of the political order the socialist alternative the demand for expression versus the right to privacy the dilemmas of dissent sexual justice energy and ecology life boat ethics just war theory and many many others Each chapter contains a review and a section on suggested readings The book is so good that I plan to use it in next year s Problems in Christian Ethics William A Johnson Professor at Brandeis University Mass *Problems in Ethics, Or, Grounds for a Code of Rules for Moral Conduct* John Steinfort Kedney, 1900 [Problems of Ethics](#) Moritz Schlick, 1939 **Problems in Ethics, Or, Grounds for a Code of Rules for Moral Conduct** John Steinfort Kedney, 2023-07-18 A philosophical treatise on the nature of ethical principles and their application in everyday life The book argues for a system of ethical rules based on reason and respect for human dignity and offers a rigorous and thought provoking analysis of many common moral dilemmas This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Some Problems In Ethics** H W B Joseph, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and
