James Rachels, Stuart Rachels, 2021-06-11 Problems from Philosophy is an introductory text organized around the great philosophical problems the existence of God the nature of the mind human freedom the limits of knowledge and the truth about ethics It begins by reflecting on the life of the first great philosopher Socrates Then it takes up the fundamental question of whether God exists Next comes a discussion of death and the soul which leads to a chapter about persons The later chapters consider whether objective knowledge is possible in science and ethics Problems from Philosophy represents the final work of philosopher James Rachels In it he brings the same liveliness and clarity to the introduction of philosophy present in his other best selling texts Problems from Philosophy has been revised by James Rachels son Stuart who has carefully refined his father s work to further strengthen its clarity and accessibility The fourth edition features revisions on discussions of free will artificial intelligence idealism and Kantian ethics *The Persistent Problems of Philosophy* Mary Whiton Calkins, 2015-06-11 Excerpt from The Persistent Problems of Philosophy An Introduction to Metaphysics Through the Study of Modern Systems I must admit at the outset that this book is not written to lure students guiltless of metaphysical aspirations into pleasant paths of philosophical speculations It is intended rather for students and readers who are seriously concerned with the problems of philosophy and genuinely anxious to study metaphysics under the guidance of the great thinkers The book is none the less designed for beginners in philosophy as well as for those more advanced and I have tried to make it clear in statement and logical in order I have audaciously attempted to combine also what seem to me the essential features of a systematic Introduction to Metaphysics with those of a History of Modern Philosophy This I have done both because I believe that the problems of philosophy are at the outset best studied as formulated in the actual systems of great thinkers and because the historical sequence of philosophies from Descartes s to Hegel s seems to coincide roughly with a logical order I am well aware that in writing a book which seeks to combine two functions often distinguished and

which attempts to meet the needs of two groups of students I have run the risk of fulfilling neither purpose and of helping neither set of readers I hope however that certain features of the book may prove useful in particular the plan on which it classifies metaphysical systems the summaries it offers as well of the arguments as of the conclusions of modern philosophers the exact quotations and multiplied text references of its expositions If I have overloaded the book with quotations and references it is because I have myself suffered greatly from my inability to find in the writings of the philosophers the doctrines attributed to them by the commentators About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

*The Persistent Problems of Philosophy* Mary Whiton Calkins, 1910      **The Problems of Philosophy** Bertrand Russell, 1998 Is there any knowledge in the world which is so certain that no reasonable man could doubt it Philosophy is the attempt to answer such ultimate questions not carelessly and dogmatically as we might deal with them in ordinary life but critically after analysing how and why the questions arise and clarifying the assumptions and concepts on which they are based This classic work first published in 1912 has never been supplanted as an approachable introduction to the theory of philosophical enquiry It gives Russell's views on such subjects as the distinction between appearance and reality the existence and nature of matter idealism knowledge by acquaintance and by description induction and the limits and value of philosophical knowledge This edition includes an introduction by John Skorupski contextualizing Russell's work and a guide to further reading      [Some Problems of Philosophy](#) William James, 1974      **Central Issues of Philosophy** John Shand, 2009-06-02 Comprising 20 free standing chapters written by specialists in their respective fields Central Issues of Philosophy provides novice readers with the ideal accessible introduction to all of philosophy's core issues An accessible introduction to the central issues of philosophy Organized around key philosophical issues ranging from truth knowledge and reality to free will ethics and the existence of God Provides beginning students with the information and skills to delve deeper into philosophical fields of study Each chapter is written by an experienced teacher      **The Persistent Problems of Philosophy** Mary Whiton Calkins, 2014-03-29 This Is A New Release Of The Original 1908 Edition      [The Persistent Problems of Philosophy](#) Mary Whiton Calkins, 1952      *SOME PROBLEMS OF PHILOSOPHY* William 1842-1910 James, Horace Meyer 1882-1974 Kallen, Henry 1879-1947 James, 2016-08-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these

*Problems of Philosophy* Gustavus Watts Cunningham,1925      **An Introduction to Philosophy** Holly Estil Cunningham,1920      The Persistent Problems of Philosophy Mary Whiton Calkins,1936      An Introductory Philosophy of Medicine James A. Marcum,2008-05-07 In this book the author explores the shifting philosophical boundaries of modern medical knowledge and practice occasioned by the crisis of quality of care especially in terms of the various humanistic adjustments to the biomedical model To that end he examines the metaphysical epistemological and ethical boundaries of these medical models He begins with their metaphysics analyzing the metaphysical positions and presuppositions and ontological commitments upon which medical knowledge and practice is founded Next he considers the epistemological issues that face these medical models particularly those driven by methodological procedures undertaken by epistemic agents to constitute medical knowledge and practice Finally he examines the axiological boundaries and the ethical implications of each model especially in terms of the physician patient relationship In a concluding Epilogue he discusses how the philosophical analysis of the humanization of modern medicine helps to address the crisis of care as well as the question of What is medicine The book s unique features include a comprehensive coverage of the various topics in the philosophy of medicine that have emerged over the past several decades and a philosophical context for embedding bioethical discussions The book s target audiences include both undergraduate and graduate students as well as healthcare professionals and professional philosophers This book is the 99th issue of the Series Philosophy and Medicine and it can be considered a crown of thirty years of intensive and dynamic discussion in the field We are completely convinced that after its publication it can be finally said that undoubtedly the philosophy of medicine exists as a special field of inquiry

*Catalogue of the University of Texas* University of Texas,1927      Some Problems of Philosophy William James,1911      **Some Problems of Philosophy** William James,2015-06-02 Excerpt from *Some Problems of Philosophy* A Beginning of an Introduction to Philosophy For several years before his death Professor William James cherished the purpose of stating his views on certain problems of metaphysics in a book addressed particularly to readers of philosophy He began the actual writing of this introductory text book for students in metaphysics as he once called it in March 1909 and to complete it was at last his dearest ambition But illness and other demands on his diminished strength continued to interfere and what is now published is all that he had succeeded in writing when he died in August 1910 Two typewritten copies of his unfinished

manuscript were found They had been corrected separately A comparison of the independent alterations in the two copies showed few and slight differences of phrase and detail and indicated no formed intention to make substantial changes yet the author perhaps expected to make some further alterations in a final revision if he could finish the book for in a memorandum dated July 26 1910 in which he directed the publication of the manuscript he wrote Say it is fragmentary and unrevised About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *University of Michigan Official Publication* ,1938      **Psychological Bulletin** ,1908 Vol 49 no 4 pt 2 July 1952 is the association s Publication manual
