Professor Charcot and His School on Hypnotism Comte De Saint-Germain, Comte C. Saint-Germain, 2005-12 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work [Complete Hypnotism Mesmerism Mind-Reading and Spiritualism - The Original Classic Edition](#) Emereo Pty Limited, 2012-01-01 Complete Hypnotism Mesmerism Mind Reading and Spiritualism by A Alpheus The Original Classic Edition Finally available a high quality book of the original classic edition This is a new and freshly published edition of this culturally important work which is now at last again available to you Enjoy this classic work today These selected paragraphs distill the contents and give you a quick look inside Soon after this Burdin a member of the Academy offered a prize of 3 000 francs to any one who would read the number of a bank note or the like with his eyes bandaged under certain fixed conditions but it was never awarded though many claimed it and there has been considerable evidence that persons in the hypnotic state have sometimes remarkable clairvoyant powers It may be stated that most English and American operators fail to see any distinction between magnetism and hypnotism and suppose that the effect of passes etc as used by Mesmer is in its way as much physical as the method of producing hypnotism by concentrating the gaze of the subject on a bright object or the like I hope to be able to prove what I firmly hold both from my own personal experience and experiment as I have already related in the Nineteenth Century that there is no such thing as a potent mesmeric influence no such power resident in any one person more than another that a glass of water a tree a stick a penny post letter or a lime light can mesmerize as effectually as can any individual Luys to the effect that the physical magnet and electricity may affect persons in the hypnotic state and that certain drugs in sealed tubes placed upon the patients neck during the condition of hypnosis will produce the same effects which those drugs would produce if taken internally or as the nature of the drugs would seem to call for if imbibed in a more complete fashion This definition follows An abnormal state into which some persons may be thrown either by a voluntary act of their own such as gazing continuously with fixed attention on some bright object held close to the eyes or by the exercise of another persons will characterized by suspension of the will and consequent obedience to the promptings of suggestions from without
