**Apologizing for God** Mark S. McLeod-Harrison, 2011-03-31 If radical postmodernism offers nothing more than arbitrary fictions and modernism is coldly but meaninglessly objective where is reality Apologizing for God argues that reality rests in the lives we live in history In other words it argues that living as understood on the basis of the incarnational nature of Christianity is an appropriate response to our current cultural situation Partly philosophical partly theological and deeply Christian Apologizing for God explores the importance of living in the presence of God as revealed in the autobiographies of our lives Although not autobiographical in the strict sense this book is an apologetic for the truth of Christianity explained through one Christian philosopher s understanding of our relationship to history in which God is revealed

*The Empire Writes Back* Bill Ashcroft, Gareth Griffiths, Helen Tiffin, 2003-12-16 The experience of colonization and the challenges of a post colonial world have produced an explosion of new writing in English This diverse and powerful body of literature has established a specific practice of post colonial writing in cultures as various as India Australia the West Indies and Canada and has challenged both the traditional canon and dominant ideas of literature and culture The Empire Writes Back was the first major theoretical account of a wide range of post colonial texts and their relation to the larger issues of post colonial culture and remains one of the most significant works published in this field The authors three leading figures in post colonial studies open up debates

about the interrelationships of post colonial literatures investigate the powerful forces acting on language in the post colonial text and show how these texts constitute a radical critique of Eurocentric notions of literature and language This book is brilliant not only for its incisive analysis but for its accessibility for readers new to the field Now with an additional chapter and an updated bibliography *The Empire Writes Back* is essential for contemporary post colonial studies *Ideology, Mobilization and the Nation* NA NA,2016-04-30 This book examines Irish Basque and Carlist nationalism in the nineteenth and early twentieth centuries The first chapter covers definitions of the nation and nationalism the relationship of both to politics and ideology and an overview of the inception and evolution of nationalism in Western Europe The following chapter explores case studies through providing historical background of the relevant regions of the UK and Spain and discussing the respective movements and their ideological development The final chapter deals with comparisons of the case studies and categorizes variants of nationalism in the liberal states of Europe *Energetics of Organic Free Radicals* José A. Martinho Simões,Joel F. Liebman,A. Greenberg,2012-12-06 **The Politics of Expertise** Matthew Hilton,Jean-François Mouhot,2013-04-25 Offers a challenging new interpretation of politics in contemporary Britain through an examination of non governmental organisations Demonstrate how politics and political activism has changed over the last half century

**The Political Use of Racial Narratives** Richard A. Pride,2024-03-18 Arguing that politics is essentially a contest for meaning and that telling a story is an elemental political act Richard A Pride lays bare the history of school desegregation in Mobile Alabama to demonstrate the power of narrative in cultural and political change This book describes the public personal and meta narratives of racial inequality that have competed for dominance in Mobile Pride begins with a white liberal s quest to desegregate the city s public schools in 1955 and traces which narratives those of biological inferiority white oppression the behavior and values of blacks and others came to influence public policy and opinion over four decades Drawing on contemporaneous sources he reconstructs the stories of demonstrations civic forums court cases and school board meetings as citizens of Mobile would have experienced them inviting readers to trace the story of desegregation in Mobile through the voices of politicians protestors and journalists and to determine which narratives were indeed most powerful Exploring who benefits and who pays when different narratives are accepted as true Pride offers a step by step account of how Mobile s culture changed each time a new and more forceful narrative was used to justify inequality More than a retelling of Mobile s story of desegregation *The Political Use of Racial Narratives* promotes the value of rhetorical and narrative analysis in the social sciences and history **Organizing Against Democracy** Antonis A. Ellinas,2020-01-30

*Organizing Against Democracy* investigates some of the most important challenges modern democracies face filling a distinctive gap in the literature both empirically and theoretically Ellinas examines the attempts of three of the most extreme European far right parties to establish roots in local societies and the responses of democratic actors He offers a theory of local party development to analyze the many factors affecting the evolution of far right parties at the subnational level Using

extraordinarily rich data the author examines the lives of local far right party organizations in Greece Germany and Slovakia studying thousands of party activities and interviewing dozens of party leaders and functionaries and antifascists He goes on to explore how and why extreme parties succeed in some local settings while in others they fail This book broadens our understanding of right wing extremism illuminating the factors limiting its corrosiveness *The United Service* ,1880

**The Unexpected Story of Nathaniel Rothschild** John Cooper,2015-07-16 The Unexpected Story of Nathaniel Rothschild is the only full length biography of Nathaniel the first Lord Rothschild 1840 1915 The Rothschild family in all its branches is of compelling and continuing interest and fascination A family that could make or break dynasties that could bankrupt industrial magnates but who also were outstanding philanthropists and collectors of some of the world s greatest art treasures Ardently supportive of the founding of the State of Israel Nathaniel was also adept at playing the political game within and without Jewry He went to extremes to ensure that Jewish refugees from Russian pogroms went to Palestine and did not come to the UK The first Jew in the House of Lords he had previously stood as a Liberal MP and fought for social justice He knew every leading British politician from Disraeli to Lloyd George Indeed as a leading figure in the City he helped Lloyd George to surmount this country s worst ever financial crisis He died a man mourned by the political elite and the masses It is only now that his story has been fully told The Age of Global Dialogue Leonard J. Swidler,2016-11-08

Thinking beyond the absolutes Christians and other religious persons increasingly find deabsolutized in our modern thought world Swidler reflects on the ways we humans think about the world and its meaning now that increasingly we notice that there are other ways of understanding the world than the way we grew up in In this new situation we need to develop a common language we can use together both to appreciate our neighbors and enrich ourselves what the author calls Ecumenical Esperanto because it should serve as a common language without replacing any of the living languages of our religious and ideological traditions Of course such thinking anew about the world and its meaning must necessarily mean thinking anew about all of our religious beliefs but this time in dialogue *State And Society In Algeria* John P Entelis,Phillip C Naylor,2019-06-04 On 11 January 1992 senior military officers forced President Chadli Benjedid to resign canceled the second round of legislative elections and annulled the results of the first round which saw the opposition Islamic Salvation Front FIS achieve a major electoral victory and imposed a year long state of siege Constitutional government was replaced by an army dominated so called Higher State Council responsive to no one but itself In the weeks and months that followed further draconian measures were undertaken intended to subvert the incipient democratic process that Algeria had been experiencing in the several years following the deadly riots of October 1988 As part of the army s effort to regain control of state and society it reined in the free wheeling press abolished the country s most popular political party FIS dissolved the National Assembly and reimposed on civil society the apparatus of the omnipresent state security system mukhabarat

Australian Literary Manuscripts in North American Libraries Nan Bowman Albinski,1997 *The Algebraic Mind* Gary F.

Marcus,2019-01-01 In *The Algebraic Mind* Gary Marcus attempts to integrate two theories about how the mind works one that says that the mind is a computer like manipulator of symbols and another that says that the mind is a large network of neurons working together in parallel Resisting the conventional wisdom that says that if the mind is a large neural network it cannot simultaneously be a manipulator of symbols Marcus outlines a variety of ways in which neural systems could be organized so as to manipulate symbols and he shows why such systems are more likely to provide an adequate substrate for language and cognition than neural systems that are inconsistent with the manipulation of symbols Concluding with a discussion of how a neurally realized system of symbol manipulation could have evolved and how such a system could unfold developmentally within the womb Marcus helps to set the future agenda of cognitive neuroscience     *Rolf Boldrewood* De Serville, Paul,1996-09-10 Rolf Boldrewood T A Browne was one of the best known novelists of nineteenth century Australia Robbery Under Arms brought him a national and an international audience It became a household name and has remained in print since 1889 Boldrewood was the first novelist to create specifically Australian characters He was one of the chief spokesmen for old pre goldrush Australia for pastoral Australia and above all for conservative Australia This biography attempts to uncover Boldrewood s ideas and to reveal the life of the man who was Boldrewood s alter ego Thomas Alexander Browne 1826 1915 Browne had three careers as a pioneer squatter civil servant and writer and epitomised the pioneer colonist who experiences sudden reversals of fortune Paul de Serville s research shows that he was not merely the sunny hopeful and genial man portrayed in earlier studies but rather an impulsive extravagant at times thoughtless optimist whose Micawber like temperament enabled him to escape being crushed by his ill judged decisions Browne used his own life and experiences as raw material for his novels but his career was in many ways far grimmer than most of his fiction     *American Empire and the Fourth World* Anthony J. Hall,2003-11-10 In *The American Empire and the Fourth World* Anthony Hall presents a sweeping analysis of encounters between indigenous people and the European empires national governments and global corporations on the moving frontiers of globalization since Columbus discovered America How should we respond to the emergence of the United States as the military commercial and cultural centre of a global empire How can we elaborate a global rule of law based on equality and democracy when the world s most powerful polity acknowledges no higher authority in the international arena than its own domestic priorities For Hall the answer lies in the concept of the Fourth World an inclusive intellectual tent covering a wide range of movements whose leaders seek to implement alternative views of globalization Larger than any earlier political movement the Fourth World embraces basic principles that include the inherent rights of self determination and a more just approach to the crafting and enforcement of international law

**Reading Across the Pacific** Robert Dixon,Nicholas Birns,2010 *Reading Across the Pacific* is a study of literary and cultural engagement between the United States and Australia from a contemporary interdisciplinary perspective The book examines the relations of the two countries shifting the emphasis from the broad cultural patterns that are often compared to

the specific networks interactions and crossings that have characterised Australian literature in the United States and American literature in Australia In the 21st century both American and Australian literatures are experiencing new challenges to the very different paradigms of literary history and criticism each inherited from the 20th century In response to these challenges scholars of both literatures are seizing the opportunity to reassess and reconfigure the conceptual geography of national literary spaces as they are reformed by vectors that evade or exceed them including the transnational the local and the global The essays in *Reading Across the Pacific* are divided into five sections National literatures and transnationalism Poetry and poetics Literature and popular culture The Cold War and Publishing history and transpacific print cultures
