Rails Across The Midlands:

Rails Across the Midlands Richard J. Cook, 1964 *Rails Around Preston* Mike Rhodes, 2025-03-15 The author has recorded the railway scene in the locality for over sixty five years His lavishly illustrated collection is a celebration of Preston s railway history *Railroads in the Midwest* H. Roger Grant, 2025-08-05 Discover how railroad companies in America s heartland developed a monumental network that spanned nearly 70 000 route miles Over a century a wide array of carriers ranging from short lines to trunk roads spread through the Midwest and represented over 35% of the country s rail mileage in the 1920s *Railroads in the Midwest* is a portrait of two premier rail hub rivals Chicago and St Louis and of Iowa and Ohio which boasted the highest line densities Before World War I Iowa railroad officials bragged that the Hawkeye State had a depot and agent located no farther than thirteen miles from any point within its borders In *Railroads in the Midwest* An Epic History renowned historian H Roger Grant draws on fifty years of research into America s celebrated railroad history to examine what effect railroads had in the heartland and what has happened to them since the early twentieth century

Rails in the Road Oliver Green, 2016-10-31 There have been passenger tramways in Britain for 150 years but it is a rollercoaster story of rise decline and a steady return Trams have come and gone been loved and hated popular and derided considered both wildly futuristic and hopelessly outdated by politicians planners and the public alike Horse trams introduced from the USA in the 1860s were the first cheap form of public transport on city streets Electric systems were developed in nearly every urban area from the 1890s and revolutionised town travel in the Edwardian era A century ago trams were at their peak used by everyone all over the country and a mark of civic pride in towns and cities from Dover to Dublin But by the 1930s they were in decline and giving way to cheaper and more flexible buses and trolleybuses By the 1950s all the major systems were being replaced Londons last tram ran in 1952 and ten years later Glasgow the city most firmly linked with trams closed its network down Only Blackpool famous for its decorated cars kept a public service running and trams seemed destined only for scrapyards and museums A gradual renaissance took place from the 1980s with growing interest in what are now described as light rail systems in Europe and North America In the UK and Ireland modern trams were on the streets of Manchester from 1992 followed successively by Sheffield Croydon the West Midlands Nottingham Dublin and Edinburgh 2014 Trams are now set to be a familiar and significant feature of twenty first century urban life with more development on the way Britain from the Rails Benedict Le Vay, 2009 There s a magical romance about trains that no other form of transport can capture Meeting under an iconic station clock at a grand terminus Gathering speed through city town and country swooping across viaducts rattling across huge junctions and whistling through tunnels At long last you are in a small Sussex beachside halt or a Welsh valley country station beside a quiet Norfolk waterway or winding through a remote forest high above a Scottish loch Dreamily you think Do those same twin ribbons of steel really lead all the way back to the greatest city in Europe Can this really be the very same seat Britain from the Rails travels to a world far from the

endless queues and prodding security of ugly airport terminals It abandons the cars to their motorway jams and soaring petrol prices and revels instead in the gems of Britain's historic railway system Bus Services Across the UK Great Britain: Parliament: House of Commons: Transport Committee,2006-10-26 Buses are a key local service but usage has been in decline since the 1950s The Transport Act 1985 introduced deregulation but that has failed to reverse that decline The report examines the particular problems local authorities face in developing and implementing effective bus strategies It is clear to the Committee that for many areas including all major metropolitan areas outside London the current regime is not working The Committee recommends more flexibility and is particularly attracted by Quality Contracts These would replace open competition with a licensed regime Operators bid for exclusive rights to run bus services on a route or group of routes on the basis of a local authority service specification Independent Traffic Commissioners are another development that the Committee welcomes and would like to see them have a higher profile and more resources and powers especially to enforce Quality Contracts and penalise operators who do not meet their obligations Others areas covered in the report are securing socially necessary services outside the PTAs congestion and bus priority concessionary fares and the image of the bus

High speed rail Great Britain: Parliament: House of Commons: Transport Committee,2011-11-08 The main report is available ISBN 9780215038579 and additional written evidence is contained in Volume 3 available on the Committee website at www.parliament.uk/transcom **Trains** ,1973 High Speed Rail Great Britain: Department for Transport,2013-01-28 This document sets out the government's initial preferences for phase two of HS2 extending the route north of Birmingham to Manchester and Leeds HS2 is a once in a generation opportunity to transform Britain's connectivity capacity and competitiveness It will be a national asset slashing journey times and improving services between our cities and regions It will also free up substantial space on the existing railway Part I of this document sets out more of the background to the HS2 project It describes in greater detail the role that high speed rail has to play in meeting the future transport and economic needs of this country Part 2 moves on to discuss the detail of the government's initial preferred route station and depot options for phase two It looks at the western and eastern sections in turn summarising each of the initial preferred route and station options running northwards from Birmingham and having five stops at Manchester Manchester Airport Toton in the East Midlands Sheffield and Leeds It also includes more details on how high speed trains would be able to continue to destinations such as Liverpool Runcorn Wigan Durham Newcastle Glasgow and Edinburgh through connections with the existing rail network It then explains the government's position on Heathrow Part 3 covers the next steps for the project The government has an extensive programme of collaboration and partnership working with key stakeholders to take the initial options presented in this document forward **Railways of the East Midlands** John Evans,2022-06-15 With previously unpublished images explore the history of the heyday of British railways in the East Midlands *Tracks Across Continents, Paths Through History* Douglas J. Puffert,2009-04 A standard track gauge the distance between the two rails enables

connecting railway lines to exchange traffic But despite the benefits of standardization early North American railways used six different gauges extensively and even today breaks of gauge at national borders and within such countries as India and Australia are expensive burdens on commerce In *Tracks across Continents Paths through History* Douglas J Puffert offers a global history of railway track gauge examining early choices and the dynamic process of diversity and standardization that resulted Drawing on the economic theory of path dependence and grounded in economic technical and institutional realities this innovative volume traces how early historical events and even idiosyncratic personalities have affected choices of gauge ever since despite changing technology and understandings of what gauge is optimal Puffert also uses this history to develop new insights in the theory of path dependence *Tracks across Continents Paths through History* will be essential reading for anyone interested in how history and economics inform each other
