Publications of the Metropolitan

Museum of Art, 1964-2005 Metropolitan Museum of Art,2012-10-09 The present volume Publications of The Metropolitan

Museum of Art 1964 2005 is a successor to a volume published by the Museum in 1965 entitled Publications of The

Metropolitan Museum of Art 1870 1964 These two bibliographic volumes endeavor to list all the known books pamphlets and serial publications bearing the Museum s imprint and issued by the institution during the first 135 years of its existence

through June 2005 The first volume was compiled by Albert TenEyck Gardner at the time an Associate Curator of American

Paintings and Sculpture and the present volume has been compiled from the Annual Reports issued by the Museum during the relevant years Together the two volumes testify to the tremendous contributions made to knowledge by the curators and

conservators of the Metropolitan and by the many other experts who have contributed to the Museum s exhibition catalogues

Various issues of the Bulletin emphasize the great sweep of the Museum s acquisitions during these years and the exhibition catalogues a number of them Alfred H Barr Jr Award or the George Wittenborn Award testify to the continuity of the

institution s dedicated program to enrich people s lives through knowledge of art This title was originally published in 2006

“And in Length of Days Understanding” (Job 12:12) Erez Ben-Yosef,Ian W. N. Jones,2023-08-01 This two volume

book presents cutting edge archaeological research primarily as practiced in the Eastern Mediterranean region These

volumes key foci are inspired by the work of Thomas E Levy Volume 1 provides an in depth look at new archaeological research in the southern Levant primarily in modern Israel and Jordan inspired by Levy s commitment to understanding

social political and economic processes in a long term or deep time perspective Volume 2 focuses on new research in several

key areas of 21st century anthropological archaeology and archaeological science Volume 1 is organized around two major

themes 1 the later prehistory of the southern Levant or the Neolithic Chalcolithic and Bronze Age and 2 new research in

biblical archaeology or the historical archaeology of the Iron Age Each section contains a combination of new perspectives on

key debates and studies introducing new research questions and directions Volume 2 is organized around five major themes

1 the archaeology of the Faynan copper ore district of southern Jordan a key region for archaeometallurgical research in

West Asia where Levy conducted field research for over a decade 2 new research in archaeometallurgy beyond the Faynan

region 3 marine and maritime archaeology focusing on issues of trade and environmental change 4 cyber archaeology an

important 21st century field Levy conceived as the marriage of archaeology engineering computer science and the natural

sciences and 5 key issues in anthropological archaeological theory In addition to presenting the reader with an up to date

view of research in each of these areas the volume also has chapters exploring the connections between these themes e g the maritime trade of metals and cyber digital archaeological approaches to metallurgy The work contains contributions from both up and coming early career researchers and key established figures in their fields This book is an essential reference for archaeologists and scholars in related disciplines working in the southern Levant and the Eastern Mediterranean *Faking the Ancient Andes* Karen O Bruhns, Nancy L Kelker, 2016-09-16 Nasca pots Quimbaya figurines Moche porn figures stone shamans Fakes and forgeries run rampant in the Andean art collections of international museums and private individuals Authors Karen Bruhns and Nancy Kelker examine the phenomenon in this eye opening volume They discuss the most commonly forged classes and styles of artifacts many of which were being duplicated as early as the 19th century More important they describe the system whereby these objects get made purchased authenticated and placed in major museums as well as the complicity of forgers dealers curators and collectors in this system Unique to this volume are biographies of several of the forgers who describe their craft and how they are able to effectively fool connoisseurs and specialists This is an important accessible introduction to pre Columbian art fraud for archaeologists art historians and museum professionals alike A parallel volume by the same authors discusses fakes in Mesoamerican archaeology **Scale and the Incas** Andrew James Hamilton, 2018-06-05 A groundbreaking work on how the topic of scale provides an entirely new understanding of Inca material culture Although questions of form and style are fundamental to art history the issue of scale has been surprisingly neglected Yet scale and scaled relationships are essential to the visual cultures of many societies from around the world especially in the Andes In *Scale and the Incas* Andrew Hamilton presents a groundbreaking theoretical framework for analyzing scale and then applies this approach to Inca art architecture and belief systems The Incas were one of humanity's great civilizations but their lack of a written language has prevented widespread appreciation of their sophisticated intellectual tradition Expansive in scope this book examines many famous works of Inca art including Machu Picchu and the Dumbarton Oaks tunic more enigmatic artifacts like the Sayhuite Stone and Capacocha offerings and a range of relatively unknown objects in diverse media including fiber wood feathers stone and metalwork Ultimately Hamilton demonstrates how the Incas used scale as an effective mode of expression in their vast multilingual and multiethnic empire Lavishly illustrated with stunning color plates created by the author the book's pages depict artifacts alongside scale markers and silhouettes of hands and bodies allowing readers to gauge scale in multiple ways The pioneering visual and theoretical arguments of *Scale and the Incas* not only rewrite understandings of Inca art but also provide a benchmark for future studies of scale in art from other cultures **The Colonial Andes** Elena Phipps, Johanna Hecht, Cristina Esteras Martín, Metropolitan Museum of Art (New York, N.Y.), 2004 The arrival of the Spanish in South America in 1532 permanently transformed the Andean cultural landscape Within a generation societies that had developed over thousands of years including the great Inca Empire had been irrevocably altered The arts from the Spanish colonial period those that drew on native traditions such as textiles silver

woodwork and stonework as well as painting sculpture and other genres introduced by the Spanish preserve an unspoken dialogue that developed between Andean and European modes of expression This beautiful book presents silver objects textiles and other masterpieces of colonial Andean culture Essays discuss the artistry of this culture and explain how it has been recently reevaluated and celebrated for its vibrant energy reflecting the convergence of two essentially distinct cultural traditions This book accompanies an exhibition at The Metropolitan Museum of Art September 29 to December 12 2004 Elena Phipps is conservator Textile Conservation and Johanna Hecht is associate curator European Sculpture and Decorative Arts at The Metropolitan Museum of Art

Curatopia Philipp Schorch,Conal McCarthy,2018-11-30 What is the future of curatorship Is there a vision for an ideal model a curatopia whether in the form of a utopia or dystopia Or is there a plurality of approaches amounting to a curatorial heterotopia This pioneering volume addresses these questions by considering the current state of curatorship It reviews the different models and approaches operating in museums galleries and cultural organisations around the world and discusses emerging concerns challenges and opportunities The collection explores the ways in which the mutual asymmetrical relations underpinning global scientific entanglements of the past can be transformed into more reciprocal symmetrical forms of cross cultural curatorship in the present arguing that this is the most effective way for curatorial practice to remain meaningful International in scope the volume covers three regions Europe North America and the Pacific

The Worlds of the Moche on the North Coast of Peru Elizabeth P. Benson,2012-07-15 The Moche or Mochica created an extraordinary civilization on the north coast of Peru for most of the first millennium AD Although they had no written language with which to record their history and beliefs the Moche built enormous ceremonial edifices and embellished them with mural paintings depicting supernatural figures and rituals Highly skilled Moche artisans crafted remarkable ceramic vessels which they painted with figures and scenes or modeled like sculpture and mastered metallurgy in gold silver and copper to make impressive symbolic ornaments They also wove textiles that were complex in execution and design A senior scholar renowned for her discoveries about the Moche Elizabeth P Benson published the first English language monograph on the subject in 1972 Now in this volume she draws on decades of knowledge as well as the findings of other researchers to offer a grand overview of all that is currently known

about the Moche Touching on all significant aspects of Moche culture she covers such topics as their worldview and ritual life ceremonial architecture and murals art and craft supernatural beings government and warfare and burial and the afterlife She demonstrates that the Moche expressed with symbolic language in metal and clay what cultures in other parts of the world presented in writing Indeed Benson asserts that the accomplishments of the Moche are comparable to those of their Mesoamerica contemporaries the Maya which makes them one of the most advanced civilizations of pre Columbian America
