

INTRODUCTION TO MODES OF THE MAJOR SCALE

This book is designed to give you an introduction to jazz-rock keyboard playing. First, understanding the various modes of the major scale is imperative. Each of these modes is derived by starting on a different note of the major scale. Every mode is a new scale with a sound of its own, upon which accompaniments and improvised solos—or even whole compositions—may be based.

The first mode is called *ionian*. *Ionian* is formed by starting on the first note (or first scale degree) of the major scale. It sounds identical to the parent major scale. Example 1 shows the C *ionian* mode.

Ex. 1

C *ionian*

TRACK 1

Each of the modes can be outlined in several ways. One of the ways to begin hearing the properties of the mode is to play a triad-position four-note chord on the first scale degree. The sound of *ionian* is the sound of a major triad chord, shown in Example 2.

Ex. 2

TRACK 2

Most of the modes have additional patterns for portraying the characteristic sound. One may find that most modes have extra color added to them, and finding a triad harmony to place over the root helps to emphasize that. With *ionian*, a "V over scale degree I" is a preferred sound. In C *ionian*, it will be a G major triad over a C base note, as in Example 3.

Ex. 3

TRACK 3

The *ionian* mode, like the major scale, can be harmonized using I, IV, and V triads over each note of the scale. Example 4 demonstrates.

Ex. 4

TRACK 4

The second mode—shown in Example 3—is *Dorian*, which starts on the second scale degree of the major scale. In this case it will begin on D and continue up to the octave, using the notes of the C major scale.
