Principles of the Harpsichord by Monsieur de Saint Lambert St Lambert,1984-03-15 Saint Lambert s *Principles of the Harpsichord* of 1702 was the first tutor for harpsichord to be published in France It draws upon the dance oriented harpsichord style developed during the reign of Louis XIV by such masters as Jacques Champion de Chambonnières Louis Couperin and Jean Henry d Anglebert In subject matter it ranges from the fundamentals of music through questions of meter and tempo to particulars of harpsichord technique and ornamentation Because of its broad scope it is an important source of information about both late seventeenth century French performance practice and music theory It provides a good complement to François Couperin s well known book *l Art de toucher le clavecin* of 1717 in that it deals with the musical style of the generation preceding Couperin and includes subjects not discussed by him Although nothing is known about Saint Lambert himself it is clear from this work that as a teacher he was thorough sympathetic and open minded His book is deserving of a place on the shelf of anyone professional or amateur who is interested in the music of the Grand Si cle For this first English edition Rebecca Harris Warrick has added a substantial introduction and full annotation throughout the text Publisher description

The Active Participation of the Faithful in the Eucharist on the Basis of Common Priesthood Stella Adamma Nneji,2018-06-15 One of the significant points of the Second Vatican Council is its emphasis on the status of the lay faithful in the church which includes active participation in the life of faith The council spoke of the active participation of all the faithful in liturgical celebrations on the basis of the common priesthood of the faithful which is conferred during baptism and through which every believer shares in the priestly kingly and prophetic offices of Christ In this book Stella Nneji develops an ecclesiological critical reflection on the teaching of the Second Vatican Council with regard to active participation Focusing especially on the church as people of God Nneji shows how the idea of participation is not merely a passive action but an active one Based on the ecclesiological reflection on the church as people of God and its relevance for active participation she maintains that Vatican II s vision on active participation is relevant to the upbuilding of the body of Christ church This vision integrates a critical thinking especially regarding those places where the implementation of Vatican II s teachings seems difficult
