Adventures with the Theory of the Baroque and French Philosophy

Nadir Lahiji,2016-09-22 Analysing the reception of contemporary French philosophy in architecture over the last four decades *Adventures with the Theory of the Baroque and French Philosophy* discusses the problematic nature of importing philosophical categories into architecture Focusing particularly on the philosophical notion of the Baroque in Gilles Deleuze this study examines traditional interpretations of the concept in contemporary architecture theory throwing up specific problems such as the aestheticization of building theory and practice Identifying these and other issues Nadir Lahiji constructs a concept of the baroque in contrast to the contemporary understanding in architecture discourse Challenging the contemporary dominance of the Neo Baroque as a phenomenon related to postmodernism and late capitalism he establishes the Baroque as a name for the paradoxical unity of kitsch and high art and argues that the digital turn has enhanced the return of the Baroque in contemporary culture and architectural practice that he brands a pseudo event in the term neobaroque Lahiji s original critique expands on the misadventure of architecture with French Philosophy and explains why the category of the Baroque if it is still useful to keep in architecture criticism must be tied to the notion of Post Rationalism Within this latter notion he draws on the work of Alain Badiou to theorize a new concept of the Baroque as Event Alongside close readings of Walter Benjamin Theodor Adorno and Michel Foucault related to the criticism of the Baroque and Modernity and discussions of the work of Frank Gehry in particular this study draws on Jacques Lacan s concept of the baroque and presents the first comprehensive treatment of the psychoanalytical theory of the Baroque in the work of Lacan

The Adventure of French Philosophy Alain Badiou,2022-03-01

The Adventure of French Philosophy is essential reading for anyone interested in what Badiou calls the French Moment in contemporary thought Badiou explores the exceptionally rich and varied world of French philosophy in a number of groundbreaking essays published here for the first time in English or in a revised translation Included are the often quoted review of Louis Althusser s canonical works *For Marx* and *Reading Capital* and the scathing critique of potato fascism in Gilles Deleuze and Félix Guattari s *A Thousand Plateaus* There are also talks on Michel Foucault and Jean Luc Nancy and reviews of the work of Jean François Lyotard and Barbara Cassin notable points of interest on an expansive tour of modern French thought Guided by a small set of fundamental questions concerning the nature of being the event the subject and truth Badiou pushes to an extreme the polemical force of his thinking Against the formless continuum of life he posits the need for radical discontinuity against the false modesty of finitude he pleads for the mathematical infinity of everyday situations against the various returns to Kant he argues for the persistence of the Hegelian dialectic and against the lure of ultraleftism his texts from the 1970s vindicate the role of Maoism as a driving force behind the communist Idea

The Adventures of Transcendental Philosophy Eduardo Mendieta,2002-07-23

Karl Otto Apel is one of the most important German philosophers of the 20th century and is finally

African Philosophical Adventures John Murungi,2023-05-31 African Philosophical Adventures presents African philosophy as a convergence wherein what is African what is philosophy and what is an adventure enter an inter relational and reciprocal process each giving birth to the others Philosophy whether African or non African is an open ended process There is no finality in what it says about itself or about the subject matter that it investigates John Murungi uses this sense of philosophy to guide the chapters in this book The word adventure bears this sense of philosophy and the same time informs what is to be understood as African philosophy The singularity of African philosophy as well as its link to other branches of philosophy is subject to adventure Readers of this book who are themselves adventurers in the world of philosophy will benefit greatly For those who are not already so it will be an invitation to undertake such an adventure

Seven Types of Adventure Tale Martin Burgess Green,1991 From Alexandre Dumas to Raymond Chandler Martin Green examines adventure stories and their role in spreading the ideology of the modern nation state Seven Types of Adventure Tale studies widely read and influential adventure tales of the eighteenth through the twentieth centuries in the respectable literary forms Some of the authors considered are Dumas Scott Defoe Cooper Verne Buchan Kipling Twain and Chandler These stories though adapted and copied innumerable times and read in their native languages and in translation throughout the Western world have been largely neglected by literary theorists Green offers a way to take the adventure tale seriously by positioning these stories within a new theoretical framework Green places the tales in seven categories organized according to the type of central character in each story The first category is the Robinson Crusoe story which portrays the myth of entrepreneurial capitalism and modern or postfeudal politics This story has appeared in one hundred well known versions including The Swiss Family Robinson and Lord of the Flies since Defoe published his version The second category is the Three Musketeers story mythifying the birth of the French state and by extension the birth of other nation states The third is the Frontiersman story originally about American history but a powerful myth far beyond U S borders The fourth the Avenger story is tied to the myth of an avenging return by Napoleon to France but more generally to a threat to the bourgeois ruling classes of the nineteenth century Europe The fifth is the Wanderer story which relates to escaping from social discipline but also to spying and disguises and crossing frontiers of all kinds The sixth the Saga story is a revision of the Icelandic and Teutonic sagas and reflects the myth of resurgent Germany after its unification in 1870 And the seventh category more specific to the twentieth century is the Hunted Man story in which an

individual hero is pitted against social juggernaut such as the state the Mafia or a giant corporation

Seven Types of Adventure Tale is the second volume of a three volume study of adventure by Green that began with *The Robinson Crusoe Story*
