Dancing with Shadows and Other Stories Olabisi Gwamna, 2008 The stories in this work are an assortment of bildungsroman most of them recalling childhood experiences in Nigeria They have been written bearing in mind the generation of young Africans born to Africans in the United States Most of these individuals have spent little or no time on the continent and are therefore unaware of the experiences and backgrounds from which their parents come This collection regales the reader with tales of intrigue fun and good humor as some of their parents knew them at the same time providing them with another source of cultural entertainment The stories narrated by the women reveal many cultural dilemmas encountered by some African women in America who find themselves crushed by the cumbersome burden of their gender in a country that has no use for their complicated lifestyle Although African Studies is far entrenched in the curricular of many universities very few books are available to cover all the cultural aspects of such a large study area Hopefully this collection

would serve as another perspective for enhancing multicultural understanding **Heritage Currency Auctions, CSNS Signature Auction Catalog #406** Ivy Press,2006-03 *The Complete C. S. In Laszlo Moholy Nagy Louis Kaplan applies the Derridean deconstructivist model of the signature effect to an intellectual biography of a Constructivist artist Inhabiting the borderline between life and work the book demonstrates how the signature inscribed by Moholy operates in a double space interweaving signified object and signifying matter autobiography and auto graphy Through interpretative readings of over twenty key artistic and photographic works Kaplan graphically illustrates Moholy s signature effect in action He shows how this effect plays itself out in the complex of relations between artistic originality and plagiarism between authorial identity and anonymity as well as in the problematic status of the work of art in the age of technical reproduction In this way the book reveals how Moholy s artistic practice anticipates many of the issues of postmodernist debate and thus has particular relevance today Consequently Kaplan clarifies the relationship between avant garde Constructivism and contemporary deconstruction This new and innovative configuration of biography catalyzed by the life writing of Moholy Nagy will be of critical interest to artists and writers literary theorists and art historians Star Trek: Signature Edition: Pantheon Michael Jan Friedman,2003-09-01 The Star Trek Signature Edition series continues with this thrilling adventure featuring Commander Spock Captain Kirk and the U S S Enterprise From Earth to the edge of our galaxy and beyond from the early days of warp flight to the latter half of the twenty fourth century humankind and its alien partners in the Federation have looked to their heroes to expand the limits of their knowledge And as each generation s pantheon of heroes has passed on into legend a new generation has risen to take its place So it was with the crew of the S S Valiant the first Earth vessel to cross the galactic barrier So it was with the crew of the Starship Stargazer and her fledgling commander Captain Jean Luc Picard And so it was with the U S S Enterprise NCC 1701 D the flagship of Starfleet which Picard commanded with wisdom and temperate maturity Over the years Fate has woven the voyages of these three vessels into a vivid skein of treachery and sacrifice hardship and determination tragedy and courage each step of the way demonstrating the immeasurable worth of the flawed but farseeing heroes who commanded them *1,000 Places to See in the United States and Canada Before You Die, updated ed.* Patricia Schultz,2011-03-11 The 1 000 Places to See books are pleasurable inspiring wondrous a best selling phenomenon and yes practical Announcing the updated edition of 1 000 Places to See in the USA Canada Before You Die The New York Times No 1 bestseller Because USA Canada is not only a wish book but also a guide this information including phone numbers Web addresses and more is now completely revised and updated For travel season for long summer weekends for whenever the mood strikes to pack up the car and set out to discover a new piece of America and Canada 1 000 Places to See in the USA Canada is a map to all the unique and wonderful places just around the corner Sail the Maine Windjammers out of Camden Explore the gold mining trails in Alaska s Denali wilderness Collect exotic shells on the beaches of Captiva Play tennis the way it was meant to be on grass at the lavish Victorian Newport Casino Take a barbecue tour of Kansas City Arthur Bryant s to Gates to Snead s There s the ice hotel in Quebec the stalacpipe organ in Virginia out of the way Civil War battlefields dude ranches and cowboy poetry readings and what to do in Louisville after the

Michael Carroll, 2016-03-31 Astronomical concepts can be truly hard to comprehend especially those of planetary sizes and distances from Earth and from each other These concepts are made more comprehensible by the group of illustrations in this book which put scale extraterrestrial objects side by side with objects on Earth we can more easily relate to For example study the pictures of Earth floating above Jupiter's Great Red Spot and the asteroid Itokawa resting beside Toronto's CN Tower These mind bending images bring things better into perspective and will help you understand the size and scale of our Solar System In later chapters you will be told how close the visionaries of the past came to guessing what today's explorers would find Astronomer painter Lucien Rudaux's masterpieces of Mars dust storms anticipated Viking and Mars rover images by nearly a century Space artist Ludek Pesek envisioned astronauts setting up camp on the lunar surface in scenes hauntingly similar to photos taken by Apollo astronauts decades later But the real benefit of this work is in better grasping the nature of our universe how big it is now large it is and how we fit into it
