Medieval Rhetoric Scott D. Troyan, 2004 A formidable challenge to the study of Roma Gypsy music is the

muddle of fact and fiction in determining identity This book investigates Gypsy music as a marked and marketable exotic substance and as a site of active cultural negotiation and appropriation between the real Roma and the idealized Gypsies of the Western imagination David Malvinni studies specific composers including Liszt Brahms Rachmaninov Janacek and Bartok whose work takes up contested and varied configurations of Gypsy music The music of these composers is considered alongside contemporary debates over popular music and film as Malvinni argues that Gypsiness remains impervious to empirical revelations about the real Roma

Miracles and Wonders in the Middle Ages and Early Modern Period

Albrecht Classen, 2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women's miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people's mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today

Wandering Women and Holy Matrons
Leigh Ann Craig, 2009 This book explores women's experiences of pilgrimage in Latin Christendom between 1300 and 1500 C E Later medieval authors harbored grave doubts about women's mobility literary images of mobile women commonly accused them of lust pride greed and deceit Yet real women commonly engaged

in pilgrimage in a variety of forms both physical and spiritual voluntary and compulsory and to locations nearby and distant Acting within both practical and social constraints such women helped to construct more positive interpretations of their desire to travel and of their experiences as pilgrims Regardless of how their travel was interpreted those women who succeeded in becoming pilgrims offer us a rare glimpse of ordinary women taking on extraordinary religious and social authority

The Routledge History of Medieval Christianity R. N. Swanson, 2015-04-10 The Routledge History of Medieval Christianity explores the role of Christianity in European society from the middle of the eleventh century until the dawning of the Reformation Arranged in four thematic sections and comprising 23 originally commissioned chapters plus introductory overviews to each part by the editor this book provides an authoritative survey of a vital element of medieval history Comprehensive and cohesive the volume provides a holistic view of Christianity in medieval Europe examining not only the church itself but also its role in influence on and tensions with contemporary society Chapters therefore range from examinations of structures theology and devotional practices within the church to topics such as gender violence and holy warfare the economy morality culture and many more besides demonstrating the pervasiveness and importance of the church and Christianity in the medieval world Despite the transition into an increasingly post Christian age the historic role of Christianity in the development of Europe remains essential to the understanding of European history particularly in the medieval period This collection will be essential reading for students and scholars of medieval studies across a broad range of disciplines

Pilgrims and Pilgrimage in the Medieval West Diana Webb, 2001-02-16 Pilgrimage was an integral part not only of medieval religion but medieval life and from its origins in the 4th century Mediterranean world rapidly spread to northern Europe as a pan European devotional phenomenon Drawing upon original source materials this text seeks to uncover the motives of pilgrims and the details of their preparation maintenance hazards on the route and their ideas about pilgrimage sites especially Jerusalem Compostela and Rome and gives an account of the multiplicity of interest which grew up around the many shrines along the way The period covered is from about 1000 AD to 1500 AD before the first crusade and the beginning of the great growth in pilgrimage in the Orthodox church Byzantine of Russia The bibliography includes printed sources and a listing of secondary works

for exploring the most central issues that concern scholars of pilgrimage studies today Contributors explore the contemporary meaning of the Camino through an interdisciplinary lens that reflects the increasing permeability between academic disciplines and fields bringing together a wide range of theoretical and critical perspectives cultural studies literary studies globalization studies memory studies ethnic studies postcolonial studies cultural geographies photography and material culture Chapters touch on a variety of genres blogs film graphic novels historical novels objects and travel guides and transnational perspectives Australia the Arab world England Spain and the United States *Medieval Iberian Crusade Fiction and the Mediterranean World* David A.
