Postcolonial Theory and Psychoanalysis Mrinalini Greedhar, 2008-04-30 Psychoanalytic theory has been the critical instrument of choice for colonial critics This book examines why critics who are otherwise suspicious of Western forms of knowledge are drawn to psychoanalytic theories and whether it is possible to use such theories without reproducing the colonial discourse that also structures psychoanalytic thought

On the Turn Bárbara Arizti, Silvia Martínez-Falquina, 2009-05-05 *On the Turn The Ethics of Fiction* in Contemporary Narrative in English is an attempt to listen to the various voices that participate in the current dialogue on the relationship between fiction and ethics The editors introduction investigates the current state of affairs on the return to ethics in critical and literary consideration and it opens up the way for the variety of approaches that follows Participants include internationally recognized scholars like Andrew Gibson Patricia Waugh or Native American fiction writer and poet Gordon Henry winner of the American Book Award in 1995 All in all contributors cover a significant geographical diversity and their approaches also vary from general theory to particular examples from traditional interpretations to post deconstruction ethics Authors analyze texts both mainstream and marginal colonial and postcolonial they examine the ethics of race gender and sexuality the ethics of self positioning and orientation the ethics of style the ethics of reception the ethics of mode and genre the ethics of extreme situations of evil disease and fascism In its search for a better understanding of the global nationalistic world of today *On the Turn* therefore moves beyond the scope of literary criticism into issues of wider more urgent relevance What should I ought I may I must I do if anything on the basis of reading when I have read a literary work What does reading a literary work authorize or even command me to do Writing an essay about the work would be one response *On the Turn* is a wonderfully diverse learned challenging provocative even sometimes controversial collection of essays on the ethical dimensions of literature This book is testimony to the continued lively interest in the ethical turn in

literary studies The authors are for the most part concerned with ethical theory and with ethically charged situations in postmodern novels in English as they shape readers values and judgments Poetry and non print media are however also discussed J Hillis Miller UCI Distinguished Research Professor of Comparative Literature and English University of California at Irvine The Ethics of Fiction is an important and exciting volume that explores with energy and rigour the connections between ethics and literature Relating literature to philosophy neurobiology politics religion deconstruction and psychoanalysis the twenty two contributors richly advance the ethical turn recently embraced by many critics Works by authors such as Ian McEwan A S Byatt Charles Palliser Hanif Kureishi J M Coetzee David Malouf George Orwell E L Doctorow Flannery O Connor Toni Morrison and Paul Auster are presented in a new light and complex topics such as territoriality the nature of love Islamophobia and the politics of representation are tackled with imagination and intellectual integrity This book is essential reading for anyone interested in the dialogue between ethics and literature Avril Horner Professor of English Kingston University      *Chaos and Madness* Mónica Calvo-Pascual, 2011 Preliminary Material INTRODUCTION HISTORY AND THE NOVEL AN OVERVIEW MASTERING THE ART THE HISTORICAL NOVEL AND LOCAL COLOR BETWEEN MAGIC AND MADNESS A PORTRAIT OF SPAIN AND ITS NEUROSES POSTMODERN CRITIQUE AND THE HAND OF THE HISTORIAN CHAOS COMPLEXITY AND INTERPRETATION BEYOND REFERENCE HISTORIOGRAPHIC METAFICTION IMPINGED BY SCIENCE FICTION THE NOVEL NEVER ENDS ON ALTERNATIVE WORLDS JEWISH CONNECTIONS AND INFINITE REGRESS CONCLUDING REMARKS NOVELS PUBLISHED BY MILTON LESSER UNDER THE FOLLOWING NAMES OR PSEUDONYMS SHORT STORIES BIBLIOGRAPHY INDEX      New Idols of the Cave Christopher Norris, 1997 This book offers a broad based critical survey of recent anti realist arguments in the philosophy of science cultural theory hermeneutics the sociology of knowledge and the interpretation of quantum mechanics      Conradian Contracts Tamas Juhasz, 2011-04-28 This book treats Joseph Conrad s simultaneous interests in exchange contracts and the condition of displacement The central hypothesis is that the novelist s characters face the option of signing or rejecting what might with some generalization be called a social covenant These individuals conduct a lonely or marginal existence and to ease their isolation they would like to re enter a community For this reason they are ready to contribute to larger collective causes and comply with those restrictions that social life in its contractual aspect requires As Julia Kristeva puts it The foreigner is the one who works yet engagement in transactions in order to earn a social position is fraught with difficulties In return for their contribution these hard working characters do not always receive the compensation that they had in mind especially when their definition of companionship violates the boundaries of legality and social propriety Their private illicit interests are bound to clash with communal ones and the ensuing negotiating readjustment or compromise seeking either crush the individual party or result in a redefinition of the notion of contract This link between exchange and displacement is explored in nine narratives Just as the concept of exile is used in a broad often metaphorical sense ranging from characters

who are actual migrants through individuals who occupy a marginal position within their native community to individuals who are caught between conflicting cultural economic models the trade or contractual alliance that can create or at least promise a sense of communal belonging and personal recognition is also manifold in its definition Although it always includes if to varying degrees the transference of economic goods or entering a specific agreement exchange is never limited to legal material procedures

**Capitalism and Schizophrenia in the Later Novels of Louis-Ferdinand Céline** Greg Hainge, 2001 Re examining the works of France's most controversial of literary figures this book contends that Louis Ferdinand Céline's pronouncements on the importance of style must be taken seriously if an understanding of those works is to be reached Capitalism and Schizophrenia in the Later Novels of Louis Ferdinand Céline provides a major reconsideration of the greater part of the oeuvre of this too often neglected author Leaving behind the symbolic capital that the name Céline accrued during the Second World War this study looks at the works written around and after this period in order to understand the importance of their revolutionary aesthetic not only for their genesis but also for their very content The approach taken is unashamedly theoretical which allows this study to provide insights not only into the works of Céline but also into those of the French thinkers Deleuze and Guattari whose thought it is argued here can only be apprehended through application

**Germinal Life** Keith Ansell-Pearson, 2012-10-12 Germinal Life is the sequel to the highly successful *Virroid Life* Where *Virroid Life* provided a compelling reading of Nietzsche's philosophy of the human Germinal Life is an original and groundbreaking analysis of little known and difficult theoretical aspects of the work of French philosopher Gilles Deleuze In particular Keith Ansell Pearson provides fresh and insightful readings of Deleuze's work on Bergson and Deleuze's most famous texts *Difference and Repetition* and *A Thousand Plateaus* Germinal Life also provides new insights into Deleuze's relation to some of the most original thinkers of modernity from Darwin to Freud and Nietzsche and explores the connections between Deleuze and more recent thinkers such as Adorno and Merleau Ponty

*Deleuze and the Genesis of Representation* Joe Hughes, 2011-10-20 *Deleuze and the Genesis of Representation* is a systematic study of three of Deleuze's central works *Difference and Repetition* *The Logic of Sense* and *Anti-Oedipus* Hughes shows how each of these three works develops the Husserlian problem of genetic constitution After an innovative reading of Husserl's late work Hughes turns to a detailed study of the conceptual structures of Deleuze's three books He demonstrates that each book is surprisingly similar in its structure and that all three function as nearly identical accounts of the genesis of representation In a highly original and crucial contribution to Deleuze Studies this book offers a provocative perspective on many of the questions Deleuze's work has raised What is the status of representation Of subjectivity What is a body without organs How is the virtual produced and what exactly is its function within Deleuze's thought as a whole By contextualizing Deleuze's thought within the radicalization of phenomenology Hughes is able to suggest solutions to these questions that will be as compelling as they are controversial
