**Redpath** Richard Feltoe,1991-08-15 Redpath today a household name for sugar in Canada has its roots in the story of an enterprising Scots immigrant initially a stone mason and later a building contractor during the boom days of Montreal's growth from a small provincial centre to a major North American city In 1854 the ever energetic John Redpath by then a self made millionaire in his late fifties launched a new career as an industrialist With his son Peter and the gifted George Alexander Drummond as manager he established Canada's first successful sugar refinery The Redpath story encompasses the influence of sugar as an economic force the emergence of the elegant social life of cosmopolitan Montreal and a hind sight view of the complexities of the love hate relationship between government and business This the first of two volumes moves through Canada's period of extensive industrialization to the turn of the century the impact of World War I and concludes in the post war years Throughout this period the familiar Redpath trademark a reproduction of John Redpath's signature is a reminder of the heritage inherent in Canada's business and social history **A Gentleman of Substance**

**International Books in Print** ,1997 **A History of Photography in Canada, Volume 1** Martha Langford,2025-09-22 From early reports of the invention to its wide application during World War I the idea of photography created anticipation and participation in the modern world The first volume of A History of Photography in Canada captures this phenomenon by looking at hundreds of photographs generated in and about Canada in the making and by listening to the chords they struck in the collective imagination Emphasizing technological readiness and cultural eagerness for the medium

Martha Langford shows how photography served ideals of progress and improvement as Canada's settler society looked to master the world by seizing its visible traces. The imposition of these programs on Indigenous Peoples and indentured labourers is confronted throughout this volume which offers both narratives and counternarratives of subjectification. Reproducing images of people, places, events and objects from the unceded territories of the First Nations, Inuit and Métis from British North America and from the Dominion of Canada and the Dominion of Newfoundland, Langford asks where and when photographs were taken, why and by whom. How did the making and preservation of a photograph alter the circumstances in which it was produced and how did this affect individual and collective consciousness? Alongside accomplished portraits, landscapes, still lifes and their vernacular counterparts, the book draws glimmers of photographic experience from treatises and doggerel, official reports and personal diaries, newspapers, magazines, letters and travelogues. *Anticipation to Participation* chronicles eight decades of reinvention and repurposing, from a wondrous discovery to the wide adoption of a basic tool for knowledge gathering, artmaking and journaling. Langford's sweeping narrative rewrites the history of photography from the bottom up, vividly expanding the definition of photographic experience.

Harvey Cushing, 2013-05. William Osler 1849-1919 is widely regarded as one of the most influential physicians of the late 19th and early 20th century and a key figure in the history of medicine. Besides his research activities and his dedicated scientific work, Osler's greatest contribution to the medical world has been the system of residency which he developed at the Johns Hopkins Hospital in Baltimore, thus introducing a new and deeply humanistic approach to the strictly scientific realm of traditional medicine. Harvey Cushing 1869-1939, a former student and close friend of Osler's and a pioneer of neurosurgery, has himself become an icon of modern medicine. He was one of the first physicians to use X-rays for diagnosing brain tumours and he developed revolutionary methods of blood pressure measurement. He also discovered Cushing's syndrome, the first autoimmune disease identified in a human being. This monumental biography earned him the Pulitzer Prize in 1926.

**Le canal de Lachine**. Yvon Desloges, Alain Gelly, 2002. Sans le canal de Lachine, Montréal ne serait pas devenue aussi rapidement la métropole commerciale et industrielle qu'elle est devenue. Interface entre l'Atlantique et les Grands Lacs, le canal verra voguer au fil de l'eau une flotte de navires en tous genres. De même, par sa seule présence, l'eau du canal suscitera l'implantation de l'industrie manufacturière le long de ses berges, les uns voulant s'approvisionner en énergie hydraulique, les autres tirant le maximum de cette ressource mésestimée. Avec une telle activité de rase campagne, les berges du canal se métamorphosent en frange urbaine. Le canal n'est plus seulement un lieu où l'on travaille, mais devient aussi un milieu de vie. Pour rendre compte de l'importance et de la particularité de ce canal, un album photo comme celui-ci ne cherche pas seulement offrir le splendide. Les photographies servent surtout d'appuis formidables au propos des auteurs. Car ce livre ne se veut pas

seulement un beau livre mais aussi un document o des points essentiels de l histoire du canal de sa construction la navigation en passant par les usines et les hommes sont mis en sc ne Bref o la mise en perspective historique prime sur la seule esth tique des photos
