Reflective Journey Toward Order:

The Reflective Journey Toward Order Marion Montgomery, 2008-10-01 This book embodies a sequence of closely related essays which explore the modern poet s uneasy awareness of a tradition the romantic tradition with which he must contend The author's premise is that the romantic age extends from The Divine Comedy through Wordsworth to Eliot The roots of contemporary questions about the self and alienation are seen to extend at least as far back as Dante who is the first poet to choose the ego as a focus for poetry of epic dimensions In the course of the study Montgomery considers the growing emphasis upon the self's becoming the focus of poetry until this shift culminated in the literature of the most autobiographical century in western letters the twentieth Dante Wordsworth and Eliot are discussed at length individually and in relation to one another as principal instances of the reflective poet The critic also considers other illustrative figures such as Milton Coleridge Keats Whitman Pound Joyce and Hemingway These and other writers have traveled along the romantic road anticipated by The Divine Comedy Finally the author suggests the road may end in a labyrinth so far as the contemporary writer is concerned In his increasing concern with the problems of the self and of the mind the poet has been forced to invent new modes and techniques which as the author demonstrates grow out of his response to the psychological and metaphysical preoccupations of his age A Companion to the Anthropology of the Body and Embodiment Frances E. Mascia-Lees, 2011-03-29 A Companion to the Anthropology of the Body and Embodiment offers original essays that examine historical and contemporary approaches to conceptualizations of the body In this ground breaking work on the body and embodiment the latest scholarship from anthropology and related social science fields is presented providing new insights on body politics and the experience of the body Original chapters cover historical and contemporary approaches and highlight new research frameworks Reflects the increasing importance of embodiment and its ethnographic contexts within anthropology Highlights the increasing emphasis on examining the production of scientific technological and medical expertise in studying bodies and embodiment ECEL 2019 18th European Conference on e-Learning Rikke Ørngreen, Bente Meyer, Mie Buhl, 2019-11-07 **Culturally Responsive and Sustaining Science Teaching** Elaine V.
