Africans on the Move Fasil Demissie, 2016-03-17 The 20th century witnessed the large

scale displacement and dispersal of populations across the world because of major political upheavals among them the two European wars decolonization and the Cold War These major events were followed by globalization which accelerated free trade and the mobility of capital new technologies of communication and the movement of people commodities ideas and cultures across the world This book explores the complexity of African migration and diaspora the discourse of diaspora engagement and new models of citizenship and transnationalism in the context of these issues This book was originally published as a special issue of African and Black Diaspora An International Journal The UNHCR and World Politics Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today Migrant Health and Resilience Peter H. Keith,Jennifer S. Holmes,2015 Although there are legal norms to secure the uniform treatment of asylum claims in the United States anecdotal and empirical evidence suggest that strategic and economic interests also influence asylum outcomes Previous research has demonstrated considerable variation in how immigration judges decide seemingly similar cases which

implies a host of legal concerns not the least of which is whether judicial bias is more determinative of the decision to admit those fleeing persecution to the United States than is the merit of the claim. These disparities also raise important policy considerations about how to fix what many perceive to be a broken adjudication system. With theoretical sophistication and empirical rigor, *Immigration Judges and U.S. Asylum Policy* investigates more than 500,000 asylum cases that were decided by U.S. immigration judges between 1990 and 2010. The authors find that judges treat certain facts about an asylum applicant more objectively than others; facts determined to be legally relevant tend to be treated similarly by judges of different political ideologies, while facts considered extralegal are treated subjectively. Furthermore, the authors examine how local economic and political conditions as well as congressional reforms have affected outcomes in asylum cases, concluding with a series of policy recommendations aimed at improving the quality of immigration law decision making rather than trying to reduce disparities between decision makers.

Biopolitics, Militarism, and Development David O'Kane, Tricia M. Redeker Hepner, 2009. Bringing together original contemporary ethnographic research on the Northeast African state of Eritrea, this book shows how biopolitics—the state-led deployment of disciplinary technologies on individuals and population groups—is assuming particular forms in the twenty-first century. Once hailed as the African country that works, Eritrea's apparently successful post-independence development has since lapsed into economic crisis and severe human rights violations. This is due not only to the border war with Ethiopia that began in 1998 but is also the result of discernible tendencies in the high modernist style of social mobilization for development first adopted by the Eritrean government during the liberation struggle (1961–1991) and later carried into the post-independence era. The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions, policies, and discourses. Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted. This insightful comparative volume places the Eritrean case in a broader global and transnational context.

Crisis and Emergency Management Ali Farazmand, 2017-09-25. More than 12 years have passed since the publication of the first edition of *Crisis and Emergency Management*. During that time, numerous disasters—from 9/11 to massive earthquakes in Iran and China, to the giant Asian Tsunami, Hurricane Katrina, and the Fukushima Tsunami and ensuing nuclear meltdown—have changed the way we manage catastrophic events. With contributions from leading experts, this second edition features 40 new chapters that address recent worldwide crises and what we have learned from emergency responses to them. See What's New in the Second Edition. Up-to-date concepts, theories, and practices. Analysis of recent disasters and their effect on emergency management. Policy and managerial lessons. Suggestions for capacity building in crisis and emergency management. The book covers a wide range of international issues using critical empirical and quantitative analyses. It discusses various approaches to topics such as resolving political tension and terrorism issues, the potential use of biological weapons, and the role of public

relations in crisis The author offers insight into organizational and community resiliency development a surprise management theory in practice for upgrading the knowledge and skills in managing crises and governing emergencies and better and more effective organizational political social and managerial coordination in the processes He presents case studies that enhance and advance the future theory and practice of crisis and emergency management while at the same time providing practical advice that can be put to use immediately Managing crises and governing emergencies in such an age of challenges demands a different kind of knowledge skills and attitudes that were not available yesterday This book gives you valuable information with applications at the macro micro organizational and interorganizational levels preparing you for emergency management in an increasingly globalized and uncertain world *Soldiers, Martyrs, Traitors, and Exiles* Tricia M. Redeker Hepner, 2009-08-11 The first ethnography of the Eritrean struggle for independence documents the transnational dimensions of revolution and nation building from the dual perspective of both Eritrea and its U S diaspora

Conflict and the Refugee Experience Assefaw Bariagaber, 2016-05-23 One of the most serious threats to peace security and the sovereignty of nations in the post Cold War era is population migration A particularly volatile form of this threat is the global refugee problem and nowhere is this issue more severe than in Africa This book offers a comprehensive analysis of refugee experience in the Horn of Africa It includes an examination of the dynamics of flight from the country of origin settlement in exile and repatriation to the country of origin Such an integrative approach sets this book apart from other studies and will serve as a reader for courses on ethno national conflicts migration international politics security and African politics Development Discourses Prasenjit Maiti, 2005 This Collection Of Essays Seeks To Explore Common Lessons From Political Sociology And Development Studies And In This Process Tries To Resolve The Tension Between The Author S Academic And Practitioner Worldviews The Author Has Tried To Highlight One Principal Concern In This Volume That Development Is More Often Than Not A Multicultural Construct Of Everyday Politics That Is Context Bound And Predicated By Statements Of Informed Choices On The Part Of The Stakeholders And Or Beneficiaries Involved So

Development Is More About Who Gets What When How Where And Why In Terms Of An Authoritative Allocation Of Values That Is Underpinned By Definitions Of Stakeholders Or Beneficiaries Or Affected Persons Such Definitions Are Power Statements That Are Scripted By Agencies That Generally Tend To View Development As An Unevenness That May Be Restructured In Terms Of Human And Physical Engineering As A Level Playing Ground Where Players Are Equipped With Uniform Access To Resources And Similar Opportunities This Is However A Contentious Issue Without Any Simple Answers Such An Interventionist Approach May Not Always Be Sponsored By The Mode Of Production Or The Marketplace Of Politics That By Definition Thrives On Discrepancies And Discriminations Among Unequally Affected Persons The Present Work Will Be Of Interest To Political Sociologists Economic And Social Historians Development Consultants Non Profit Professionals Social Workers Grassroots Activists Urban Planners Academics As Well As Researchers Working In The Development Sector
