Steadman, 2021-04-13 Renaissance Fun is about the technology of Renaissance entertainments in stage machinery and theatrical special effects in gardens and fountains and in the automata and self playing musical instruments that were installed in garden grottoes How did the machines behind these shows work How exactly were chariots filled with singers let down onto the stage How were flaming dragons made to fly across the sky How were seas created on stage How did mechanical birds imitate real birdsong What was artificial music three centuries before Edison and the phonograph How could pipe organs be driven and made to play themselves by waterpower alone And who were the architects engineers and craftsmen who created these wonders All these questions are answered At the end of the book we visit the lost garden of marvels at Pratolino with its many grottoes automata and water jokes and we attend the performance of Mercury and Mars in Parma in 1628 with its spectacular stage effects and its music by Claudio Monteverdi one of the places where opera was born Renaissance Fun is offered as an entertainment in itself But behind the show is a more serious scholarly argument centred on the enormous influence of two ancient writers on these subjects Vitruvius and Hero Vitruvius's Ten Books on Architecture were widely studied by Renaissance theatre designers Hero of Alexandria wrote the Pneumatics a collection of designs for surprising and entertaining devices that were the models for sixteenth and seventeenth century automata A second book by Hero On Automata Making much less well known then and now describes two miniature theatres that presented plays without human intervention One of these it is argued provided the model for the type of proscenium theatre introduced from the mid sixteenth century the generic design which is still built today As the influence of Vitruvius waned the influence of Hero grew **Early Modern Performance Beyond the Public Stage** Amrita Sen, Jennifer Linhart Wood, 2025-09-18 The

first major work to explore and analyse the popular extra theatrical performances in late medieval and Renaissance England This wider heterogeneous category of early modern performance included puppetry fireworks shows rope dancing minstrelsy performing animals games civic drama court masques university drama morris dances and ceremonial rituals all taking place in a variety of venues The volume reveals how these extra theatrical productions shaped urban and rural life and conveyed a

sense of spectacular excess of exceeding traditional genres conventional modes of performance and the typical bounds of theatrical space The spaces where medieval and early modern drama flourished include pageant carts convents private homes universities waterways and the streets of both urban and rural communities Much like public theatres these performance spaces also played a pivotal role in articulating individual communal and national aspirations Spanning the medieval period to the late 17th century this volume engages with questions of spatiality gender religion transcontinental exchanges and colonialism presenting the latest research from scholars across the globe John G. Demaray, 1999-06-01 In this analysis of Milton's artistry as an epic poet John G Demaray offers a fresh perspective on one of the world's great epic poems Placing *Paradise Lost* against the background of Renaissance theatrical and literary forms pageants baroque spectacles masques musical dramas and Continental heroic works Demaray offers the first extended critical reading of the poem as a unique theatrical epic incorporating heroic conventions theological materials and elements of visual pageantry He examines Milton's early experiments in prophetic verse and theatrical forms the poet's exposure to Italian theater and art during travels in 1638-39 and the influence of classical Continental and British works upon evolving drafts of *Paradise Lost* He relates the epic in new ways to the writings of Jonson Dryden and others Readers interested in seventeenth century literature Renaissance and baroque theater the epic religious writings and the creative processes of Milton's imagination will all find many original insights in *Milton's Theatrical Epic* Pieter Bruegel the Elder Todd M. Richardson, 2017-07-05 Pieter Bruegel the Elder *Art Discourse in the Sixteenth Century Netherlands* examines the later images by Bruegel in the context of two contemporary discourses art theoretical and convivial The first concerns the purely visual interactions between artists and artistic practices that unfold in pictures which often transgress the categorical boundaries modern scholars place on their work such as sacred and profane antique and modern and Italian and Northern In this context the images themselves those of Bruegel his contemporaries and predecessors make up the primary source material from which the author argues The second deals with the dialogue that occurred between viewers in front of pictures and the way in which pictorial strategies facilitated their visual experience and challenged their analytical capabilities In this regard the author expands his base of primary sources to include convivial texts dialogues and correspondences and texts by rhetoricians and Northern humanists addressing art theoretical issues Challenging the conventional wisdom that the artist eschewed Italianate influences this study demonstrates how Bruegel's later peasant paintings reveal a complicated artistic dialogue in which visual concepts and pictorial motifs from Italian and classical ideas are employed for a subject that was increasingly recognized in the sixteenth century as a specifically Northern phenomenon Similar to the Dutch rhetorician societies and French Pléiade poets who cultivated the vernacular language using classical Latin the function of this inter pictorial discourse the author argues was not simply to imitate international trends a common practice during the period but to use it to cultivate his own visual vernacular language Although the focus is primarily on Bruegel's later work the author's conclusions

are applied to sketch a broader understanding of both the artist himself and the vibrant artistic dialogue occurring in the Netherlands

The Roman Amphitheatre Katherine E. The Vatican to Vegas Norman M. Klein, 2024-10-27 A guided tour through the nuanced politics of architectural illusion The Vatican to Vegas takes the reader from lavish Baroque fantasies of the seventeenth century to the Electronic Baroque of today The scripted spaces described by Norman M Klein are punctuated with devices widely used in special effects since 1500 shocks surprise twists grand fakes and copies Since its first publication 2004 The Vatican To Vegas has emerged as a classic across many fields from media and architecture to the fine arts and urban planning Its timing was ironic Klein assumed in 2004 that the future of scripted illusion was about to radically shift This new edition brings the ironic story up to the present and into the digitally overwhelmed scripted spaces of the future

Allegory Angus Fletcher, 2021-06-08 Anyone who has ever said one thing and meant another has spoken in the mode of allegory The allegorical expression of ideas pervades literature art music religion politics business and advertising But how does allegory really work and how should we understand it For more than forty years Angus Fletcher's classic book has provided an answer that is still unsurpassed for its comprehensiveness brilliance and eloquence With a preface by Harold Bloom and a substantial new afterword by the author this edition reintroduces this essential text to a new generation of students and scholars of literature and art Allegory puts forward a basic theory of allegory as a symbolic mode shows how it expresses fundamental emotional and cognitive drives and relates it to a wide variety of aesthetic devices Revealing the immense richness of the allegorical tradition the book demonstrates how allegory works in literature and art as well as everyday speech sales pitches and religious and political appeals In his new afterword Fletcher documents the rise of a disturbing new type of allegory allegory without ideas

Performance in the Zócalo Ana Martínez, 2020-10-01 For more than five centuries the Plaza Mayor or Zócalo in Mexico City has been the site of performances for a public spectatorship During the period of colonial rule performances designed to ensure loyalty to the Spanish monarchy were staged there but over time these displays gave way to staged demonstrations of resistance Today the Zócalo is a site for both official government sponsored celebrations and performances that challenge the

state Performance in the Z calo examines the ways that this city square has achieved symbolic significance over the centuries and how national ethnic and racial identity has been performed there A saying in Mexico City is quien domina el centro domina el pa s whoever dominates the center dominates the country as the Z calo continues to act as the performative embodiment of Mexican society This book highlights how particular performances build upon each other by recycling past architectures and performative practices for new purposes Ana Mart nez discusses the singular role of collective memory in creating meaning through space and landmarks providing a new perspective and further insight into the problem of Mexico s relationship with its own past Rather than merely describe the commemorations she traces the relationship between space and the invention of a Mexican imaginary She also explores how indigenous communities Mexico s alienated subalterns performed as exploited objects exotic characters and subjects with agency The book s dual purposes are to examine the Z calo as Mexico s central site of performance and to unmask without homogenizing the official discourse regarding Mexico s natives This book will be of interest for students and scholars in theater studies Mexican Studies Cultural Geography Latinx and Latin American Studies Theorising and Designing Immersive Environments Ágnes-Karolina Bakk,Péter Kristóf Makai,2024-12-01 This edited volume discusses the topic of immersion approaching it from the perspective of various media and stakeholders experiencers and creators While the concept of immersion has gained widespread currency in the last decades beyond video games its critical theory has not reached the same momentum meaning that there is no unified way of using the term This causes many misunderstandings and stands as an obstacle to successful expectation management processes especially in the entertainment industry This book presents a nuanced platform of discussion to answer the question of how immersion can manifest itself in different media and how creators are embracing the current trends within the experience economy
