Assisting Russia's Transition Gianni Zanini, 2002-01-01 This evaluation assesses the development effectiveness of the World Bank s lending and non lending assistance to the Russian Federation since 1991 a 10 year period of tumultuous political economic and social change This report concludes that an assistance strategy concentrating on analytical and advisory services with limited financial support for Russia would have been more appropriate than one involving large volumes of adjustment lending

Russian Modernization Markku Kivinen, Brendan G. Humphreys, 2020-11-29 Building on an original interpretation of social theory and an interdisciplinary approach this book creates a new paradigm in the Russian studies Taking a fresh view of Russia s multiple experiences of modernization it seeks to explain the Putin era in a completely new way This book explores the paradoxical and contradictory aspects of Russia analyzing the energy dependent economy and hybrid political regime but also religion welfare and culture and their often complex interrelations Written by a community of both Western and Russian scholars this book re affirms the value of social science when confronting a society that has undergone enormous and costly systematic changes The Russian elites see modernization narrowly as economic and technological competitiveness The contributors to this volume see contemporary Russia facing a series of antinomies which are macro level dilemmas that cannot be abolished either by philosophical mediation or by immediate political decisions As

such they are the tension fields that constitute choices for various competing agencies This book will be of interest to scholars and students of Russian studies transition studies sociology social policy political science energy policy cultural studies and stratification studies Professionals involved in energy ecology and security policy will also find this publication a rich source

Ethnic Stratification and Economic Inequality around the World Max Haller in collaboration, Anja Eder, 2016-03-03 The modern world is characterised by pervasive economic inequalities Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations yet inequality within nations remains high and in some cases continues to increase Ethnic Stratification and Economic Inequality around the World investigates the reasons for these striking differences exploring the coincidence and interaction between economic stratification and ethnic differentiation Drawing on extensive international survey and statistical data the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality A systematic examination of the interaction between class structures social stratification and ethnic differentiation this book sheds light on the manner in which the resulting social structures produce different levels of economic inequality offering a fivefold typology of patterns of ethnic stratification which can be applied to present day world regions Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world it demonstrates what sociology as a science of social reality can significantly contribute to our understanding of global economic stratification The book is relevant for a wide social scientific audience particularly for sociologists economists and political scientists working in a comparative perspective

Elites and Classes in the Transformation of State Socialism David S. Lane, 2012-09-25 The year 2011 marks the twentieth anniversary of the end of the Soviet Union This may be an appropriate time to evaluate the adoption by previously state socialist societies of other economic and political models The transition has sometimes been described in positive terms as a movement to free societies with open markets and democratic elections Others have argued that the transition has created weak poverty stricken states with undeveloped civil societies ruled by unresponsive political elites Which is the more accurate assessment David Lane examines a few of the theoretical approaches that help explain the trajectory of change from socialism to capitalism He focuses on two main approaches in this volume elite theories and social class Theories dwelling on the role of elites regard the transformation from socialism to capitalism as a type of system transfer in which elites craft democratic and market institutions into the space left by state socialism Lane contrasts this interpretation with class based theories which consider transformation in terms of revolution and explain why such theories have not been considered the best way of framing the transition in the post socialist states While recognizing that elites can play important roles and have the capacity to transform societies Lane contends that elite theories alone are inadequate to explain a system change that brings free markets In contrast he proposes a class approach in which two groups characterize state socialism an administrative class and an acquisition class

International Studies in Educational Inequality, Theory and Policy Richard Teese, Stephen Lamb, Marie Duru-Bellat, 2007-06-03 Inequality is a marked and persistent feature of education systems both in the developed and the developing worlds Major gaps in opportunity and in outcomes have become more critical than in the past thanks to the knowledge economy and globalization More and more populations both

rich and poor depend on successful use of school and on gaining post school qualifications But access to high quality schooling success at school and chances of higher education all remain socially divided with implications for economic opportunities personal growth and civic and community development What causes these divisions in how education systems work Have decades of public investment brought about at least some improvements even if major gaps remain If not what are the barriers the social processes which have frustrated the efforts of government The pursuit of equity as a goal of public policy is examined in this book through a series of national case studies covering many different global contexts from the wealthiest to some of the poorest nations on earth What have we learnt from the policy experience globally Do we know more today than yesterday about the origins of social inequality Are our policies better framed better designed to tackle inequality And which way forward What does the evidence suggest in terms of future approaches and emphasis This work is published in three volumes which together form a 3 volume set

Tackling Inequality R. Layard, 1999-03-22 Richard Layard is one of Britain's foremost applied economists whose work has had a profound impact on the policy debate in Britain and abroad This book contains his most influential articles on education equality and income distribution and on the lessons of economic transition in Eastern Europe It is published along with a companion volume Inequality argues that lifetime inequality is the basic inequality we should worry about In this context education is a powerful instrument of redistribution as well as a national investment Cash redistribution has efficiency costs which can be calculated but it may also serve to discourage inefficient over work arising from each person's efforts to earn more than his neighbour A final series of essays is based on Layard's recent work on reform strategies in Russia and Poland The book opens with Richard Layard's personal credo Why I became an economist
