Harris,Brian Moriarty,Andrew C. Wicks,2014-07-03

Provides much needed thinking on the topic of public trust in business blending current academic research with conclusions for future practice      Resurgent India Jagadish Shettigar,Pooja Misra,2022-05-02 In the backdrop of the Coronavirus having wreaked havoc on nations across the world and adversely impacting economic growth of countries the government and monetary authorities such as the Reserve Bank of India stepped forward with conventional as well as unconventional stimulus measures This was the time for the Government and fellow Indians to reboot redraw and reinvent the wheel of progress and paint a new standing in the World Economic Order Thus in light of the above mentioned macroeconomic scenario existing in India in June 2020 the authors decided to continuously examine the important measures and policies

announced by the Government and evaluate its impact on the country Part 1 of the book traces the preceding trends in the economic growth of the country during 2010-20 the initial impact of the virus on the Indian economy the macroeconomic perspectives including the required fiscal measures through the very first post pandemic budget i.e. for 2021-22 and the country's progress on the path to economic recovery in the first quarter of 2022 Part 2 critically analyses policy initiatives undertaken by the Government for achieving an Atmanirbhar Bharat self-reliant India short-term and long-term structural reforms agricultural reforms the six pillars on which the union budget 2021-22 has been formulated and bold measures like the proposal for asset monetization of PSUs and government's re-think on retrospective taxes Part 3 lays out a roadmap of policy suggestions which warrant government focus and attention to make India into a self-reliant nation These initiatives can help in achieving the dream of doubling farmers' income and making India into a global manufacturing hub This section also discusses the importance of cooperative federalism and challenges before the government in making India into a self-reliant nation especially in terms of administrative machinery and the judicial system

**Megacities** Frauke Kraas, Surinder Aggarwal, Martin Coy, Günter Mertins, 2013-07-12 As urbanization continues and even accelerates scientists estimate that by 2015 the world will have up to 60 megacities urban areas with more than five million inhabitants With the irresistible economic attractions of urban centers particularly in developing countries making the influx of citizens unstoppable many of humankind's coming social economic and political dramas will be played out in megacities This book shows how geographers and Earth scientists are contributing to a better understanding of megacities The contributors analyze the impact of socio-economic and political activities on environmental change and vice versa and identify solutions to the worst problems They propose ways of improving the management of megacities and achieving a greater degree of sustainability in their development The goals of wise use of human and natural resources risk reduction both social and environmental and quality of life enhancement are agreed upon But as this text proves the means of achieving these ends are varied Hence chapters cover an array of topics from health management in Indian megacities to planning in New York to transport solutions for the chronically traffic-choked Bangkok Authors cover the impact of climate change on megacities as well as less tangible issues such as socio-political fragmentation in the urban areas of Rio de Janeiro This exploration of some of the most crucial issues that we face as a species sets out research that is of the utmost importance with the potential to contribute substantially to global justice and peace and thereby prosperity
