**Narratives of Secularization** Peter Harrison, 2018-12-07 It is increasingly clear that histories of secularization are not simply dispassionate descriptions of the decline of religious belief and practice in the West Rather such narratives often seek to celebrate secularization promote some version of it lament it or otherwise oppose it in favour of a programme of desecularization or resacralization The aim of this book is to identify some of the major genres of the history of secularization and to explore their historical contexts normative commitments and tendential purposes The contributors to the volume offer different perspectives on these questions not least because a number of them are themselves participants in the cultural political programs described above The primary purpose of this book however is the identification of such programs rather than their promotion Overall the collection seeks to bring analytical clarity to ongoing debates about secularization and help explain the co existence of apparently conflicting stories about the origins of Western modernity This book was originally published as a special issue of the *Intellectual History Review* journal      *Religion and Public Doctrine in Modern England: Volume 1* Maurice Cowling, 2003-09-25 A further contribution to understanding the role played by Christianity in modern English thought      *Huxley's Church and Maxwell's Demon* Matthew Stanley, 2014-11-24 During the Victorian period the practice of science shifted from a religious context to a naturalistic one It is generally assumed that this shift occurred because naturalistic science was distinct from and superior to theistic science Yet as Huxley's *Church* and Maxwell's *Demon*

reveals most of the methodological values underlying scientific practice were virtually identical for the theists and the naturalists each agreed on the importance of the uniformity of natural laws the use of hypothesis and theory the moral value of science and intellectual freedom But if scientific naturalism did not rise to dominance because of its methodological superiority then how did it triumph Matthew Stanley explores the overlap and shift between theistic and naturalistic science through a parallel study of two major scientific figures James Clerk Maxwell a devout Christian physicist and Thomas Henry Huxley the iconoclast biologist who coined the word agnostic Both were deeply engaged in the methodological institutional and political issues that were crucial to the theistic naturalistic transformation What Stanley s analysis of these figures reveals is that the scientific naturalists executed a number of strategies over a generation to gain control of the institutions of scientific education and to reimagine the history of their discipline Rather than a sudden revolution the similarity between theistic and naturalistic science allowed for a relatively smooth transition in practice from the old guard to the new

**Religious Philosophy as Multidisciplinary Comparative Inquiry** Wesley J. Wildman,2010-11-05 What can philosophy contribute to the study of religion This book

argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future

**Scripture, Skepticism, and the Character of God** Dane Neufeld,2019-07-11 During a period of great religious upheaval Anglican philosopher and ecclesiastic Henry Longueville Mansel 1820 1871 became famous for his 1858 Bampton Lectures which sought to defend traditional faith by employing a skeptical philosophy Understanding Mansel and the passionate debate that surrounded his career provides insight into the current struggle for ancient religions to articulate their traditions in a modern world In Scripture Skepticism and the Character of God Dane Neufeld explores the life and thought of the now forgotten nineteenth century theologian Examining the ideological differences between this philosopher and his contemporaries Neufeld makes a case for the coherence of Mansel s position and traces the vestiges of his thought through the generations that followed him Mansel found himself at the centre of an explosive debate concerning the Christian scriptures and the moral character of the God they described Though the rise of science is often credited with provoking a crisis of doubt shifting ideas about humanity and God were just as central to the spiritual unrest of the nineteenth century Mansel s central argument that the entire Bible must be read as a unified witness to the reality of God provoked disagreement among theologians churchmen and free thinkers alike who were uncomfortable with certain aspects of the scriptural portrayal of God s activity and character Mansel s attempt to reconcile theological skepticism with

scripturalism was misunderstood He was branded a hopeless fideist by the free thinkers and a dangerous skeptic by high broad and evangelical churchmen alike Many of the controversies in contemporary Christianity concern the collision between modern morality and biblical renderings of God Neufeld argues that Henry Mansel while a deeply polarizing figure brought clarity and precision to this debate by exposing what was at stake for Christian belief and biblical interpretation in the Victorian period [View From the Murney Tower](#) Richard Allen,2008-06-15 Salem Goldworth Bland 1859 1950 was among the most significant religious leaders in Canadian history A Methodist and later United Church minister Bland s long career and widespread influence made him a leading figure in the popularizing of liberal theology social reform and the Social Gospel movement He was also a man who struggled with the polarities of evangelical faith and worldly culture and who sought a unifying world view in the mentoring of Sir J William Dawson in the sciences George Monro Grant in public affairs and John Watson in philosophy The View from the Murney Tower is a two volume biography of Salem Bland by Richard Allen author of The Social Passion Religion and Reform in Canada 1914 28 This first volume begins with Bland s upbringing in the home of an educated industrialist turned preacher It goes on to explore his emergence as a liberating mind and eloquent speaker prepared to support new currents of scientific and social thought as well as to discuss their implications for Christian faith and life Allen concludes this first volume with Bland s departure from central Canada for the west in 1903 by which time he had become a somewhat controversial figure amongst conservative evangelicals throughout the country More than just biography however The View from the Murney Tower is also an examination of progressive religion in late Victorian Canada a time in which Darwinism and other Biblical social and intellectual controversies were profoundly affecting the growth of a young nation *The Creation of Modern Quaker Diversity, 1830-1937* Stephen W.
