revolutionizing the creative arts Pre Raphaelitism has moved from the margins of nineteenth century art and literature to the vanguard of interdisciplinary studies The term is now used to denote the Pre Raphaelite Aesthetic and Decadent movements in art culture and literature but it has remained as difficult to define as ever Haunted Texts attempts to meet the challenge of defining and illustrating the full spectrum of Pre Raphaelitism Working with a diverse range of Pre Raphaelite poetry

painting decorative arts book illustration and political prose the ten contributors to *Haunted Texts* pursue the critical strategies of such leading figures as Christina Rossetti and Dante Rossetti William Morris and Oscar Wilde Walter Pater and Aubrey Beardsley The essays consider the bibliocritical issues of archival research concerning the personal letters and diaries of the Rossetti family the technological issues that challenge conventional methods of scholarship the gender issues concerning constructions of identity derived from the changing conceptions of love desire anxiety and brotherhood and the interdisciplinary cultural issues that transgress the borders of high art and popular culture *Haunted Texts* pays tribute to the scholarship of Professor William Fredeman who devoted much of his career since the 1950s to establishing a critical foundation that would enable future scholars to define their understanding of the complexity of Pre Raphaelitism **The**

**Reformation of the Image** Joseph Leo Koerner, 2004-05-03 With his 95 Theses Martin Luther advanced the radical notion that all Christians could enjoy a direct personal relationship with God shattering years of Catholic tradition and obviating the need for intermediaries like priests and saints between the individual believer and God The text of the Bible the Word of God itself Luther argued revealed the only true path to salvation not priestly ritual and saintly iconography But if words not iconic images showed the way to salvation why didn't religious imagery during the Reformation disappear along with indulgences The answer according to Joseph Leo Koerner lies in the paradoxical nature of Protestant religious imagery itself which is at once both iconic and iconoclastic Koerner masterfully demonstrates this point not only with a multitude of Lutheran images many never before published but also with a close reading of a single pivotal work Lucas Cranach the Elder's altarpiece for the City Church in Wittenberg Luther's parish As Koerner shows Cranach breaking all the conventions of traditional Catholic iconography created an entirely new aesthetic for the new Protestant ethos In the Crucifixion scene of the altarpiece for instance Christ is alone and stripped of all his usual attendants no Virgin Mary no John the Baptist no Mary Magdalene with nothing separating him from Luther preaching the Word and his parishioners And while the Holy Spirit is nowhere to be seen representation of the divine being impossible it is nonetheless dramatically present as the force animating Christ's drapery According to Koerner it is this iconoclasm that animates the best Reformation art Insightful and breathtakingly original *The Reformation of the Image* compellingly shows how visual art became indispensable to a religious movement built on words

**Imagining Jewish Authenticity** Ken Koltun-Fromm, 2015-01-28 Exploring how visual media presents claims to Jewish authenticity *Imagining Jewish Authenticity* argues that Jews imagine themselves and their place within America by appealing to a graphic sensibility Ken Koltun-Fromm traces how American Jewish thinkers capture Jewish authenticity and lingering fears of inauthenticity in and through visual discourse and opens up the subtle connections between visual expectations cultural knowledge racial belonging embodied identity and the ways images and texts work together *AIDS Narratives* Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the

construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it
