Essentials of Intellectual Property Amir H. Khoury, 2007 *Artificial Intelligence and Intellectual Property* Jyh-An Lee, Reto Hilty, Kung-Chung Liu, 2021-02-25 Artificial Intelligence AI has become omnipresent in today's business environment from chatbots to healthcare services to various ways of creating useful information While AI has been increasingly used to optimize various creative and innovative processes the integration of AI into products services and other operational procedures raises significant concerns across virtually all areas of intellectual property IP law While AI has drawn extensive attention from IP experts globally this is the first book providing a broad and comprehensive picture from the perspectives of the very nature of AI technology its commercial implications its interaction with different kinds of IP IP administration software and data its social and economic impact on the innovation policy and

ultimately AI's eligibility as a legal entity Antitrust Enforcement & Intellectual Property Rights: Promoting Innovation & Competition United States. Department of Justice, 2007 **Non-Conventional Copyright** Enrico Bonadio, Nicola Lucchi, 2018-10-26 Copyright law has always somehow managed to adapt to new technological and social developments as well as to new artistic and creative practices However every time such a development occurs the legitimate question arises if the system is adaptable or if the breakthrough is so gigantic that a new system needs to be elaborated In any case new scholarly reflections are needed in regular intervals and that is exactly the purpose of this fascinating edited collection by Enrico Bonadio and Nicola Lucchi on non conventional copyright exploring from various angles the copyright issues of all sorts of creations ranging from unconventional art forms new music and atypical cultural practices to new advances in technology not forgetting to investigate the delicate issues around copyright on illegal and immoral works Christophe Geiger University of Strasbourg France Copyright law constantly evolves to keep up with societal changes and technological advances Contemporary forms of creativity can threaten the comfortable conceptions of copyright law as creative people continually find new ways of expressing themselves In this context Non Conventional Copyright identifies possible new spaces for copyright protection With current copyright law in mind the contributions explore if the law should be more flexible as to whether new or unconventional forms of expression including graffiti tattoos land art conceptual art and bio art engineered DNA sport movements jokes magic tricks DJ sets perfume making typefaces or illegal and immoral works deserve protection Vitally the contributors suggest that it may be time to challenge some of the basic tenets of copyright laws by embracing more flexible ways to identify protectable works and interpret the current requirements for protection Additionally some contributors cast doubts about whether copyright is the right instrument to address and regulate these forms of expression Contemporary in topic this thought provoking book will be essential reading for intellectual property law scholars practitioners and policymakers Creative people and those involved in the creative industries will also find this book an engaging read Contributors include E Bonadio S Burke C Cronin T Dagne T W Dornis F J Dougherty T M Gates M P George E Haber S Karapapa Y M King T Iverson N Lucchi G Mazziotti J McCutcheon L McDonagh M Maggiore P Mezei M Mimler A G Scaria C Y N Smith X Tang **China Court Cases on Intellectual Property Rights** ??, 2011-01-01 This book presents in extraordinary detail sixteen landmark cases that profoundly affect the protection of intellectual property rights in China Written by six prominent Chinese legal scholars and jurists including judges who themselves participated in these decisions each case is fully described and analysed the parties and their representatives the basic facts the facts ascertained by the court the evidence presented by plaintiffs and defendants the judges opinions with their arguments and reasoning the unanimous conclusions and the judgment along with a wealth of deeply informed comment Among the questions raised by these cases are the following Is a website within the definition of a work in copyright law and thus protected How should the acts of uploading and downloading of works from the Internet be classified Can the concept of torts be applied in the Internet

context What is the legal liability of an Internet service provider How is a defendant's unreasonable conduct to be determined Who is responsible for the determination of artistic value e.g. of clothing designs What evidence must be presented to serve as sufficient proof that a domain name is a party's own creation In what a manner should packaging and decoration be regarded How should the author in copyright conflict cases be identified How should an unauthorized web link be judged When do separate components assembled to create a product enjoy copyright protection How should damages be determined An introductory essay provides a detailed overview of the characteristics of China's intellectual property law as it continues to develop with attention to such factors as the specific laws enacted the various courts and tribunals to which IP cases are assigned the progress of a case starting from filing to winding up regulations reform programs and rules of evidence The editor puts forward his own proposals particularly in light of the so-called interfering factors on reform of civil trial style in intellectual property cases It is difficult to overstate the value of this book to anyone involved in business dealings in China With its authoritative expertise abundant detail and thorough elucidation of the salient features of developing IP law and practice in China it will serve interested parties for years to come Civil Liability for Artificial Intelligence and Software Mark A. Geistfeld, Ernst Karner, Bernhard A. Koch, Christiane Wendehorst, 2022-11-21 Initiated by the European Commission the first study published in this volume analyses the largely unresolved question as to how damage caused by artificial intelligence AI systems is allocated by the rules of tortious liability currently in force in the Member States of the European Union and in the United States to examine whether and if so to what extent national tort law regimes differ in that respect and to identify possible gaps in the protection of injured parties The second study offers guiding principles for safety and liability with regard to software testing how the existing *acquis* needs to be adjusted in order to adequately cope with the risks posed by software and AI The annex contains the final report of the New Technologies Formation of the Expert Group on Liability and New Technologies assessing the extent to which existing liability schemes are adapted to the emerging market realities following the development of new digital technologies Patent It Yourself David Pressman, David E. Producing for TV and Video Cathrine Kellison, 2006 A comprehensive practical book about the TV producer's roles and responsibilities

Copyright and Patent Laws for the Age of Artificial Intelligence Eva Janecková, 2025-05-15 This book responds to the need to distinguish human creations from those produced by AI It does so by tracing human attributes of authorship and inventorship in statutory requirements for protection and ownership in European copyright and patent laws Its main contribution lies in exposing shortcomings in how the laws are applied in the UK Germany and France It shows that the human origin of creations is traditionally inferred from their expressive form or technical character Given the advancements in AI such inferences are no longer legitimate What is more these shortcomings may eventually lead to granting copyright or patent protection where none is lawfully permitted or sufficiently justified To remedy the situation this

book offers doctrinal and conceptual amendments and proposes law reforms to implement them This book guides authorities practitioners and students through the main arguments of the debate concerning copyright and patents for objects entirely or partly generated by AI It also makes original contributions to advance the ongoing academic and policy debates on AI and intellectual property law Unfair Trading Practices Dennis Campbell,1997-09-17 The use of unfair trading practices constitutes a breach of the law against unfair competition The principle of freedom of competition is vital to any market Without it there exists no protection against large companies obtaining monopolies and then ruthlessly exercising market dominance The ability of other companies to freely compete with such entities is necessary to protect consumers from for example highly inflated prices On the other hand the right to compete must be tempered to avoid abuse by traders using unscrupulous methods to sell products or services Such misuse also threatens to impede the businesses of others and breach the principle of fair competition This subject is particularly relevant in today s society where competition plays such an important role and new technologies such as the Internet provide more and more room for competition This special volume of the Comparative Law Yearbook of International Business addresses this important controversial subject It gives a country by country account of the provisions and procedures laid down in various jurisdictions worldwide Each contribution is provided by a leading practitioner in the area of competition law As a result Unfair Trading Practices is a useful tool for anyone having to deal with unfair acts in the course of trading Business Analytical Capabilities and Artificial Intelligence-enabled Analytics: Applications and Challenges in the Digital Era, Volume 2 Abdalmuttaleb M.
