The Figure of the Nymph in Early Modern Culture, 2018-03-20 Throughout the early modern period the nymph remained a powerful figure that inspired and informed the cultural imagination in many different ways Far from being merely a symbol of the classical legacy the nymph was invested with a surprisingly broad range of meanings Working on the basis of these assumptions and thus challenging Aby Warburg's famous reflections on the nymphs that both portrayed her as cultural archetype and reduced her to a marginal figure the contributions in this volume seek to uncover the multifarious roles played by nymphs in literature drama music the visual arts garden architecture and indeed intellectual culture tout court and thereby explore the true significance of this well known figure for the early modern age Contributors Barbara Baert Mira Becker Sawatzky Agata Anna Chrzanowska Karl Enenkel Wolfgang Fuhrmann Michaela Kaufmann Andreas Keller Eva Bettina Krems Damaris Leimgruber Tobias Leuker Christian Peters Christoph Pieper Bernd Roling and Anita Traninger

A Guide to Neo-Latin Literature Victoria Moul, 2017-01-16 Latin was for many centuries the common literary language of Europe and Latin literature of immense range stylistic power and social and political significance was produced throughout Europe and beyond from the time of Petrarch c 1400 well into the eighteenth century This is the first available work devoted specifically to the enormous wealth and variety of neo Latin literature and offers both essential background to the understanding of this material and sixteen chapters by leading scholars which are devoted to individual forms Each contributor relates a wide range of fascinating but now little known texts to the handful of more familiar Latin works of the period such as Thomas More's Utopia Milton's Latin poetry and the works of Petrarch and Erasmus All Latin is translated throughout the volume

Ancient Latin Epics in Girolamo Vida's Christiad Stefano Cianciosi, 2025-09-25 The Christiad 1535 is a Neo Latin epic by the Italian Renaissance writer Girolamo Vida based on the Gospels and written at the behest of Pope Leo X Long seen as a Christian Aeneid it emerges in this study as a far more complex work demonstrating that while Virgil remains the main model Vida also engages deeply with Lucretius Ovid Lucan Silius Italicus and Statius By examining Vida's imitative techniques and integration of multiple epic models this monograph reassesses the Christiad's relationship with the ancient Latin epic tradition In doing so

it sheds new light on the afterlife of these classical poems as print made them more widely available Virgilian Identities in the French Renaissance Phillip John Usher, Isabelle Fernbach, 2012 Virgil's works principally the Bucolics the Georgics and above all the Aeneid were frequently read translated and rewritten by authors of the French Renaissance The contributors to this volume show how readers and writers entered into a dialogue with the texts using them to grapple with such difficult questions as authorial political and communitarian identities It is demonstrated how Virgil's works are more than Ancient models to be imitated They reveal themselves instead to be part of a vibrant moment of exchange central to the definition of literature at the time Back cover **Early Printed Narrative Literature in Western Europe** Bart Besamusca, Elisabeth de Bruijn, Frank Willaert, 2019-11-05 The essays in this volume are concerned with early printed narrative texts in Western Europe The aim of this book is to consider to what extent the shift from hand written to printed books left its mark on narrative literature in a number of vernacular languages Did the advent of printing bring about changes in the corpus of narrative texts when compared with the corpus extant in manuscript copies Did narrative texts that already existed in manuscript form undergo significant modifications when they began to be printed How did this crucial media development affect the nature of these narratives Which strategies did early printers develop to make their texts commercially attractive Which social classes were the target audiences for their editions Around half of the articles focus on developments in the history of early printed narrative texts others discuss publication strategies This book provides an impetus for cross linguistic research It invites scholars from various disciplines to get involved in an international conversation about fifteenth and sixteenth century narrative literature The Augustinian Epic, Petrarch to Milton J. Christopher Warner, 2010-06-10 The Augustinian Epic Petrarch to Milton rewrites the history of the Renaissance Vergilian epic by incorporating the neo Latin side of the story alongside the vernacular one revealing how epics spoke to each other across the language gap and together comprised a single Augustinian tradition of epic poetry Beginning with Petrarch's Africa Warner offers major new interpretations of Renaissance epics both famous and forgotten from Milton's Paradise Lost to a Latin Christiad by his near contemporary Alexander Ross thereby shedding new light on the development of the epic genre For advanced undergraduate students graduate students and scholars in the fields of Italian English and Comparative literatures as well as the Classics and the history of religion and literature **Building the Canon through the Classics** , 2019-06-07 Building the Canon through the Classics Imitation and Variation in Renaissance Italy 1350 1580 provides a comprehensive reappraisal of the construction of a literary canon in Renaissance Italy by exploring the multiple reuses of classical authorities The volume reshapes current debate on the notion of canon by intertwining two perspectives analyzing when and in what form a canon emerged and determining the ways in which an ancient literary canon interacts with the urge to bestow a similar authority on some later and contemporaneous authors Each chapter makes an original contribution to its selected topic but the collective strength of the volume relies on its simultaneous appeal to readers in Italian Studies intellectual history

comparative studies and classical reception studies Virgil and his Translators Susanna Braund, Zara Martirosova Torlone, 2018-10-04 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective The twenty nine essays in the collection cover numerous European languages from English French and German to Greek Irish Italian Norwegian Slovenian and Spanish but also look well beyond Europe to include discussion of Brazilian Chinese Esperanto Russian and Turkish translations of Virgil While the opening two contributions lay down a broad theoretical and comparative framework the majority conduct comparisons within a particular language and combine detailed case studies with in depth contextualization and theoretical background showing how the translations discussed are embedded in their own cultures and historical moments The final two essays are written from the perspective of contemporary translators closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature but also why translation of a canonical author such as Virgil matters not only as a national and transnational cultural phenomenon but as a personal engagement with a literature of enduring power and relevance **Age Of Bronze Vol. 03A: Betrayal Pt 1** Eric Shanower, 2007-11-28 High King Agamemnon lusts to conquer the wealthy city of Troy He leads his army across the sea fighting all the way On the island of Tenedos just off the coast of Troy Achilles leads the attack Spears fly and men die When the dust settles Achilles finds himself one step closer to his tragic fate Meanwhile the Trojans prepare their defenses and gather allies Agamemnon's offer of a peace embassy to King Priam reassures few War appears inevitable Even Helen dreads to face what lies ahead for her and everyone she loves or once loved Collects AGE OF BRONZE 20 26 the award winning Eisners 2001 and 2003 Gran Guinigi 2006 retelling of the Trojan War *The Mage's Images: Heinrich Khunrath in His Oratory and Laboratory, Volume 4* Peter J. Forshaw, 2025-09-09 This is the 4th volume in a 4 volume work entitled The Mage's Images The work provides the first in depth examination of the life and works of Heinrich Khunrath 1560 1605 one of the great Hermetic philosophers whose Amphitheatre of Eternal Wisdom 1595 1609 has been described as one of the most important books in the whole literature of theosophical alchemy and the occult sciences Khunrath is best known for his novel combination of scripture and picture in the complex engravings in his Amphitheatre In this richly illustrated monograph Forshaw analyses occult symbolism with previously unpublished material offering insight into Khunrath's insistence on the necessary combination of alchemy magic and cabala in Oratory and Laboratory *Printing Virgil* Craig Kallendorf, 2019-12-02 In this work Craig Kallendorf argues that the printing press played a crucial and previously unrecognized role in the reception of the Roman poet Virgil in the Renaissance Using a new methodology developed at the Humboldt University in Berlin Printing Virgil shows that the press established which commentaries were disseminated provided signals for how the Virgilian translations were to be interpreted shaped the discussion about the authenticity of the minor poems attributed to Virgil and inserted this material

into larger censorship concerns The editions that were printed during this period transformed Virgil into a poet who could fit into Renaissance culture but they also determined which aspects of his work could become visible at that time **The Other Virgil** Craig Kallendorf,2007-10-18 The Other Virgil tells the story of how a classic like the Aeneid can say different things to different people As a school text it was generally taught to support the values and ideals of a succession of postclassical societies but between 1500 and 1800 a number of unusually sensitive readers responded to cues in the text that call into question what the poem appears to be supporting This book focuses on the literary works written by these readers to show how they used the Aeneid as a model for poems that probed and challenged the dominant values of their society just as Virgil had done centuries before Some of these poems are not as well known today as they should be but others like Milton's Paradise Lost and Shakespeare's The Tempest are in the latter case the poems can be understood in new ways once their relationship to the other Virgil is made clear **Humanistica Lovaniensia** Gilbert Tournoy,2005-02-15 Volume 54

Lyric Poetry Pietro Bembo,2005 Pietro Bembo 1470-1547 scholar and critic was one of the most admired Latinists of his day The poems in this volume come from all periods of his life and reflect both his erudition and his wide ranging friendships This volume also includes the prose dialogue Etna an account of Bembo's ascent of Mt Etna in Sicily during his student days

The Essential Aeneid Virgil,2006-03-15 Stanley Lombardo's deft abridgment of his 2005 translation of the Aeneid preserves the arc and weight of Virgil's epic by presenting major books in their entirety and abridged books in extended passages seamlessly fitted together with narrative bridges W R Johnson's Introduction a shortened version of his masterly Introduction to that translation will be welcomed by both beginning and seasoned students of the Aeneid and by students of Roman history classical mythology and Western civilization **Italy Illuminated, Volume 1** Biondo Flavio,2005-07-29

Flavio humanist and historian was a pioneering figure in the Renaissance recovery of classical antiquity His Italia Illustrata here for the first time in English is a topographical work describing Italy region by region A quintessential work of Renaissance antiquarianism its aim is to explore the Roman roots of the Renaissance world **The Virgilian Tradition II** Craig Kallendorf,2021-10-25 The Virgilian Tradition II brings together thirteen essays by historian Craig Kallendorf The essays present a distinctive approach to the reception of the canonical classical author Virgil that is focused around the early printed books through which that author was read and interpreted within early modern culture Using the prefaces dedicatory letters and commentaries that accompanied the early modern editions of Virgil's Eclogues Georgics Aeneid and Appendix Virgiliana they demonstrate how this paratextual material was used by early readers to develop a more nuanced interpretation of Virgil's writings than twentieth century scholars believed they were capable of The approach developed throughout this volume shows how the emerging field of book history can enrich our understanding of the reception of Greek and Latin authors This book will appeal to scholars and students of early modern history as well as those interested in book history and cultural history CS 1103 **History of the Florentine People: Books 9-12 ; Memoirs** Leonardo Bruni,2001

Leonardo Bruni was famous in his day as a translator orator and historian and was one of the best selling authors of the 15th century Bruni's History of the Florentine People is generally considered the first modern work of history

Beyond Reception Patrick Baker, Johannes Helmrath, Craig Kallendorf, 2019-04-01 Beyond Reception applies a new concept for analyzing cultural change known as transformation the study of Renaissance humanism Traditional scholarship takes the Renaissance humanists at their word that they were simply viewing the ancient world as it actually was and recreating its key features within their own culture Initially modern studies in the classical tradition accepted this claim and saw this process as largely passive Transformation theory emphasizes the active role played by the receiving culture both in constructing a vision of the past and in transforming that vision into something that was a meaningful part of the later culture A chapter that explains the terminology and workings of transformation theory is followed by essays by nine established experts that suggest how the key disciplines of grammar rhetoric history poetry and philosophy in the Renaissance represent transformations of what went on in these fields in ancient Greece and Rome The picture that emerges suggests that Renaissance humanism as it was actually practiced both received and transformed the classical past at the same time as it constructed a vision of that past that still resonates today
