Short History Of The Western Liturgy An Account And Some Reflections:

A Short History of the Western Liturgy Theodor Klauser, 1969 The Earliest History of the Christian Gathering Valeriy A. Alikin, 2010-03-22 Recent research has made a strong case for the view that Early Christian communities sociologically considered functioned as voluntary religious associations This is similar to the practice of many other cultic associations in the Greco Roman world of the first century CE Building upon this new approach along with a critical interpretation of all available sources this book discusses the social and religio historical background of the weekly gatherings of Christians and presents a fresh reconstruction of how the weekly gathering originated and developed in both form and content The topics studied here include the origins of the observance of Sunday as the weekly Christian feast day the shape and meaning of the weekly gatherings of the Christian communities and the rise of customs such as preaching praying singing and the reading of texts in these meetings

Liturgy and Society in Early Medieval Rome John F. Romano, 2016-05-06 The liturgy the public worship of the Catholic Church was a crucial factor in forging the society of early medieval Rome As the Roman Empire dissolved a new world emerged as Christian bishops stepped into the power vacuum left by the dismantling of the Empire Among these potentates none was more important than the bishop of Rome the pope The documents archaeology and architecture that issued forth from papal Rome in the seventh and eighth centuries preserve a precious glimpse into novel societal patterns The underexploited liturgical sources in particular enrich and complicate our historical understanding of this period They show how liturgy was the social glue that held together the Christian society of early medieval Rome and excluded those who did not belong to it This study places the liturgy center stage filling a gap in research on early medieval Rome and demonstrating the utility of investigating how the liturgy functioned in medieval Europe It includes a detailed analysis of the papal Mass the central act of liturgy and the most obvious example of the close interaction of liturgy social relations and power The first extant Mass liturgy the First Roman Ordo is also given a new presentation in Latin here with an English translation and commentary Other grand liturgical events such as penitential processions are also examined as well as more mundane acts of worship Far from a pious business with limited influence the liturgy established an exchange between humans and the divine that oriented Roman society to God and fostered the dominance of the clergy

Speaking of God in Thomas Aquinas and Meister Eckhart Anastasia Wendlinder, 2016-04-01 Medieval masters Thomas Aquinas and Meister Eckhart considered problems inherent to speaking of God exploring how religious language might compromise God's transcendence or God's immanence ultimately hindering believers in their journey of faith seeking understanding Going beyond ordinary readings of Aquinas and building a foundation for further insights into the works of both theologians this book draws out the implications of the thought of Eckhart and Aquinas for contemporary issues including ecumenical and inter religious dialogue liturgy and prayer and religious inclusivity Reading Aquinas and Eckhart in light of each other reveals the profound depth and orthodoxy of both of these scholars and provides a novel approach to many theological and

practical religious issues **Western Perspectives on the Mediterranean** Andreas Fischer, Ian Wood, 2014-06-19 Based on close analyses of contemporary texts and backed by an examination of the origins of the elements transferred and of the process of transmission the contributors to this volume focus on the perception and adaptation of knowledge and cultural elements in the West Taking a variety of approaches they shed light on the changing lines of communication between the Byzantine empire and other parts of the Mediterranean on the one hand and the Burgundian Frankish and Anglo Saxon realms and the Papacy on the other *Translating Christ in the Middle Ages* Barbara Zimbalist, 2022-02-15 This study reveals how women's visionary texts played a central role within medieval discourses of authorship reading and devotion From the twelfth to the fifteenth centuries women across northern Europe began committing their visionary conversations with Christ to the written word Translating Christ in this way required multiple transformations divine speech into human language aural event into textual artifact visionary experience into linguistic record and individual encounter into communal repetition This ambitious study shows how women's visionary texts form an underexamined literary tradition within medieval religious culture Barbara Zimbalist demonstrates how within this tradition female visionaries developed new forms of authorship reading and devotion Through these transformations the female visionary authorized herself and her text and performed a rhetorical imitatio Christi that offered models of interpretive practice and spoken devotion to her readers This literary historical tradition has not yet been fully recognized on its own terms By exploring its development in hagiography visionary texts and devotional literature Zimbalist shows how this literary mode came to be not only possible but widespread and influential She argues that women's visionary translation reconfigured traditional hierarchies and positions of spiritual power for female authors and readers in ways that reverberated throughout late medieval literary and religious cultures In translating their visionary conversations with Christ into vernacular text medieval women turned themselves into authors and devotional guides and formed their readers into textual communities shaped by gendered visionary experiences and spoken imitatio Christi Comparing texts in Latin Dutch French and English *Translating Christ in the Middle Ages* explores how women's visionary translation of Christ's speech initiated larger transformations of gendered authorship and religious authority within medieval culture The book will interest scholars in different linguistic and religious traditions in medieval studies history religious studies and women's and gender studies *At the Supper of the Lamb* Paul Turner, 2011 *Prayer and the Priesthood of Christ* Graham Redding, 2005-03-29 In this book Graham Redding provides a detailed account of prayer in the Reformed tradition and a critical examination of its present place in the Reformed Churches From its inception the Christian church thought of worship and prayer in trinitarian terms At the heart of this trinitarian concept lay the doctrine of the priesthood of Christ which in its liturgical expression presented Christ not merely as the object of prayer but also as its mediator prayers were directed to the Father through Christ The author traces the idea of the priesthood of Christ and its effects on Christian worship and prayer from its origins with the earliest Christians and through the Arian and Apollinarian

debates He then focuses on the Reformed tradition and the influences of John Calvin John Knox John Craig John McLeod Campbell William Milligan Theodore Beza William Perkins federal theology and the Westminster tradition and through to the present day This is an important history of an important doctrine showing in a remarkable way how the doctrinal struggles within the church have been reflected in the worshipping life of the church and how they continue to be reflected today Redding concludes with a number of key affirmations for a Reformed understanding of prayer and a critique of certain modern tendencies and practices in the church

The Cult of St Anna in Byzantium Eirini Panou, 2018-05-11 The Cult of St Anna in Byzantium is the first undertaking in Byzantine research to study the phenomenon of St Anna's cult from the sixth to the fifteenth centuries It was prompted by the need to enrich our knowledge of a female saint who had already been studied in the West but remained virtually unknown in Eastern Christendom It focuses on a figure little studied in scholarship and examines the formation establishment and promotion of an apocryphal saint who made her way to the pantheon of Orthodox saints Visual

and material culture relics and texts track the gradual social and ideological transformation of Byzantium from early Christianity until the fifteenth century This book not only examines various aspects of early Christian and Byzantine civilisation but also investigates how the cult of saints greatly influenced cultural changes in order to suit theological social and political demands The cult of St Anna influenced many diverse elements of Christian life in Constantinople including the creation of sacred spaces and the location of haghiasmata fountains of holy water in the city imperial patronage the social reception of St Anna s story and relic narratives This monograph breaks new ground in explaining how and why Byzantium and the Orthodox Church attributed scriptural authority to a minor figure known only from a non canonical work The Use of Hereford Mr William Smith,2015-10-28 The Use of Hereford a local variation of the Roman rite was one of the diocesan liturgies of medieval England before their abolition and replacement by the Book of Common Prayer in 1549 Unlike the widespread Use of Sarum the Use of Hereford was confined principally to its diocese which helped to maintain its individuality until the Reformation This study seeks to catalogue and evaluate all the known surviving sources of the Use of Hereford with particular reference to the missals and gradual which so far have received little attention In addition to these a variety of other material has been examined including a number of little known or unknown important fragments of early Hereford service books dismembered at the Reformation and now hidden away as binding or other scrap in libraries and record offices *Superior Women* Jennifer C. Edwards,2019-07-11 Superior Women examines the claims of abbesses of the abbey of Sainte Croix in medieval Poitiers to authority from the abbey s foundation to its 1520 reform These women claimed to hold authority over their own community over dependent chapters of male canons and over extensive properties in Poitou male officials such as the king of France and the pope repeatedly supported these claims To secure this support the abbesses relied on two strategies that the abbey s founder the sixth century Saint Radegund established they documented support from a network of allies made up of powerful secular and ecclesiastical officials and they used artefacts left from Radegund s life to shape her cult and win new patrons and allies Abbesses across the 900 years of this study routinely turned to these strategies successfully when faced with conflict from dependents or more local officials such as the bishop of Poitiers Sainte Croix s nuns proved adept at tailoring these strategies to shifting historical contexts turning from Frankish bishops to the kings of Frankia then to the Pope and finally to the King of France as former allies became unavailable to them The book demonstrates respectful cooperation between men and monastic women and more extensive respect for female monastic authority than scholars typically recognize Chapters focus on the cult s manuscripts church decoration procession jurisdictions between cult institutions reform and rebellion **Christianity and the Detective Story** Anya Morlan,Walter Raubicheck,2014-08-11 Christianity and the Detective Story is the first book to gather together academic criticism on this particular connection between religion and popular culture The articles cover the origin of this relationship in the works of G K Chesterton examine its development through the Golden Age of mystery writers such as Dorothy L Sayers and include

discussions of recent and contemporary television crime dramas The volume makes a strong case for viewing mystery writing as a valid means of providing both entertainment and religious insight

Ambrose of Milan's Method of Mystagogical Preaching Craig Alan Satterlee, 2002 This book proposes a method of mystagogy based on the preaching of Ambrose of Milan Chapter 1 establishes the need for mystagogy chapter 2 lays out the historical context of Ambrose and his church Chapters 3-8 are a series of six historical studies on Ambrose and his church that correspond to the components of a homiletic method Chapter 9 proposes a method of mystagogy for the contemporary church based on Ambrose's preaching

The Tyranny of the Banal David Deane, 2023-06-21 Catholic positions on contested moral issues are rejected by the majority in the secular West and are increasingly rejected by Catholics themselves In this book David Deane argues that there are two main reasons for this First the dominance of secular approaches deprives Catholic positions of their claim to coherence Second the Catholic positions Deane shows have lost contact with the theology on which they were originally based In response Deane undertakes a deconstruction of the dominant secular positions and seeks to restore Catholic positions to their theological roots The result of this is a moral theology reconnected with the Trinitarian understanding of God and God's relationship with the world Restored to its doctrinal foundations the moral theology that Deane offers is more coherent more beautiful and more convincing than has been found in Catholic moral discourse for centuries

Chaucer's Church Edward Foster, 2020-08-26 This title was first published in 2002 The purpose of Chaucer's Church is to provide clear concise and reliable explanations of every term Chaucer uses that has a religious liturgical or ecclesiastical meaning It uses a dictionary format arranged according to Chaucer's spellings to make information readily accessible for students teachers critics and the general reader The shorter entries present brief definitions which are more lively and illuminating than those in standard dictionaries or glossaries the longer entries are in fact short essays with suggestions for further reading on broader or more complex topics In all cases the entries concentrate on lucid and accurate presentation of the meanings that the terms had or could have had for Chaucer and a 14th century audience The book is a compact but precise reference for readers of all levels of experience on the vocabulary of fourteenth century religion which is often unfamiliar or only hazily understood A careful system of cross references guides the reader to related terms so that individual entries can be further explored in related or larger contexts The book may also be browsed or read on its own for the entries taken together especially the brief essays provide a coherent introduction to the Christian world of the late fourteenth century In Chaucer's Church the editors have succeeded in compiling a volume that combines ease of use with readability and rigorous accuracy This book provides convenient and trustworthy access to Chaucer's religious world

Prayer Book and People in Elizabethan and Early Stuart England Judith Maltby, 2000-08-10 Studies conformity to the Church of England after the Reformation

Preaching and Theology in Anglo-Saxon England Milton McC. Gatch, 1977-12-15 In Preaching and Theology in Anglo-Saxon England Professor Gatch deals with two aspects of the writings of Ifric and Wulfstan that have been

hitherto ignored by scholars of the period First he investigates the uses for which the two homilists prepared their sermons analysing the homiliaries of the Carolingian church and its legislation concerning preaching and teaching and showing that one should look not to the model of patristic preaching but to the development in the place of exegetical preaching of a vernacular catechetical office the Prone He also considers the evidence from England in the time of lfric and Wulfstan distinguishing a number of uses which lfric intended for his homiletic materials but questioning whether users of lfric s work Wulfstan perhaps among them understood or accepted the basic homiletic practices that the abbot had in mind Second Gatch investigates the eschatological teaching of the homilists as specimen of the over all content of their sermons and as indicator of their theological method By throwing their work into relief against the background of the anonymous Old English homilists he gives a more accurate picture than exists in textbook stereotypes of the beliefs of lfric and Wulfstan and also of the general theological scene in England at the turn of the tenth and eleventh centuries The first complete edition of lfric s Latin epitome of Julian of Toledo s Prognosticon futuri saeculi one of the most important of lfric s theological sources is appended to the text This interdisciplinary study is an important addition to our knowledge of Anglo Saxon culture and medieval church history and a major contribution to the study of Old English homilies For the uninitiated it is an excellent introduction to Old English preaching for the initiated it opens a new field for investigation *Sanctifying Texts, Transforming Rituals*

,2017-07-10 Sanctifying Texts Transforming Rituals Encounters in Liturgical Studies explores the dynamics of Christian ritual practices in their relation to a broader cultural framework The nineteen essays written in honour of the liturgist Gerard A M Rouwhorst Tilburg University study liturgical developments in times of transition in which religious and cultural changes set the development of worship practices in motion The chapters in the first part Texts concentrate on the close connection between narrative texts and liturgical practice In part two Rituals the focus shifts to the significance of liturgy as it expresses itself in rituals and to the understanding of ritual acting This section includes a variety of ritual aspects of liturgy including the performance of the sacraments and the persons involved as well as the relation between the liturgical ritual and material objects such as images and relics Section three Encounters crosses the borders of the discipline of liturgical studies This final section of the book studies ritual relations between Christians and non Christians through history and includes contributions that study the dialogues between different liturgical languages and media Contributors are Elizabeth Boddens Hosang Paul Bradshaw Harald Buchinger Charles Caspers Paul van Geest Bert Groen Martin Kl ckener Bart Koet Clemens Leonhard Ruben van Luijk Gerard Lukken Daniela M ller Willemien Otten Marcel Poorthuis Paul Post Ilia Rodov Els Rose Joshua Schwartz Louis van Tongeren and Nienke Vos
