Something Completely Different Jeffrey S. Miller, 2000-01-01 Between Emma Peel and tire Ministry of Silly Walks British television had a significant impact on American popular culture in the 1960s and 1970s In Something Completely Different Jeffrey Miller offers the first comprehensive study of British programming on American television discussing why the American networks imported such series as The Avengers and Monty Python s Flying Circus how American audiences received these uniquely British shows and how the shows success reshaped American television Miller s lively analysis covers three genres spy shows costume dramas and sketch comedies In addition to his close readings of the series themselves Miller considers the networks packaging of the programs for American viewers and the influences that led to their acceptance including the American television industry s search for new advertising revenue and the creation of PBS

Upstairs and Downstairs James Leggott, Julie Anne Taddeo, 2014-12-11 The international success of Downton Abbey has led to a revived interest in period dramas with older programs like The Forsyte Saga being rediscovered by a new generation of fans whose tastes also include grittier fare like Ripper Street Though often criticized as a form of escapist conservative nostalgia these shows can also provide a lens to examine the class and gender politics of both the past and present In Upstairs and Downstairs British Costume Drama Television from The Forsyte Saga to Downton Abbey James Leggott and Julie Anne Taddeo provide a collection of essays that analyze key developments in the history of period dramas from the late 1960s to the present day Contributors explore such issues as how the genre fulfills and disrupts notions of quality television the process of adaptation the relationship between UK and U S television and the connection between the period drama and wider developments in TV and popular culture Additional essays examine how fans shape the content and reception of these dramas and how the genre has articulated or generated debates about gender sexuality and class In addition to Downton Abbey and Upstairs Downstairs other programs discussed in this collection include Call the Midwife Danger UXB Mr Selfridge Parade s End Piece of Cake and Poldark Tracing the lineage of costume drama from landmark productions of the late 1960s and 1970s to some of the most talked about productions of recent years Upstairs and Downstairs will be of value to students teachers and researchers in the areas of film television Victorian studies literature gender studies and British

history and culture Quality TV Janet McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age* Robert Thompson described quality TV as best defined by what it is not it is not regular TV Audacious maybe but his statement renewed debate on the meaning of this highly contentious term Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing this book brings together leading scholars established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV They go deep into contemporary American television fictions from *The Sopranos* and *The West Wing* to *CSI* and *Lost* innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between British and US television critics Also included and a great coup are interviews with W Snuffy Walden scored *The West Wing* among others and with David Chase *The Sopranos* creator Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current and future TV landscape Film Adaptation and Its Discontents Thomas Leitch, 2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch's analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to *The Lord of the Rings* is as broad as the problems that come under review **Post-heritage Perspectives on British Period Drama Television** Will Abbiss, 2023-06-09 Drawing upon the existing scholarship of period drama and emerging research into new media ecologies instigated by television streaming services such as Netflix this book establishes a critical framework for understanding the representation of nationhood and cultural identity in television drama By formalising the term post heritage the book proposes a methodology which recognises the interplay of traditional and innovative elements within period drama productions The book applies this critical perspective to popular British period drama productions from the 2010s with

examples including *The Crown* the society dramas of *Upstairs Downstairs* and *Downton Abbey* Steven Knight's Dickens adaptations and Stephen Poliakoff's recent oeuvre to demonstrate the benefits of evaluating period drama as part of twenty first century television's developments It challenges the assumptions around characteristics and ideological purpose that period drama discourse often contends with and offers new perspectives on understanding the past through televisual representations This book will be important reading for students and scholars of television studies film studies and cultural studies

Public Television William Hawes, 1996 KUHT TV in Houston Texas was the first non commercial educational television station This is the story of its development and struggle for survival

Nineteenth-century Women at the Movies Barbara Tupa Lupack, 1999 Eleven essays analyze the adaptations of novels by eight popular writers such as Jane Austen and Harriet Beecher Stowe and examine the ways in which those writers' themes are reinterpreted updated and often misconstrued by the filmmakers who bring them to the screen No index Annotation copyrighted by Book News Inc Portland OR

Transatlantic Television Drama Matt Hills, Michele Hilmes, Roberta E. Pearson, 2019 In 2014 the UK science fiction television series *Black Mirror* was released on Netflix worldwide quickly becoming a hit with US audiences Like other beloved British imports this series piqued Americans' interest with hints of dark comedy clever plotlines and six episode seasons that left audiences frantic for more In *Transatlantic Television Drama* volume editors Michele Hilmes Matt Hills and Roberta Pearson team up with leading scholars in TV studies and transnational television to look at how serial dramas like *Black Mirror* captivate US audiences and what this reveals about the ways Americans and Brits relate to each other on and off the screen Focusing on production strategies performance styles and audience reception chapters delve into some of the most widely discussed programs on the transatlantic circuit from ongoing series like *Game of Thrones* *Downton Abbey* *Orphan Black* and *Sherlock* to those with long histories of transnational circulation like *Masterpiece* and *Doctor Who* to others whose transnational success speaks to the process of exchange adaptation and cooperation such as *Rome* *Parade's End* *Broadchurch* and *Gracepoint* The book's first section investigates the platforms that support British American exchange from distribution partnerships and satellite providers to streaming services The second section concentrates on the shift in meaning across cultural contexts such as invocations of heritage genre shifts in adaptation performance styles and in the case of *Episodes* actual dramatized depiction of the process of transatlantic television production In section three attention turns to contexts of audience reception ranging from fan conventions and fiction to television criticism the effects of national branding on audiences and the role of social media in de

or re contextualizing fans response to transnational programs

Viewers Like You Laurie Oullette,2012-07-24 How public is public television if only a small percentage of the American people tune in on a regular basis When public television addresses viewers like you just who are you Despite the current of frustration with commercial television that runs through American life most TV viewers bypass the redemptive oasis of the wasteland represented by PBS and turn to the sitcoms soap operas music videos game shows weekly dramas and popular news programs produced by the culture industries Viewers Like You traces the history of public broadcasting in the United States questions its priorities and argues that public TV s tendency to reject popular culture has undermined its capacity to serve the people it claims to represent Drawing from archival research and cultural theory the book shows that public television s perception of what the public needs is constrained by unquestioned cultural assumptions rooted in the politics of class gender and race

Seeing Hardy Paul J. Niemeyer,2015-10-05 Great authors are increasingly being encountered by general audiences and critics thanks to films and television programs that have been adapted from their best known works Thomas Hardy is one of those authors His work has inspired filmmakers from the silent age and modern times This book is the first book length study in what has become a growing field of interest in film adaptations of Hardy s novels Part One of this book analyzes the popular image of Hardy and his work the reproduction of this image in film adaptations and critical stereotypes about him and his fiction Part Two juxtaposes Hardy s Far from the Madding Crowd and Schlesinger s adaptation Hardy s Tess of the d Urbervilles and Polanski s adaptation and Hardy s Jude the Obscure and Winterbottom s adaptation Each discussion of the novel and adaptation in question considers the novel itself the critical history of the novel how it has been adapted to film and how the individual filmmakers have struggled with problems inherent in Hardy s novels Part Three analyzes adaptations of The Woodlanders The Scarlet Tunic and The Claim all of which have scarcely been seen in the United States or which were not distributed in the United States and four television movies and miniseries that were based on Hardy s work

Network Nations Michele Hilmes,2012-05-23 In Network Nations Michele Hilmes reveals and re conceptualizes the roots of media globalization through a historical look at the productive transnational cultural relationship between British and American broadcasting Though frequently painted as opposites the British public service tradition contrasting with the American commercial system in fact they represent two sides of the same coin Neither could have developed without the constant presence of the other in terms not only of industry and policy but of aesthetics culture and creativity despite a long history of oppositional rhetoric Based on primary research in British and American archives Network Nations argues for a new transnational approach to media history looking across the traditional national boundaries within which media is studied to encourage an awareness that media globalization has a long and fruitful history Placing media history in the framework of theories of nationalism and

national identity Hilmes examines critical episodes of transnational interaction between the US and Britain from radio s amateurs to the relationship between early network heads from the development of radio features and drama to television spy shows and miniseries as each other s largest suppliers of programming and as competitors on the world stage and as a network of creative business and personal relationships that has rarely been examined but that shapes television around the world As the global circuits of television grow and as global regions particularly Europe attempt to define a common culture the historical role played by the British US media dialogue takes on new significance

A Strategic Nature Melissa Aronczyk, Maria I. Espinoza, 2022 A look at how public relations has dominated public understanding of the natural environment for over one hundred years In *A Strategic Nature* Melissa Aronczyk and Maria I Espinoza examine public relations as a social and political force that shapes both our understanding of the environmental crises we now face and our responses to them Drawing on in depth interviews ethnography and archival research Aronczyk and Espinoza document the evolution of PR techniques to control public perception of the environment since the beginning of the twentieth century More than spin or misinformation PR affects how institutions and individuals conceptualize environmental problems from conservation to coal mining to carbon credits Revealing the linkages of professional strategists information politics and environmental standards *A Strategic Nature* shows how public relations restricts alternative paths to a sustainable climate future

Special Relations Howard Malchow, 2011-02-18 *Special Relations* reevaluates Anglo American cultural exchange by exploring metropolitan London s culture and counterculture from the 1950s to the 1970s It challenges a tendency in cultural studies to privilege local reception and attempts to restore the concept of Americanization in this critical era of mass tourism professional exchange and media globalization while acknowledging an important degree of cultural hybridity and circularity The study begins with the influence of American modernism in the built environment and in Swinging London generally and then moves to its central project the re exploration of British counterculture the anti war movement student rebellion hippies popular music the alternative press and the late Sixties triad of black feminist and gay liberationisms as intimately tied to American experience and to American agents of cultural change *Special Relations* retrieves these phenomena as more central and enduring in British metropolitan life than the current orthodoxy allows and subjects to sharp critical scrutiny prevalent assertions of cultural authenticity in their British variants Finally the book looks at aspects of the turn against modernism and the counterculture in the 1970s

Biographical Television Drama Hannah Andrews, 2021-04-13 *Biographical Television Drama* breaks new ground as to my knowledge the first book length exploration of the terms in which television engages in biographical storytelling Backed by robust research in biography studies and British television history Hannah Andrews deftly unravels the complexities behind the accessibility of biographical television drama Her book tackles key questions head on notably rhetorics and style narrative and performance and innovatively ethics while also shedding light on the interconnections with other biographical screen forms through a rich corpus This is an essential critical study

that vindicates television drama's unique place in the histories and practices of screen biography Bel n Vidal Senior Lecturer in Film Studies at King's College London and co editor of *The Biopic in Contemporary Film Culture* This book explores what happens when biography and television meet in a novel fusion of the two fields of study Andrews compares core concepts in biography and television studies such as intimacy the presentation of the self and the uneasy relationship between fact and fiction The book examines biographical drama's generic hybridity accounting for the influence of the film biopic docudrama melodrama and period drama It discusses biographical television drama's representation of real lives in terms of visual style performance and self reflexivity Andrews also assesses how life stories are shaped for televisual narrative formats and analyses the adaptation process for the biographical drama Finally the book considers various kinds of reputation of the broadcast institution author biographical subject in relation to the ethics of televisual biography
