Najar,2023-06 From the late 1850s to the 1940s multiple colonial projects often in tension with each other influenced the formation of local transimperial and transnational political identities of Arab Ottoman subjects in the eastern Mediterranean and the Western Hemisphere. Arab Ottoman men, women, and their descendants were generally accepted as whites in a racially stratified Brazilian society. Local anxieties about color and race among white Brazilians and European immigrants, however, soon challenged the white racial status the Brazilian state afforded to Arab Ottoman immigrants. In *Transimperial Anxieties* José D. Najar analyzes how overlapping transimperial processes of migration and return, community conflicts, and social adaptation shaped the gendered racial and ethnic identity politics surrounding Arab Ottoman subjects and their descendants in Brazil. Upon arrival to the Brazilian Empire, Arab Ottoman subjects were referred to as *turcos*, an all-encompassing ethnic identity encased in Islamophobia and antisemitism which forced the immigrants to renegotiate their identities in order to secure the possibility of upward mobility and national belonging. By exploring the relationship between race and gender in negotiating international and interimperial politics and law, national identity and religion, *Transimperial Anxieties* advances understanding of the local and global forces shaping the lives of Arab Ottoman immigrants and their descendants in Brazil and their reciprocity to state structure. **Rio de Janeiro** Alex Robinson,2008-12-01 Building on the successful Eyewitness Travel Guides series, this new series offers a quick and easy approach to travel that uses expert insights to list the top luxury hotels, economical places to stay or eat, best travel deals, favorite family activities, and destinations, popular nightspots, the best things to see and do, local activities, and other insider tips, as well as a handy pull-out map. **Shadows of the Slave Past** Ana Lucia Araujo,2014-08-07 This book is a transnational and comparative study examining the processes that led to the memorialization of slavery and the Atlantic slave trade in the second half of the twentieth century. Araujo explores numerous kinds of initiatives such as monuments, memorials, and museums, as well as heritage sites. By connecting different projects developed in various countries and urban centers in Europe, Africa, and the Americas during the last two decades, the author retraces the various stages of the Atlantic slave trade and slavery, including the enslavement in Africa, the process of confinement in slave depots, the Middle Passage, the arrival in the Americas, the daily life of forced labor, until the fight for emancipation and the abolition of slavery. Relying on a multitude of examples from the United States, Brazil, and the Caribbean, the book discusses how different groups and social actors have competed to occupy the public arena by associating the slave past with other human atrocities, especially the Holocaust. Araujo explores how the populations of African descent, white elites, and national governments very often carry particular political agendas.

appropriated the slave past by fighting to make it visible or conceal it in the public space of former slave societies

Godfrey, 2021-04-28 With Brazil's largest concentration of historic landmarks and famous landscapes Rio de Janeiro's passionate heritage debates have helped to define both the city and the country Taking a critical preservationist stance Brian Godfrey explores how historic designation and urban rebranding have shaped Rio's distinctive sense of place Official heritage programs date from the 1930s when federal authorities centralized power and promoted nationalism The city began a heritage based strategy of urban revitalization and rebranding in the 1980s the Cultural Corridor of historic places downtown Subsequent rediscovery of the old Little Africa district and continuing struggles of favela communities have emphasized narratives of counter memory against racism social injustice and governmental neglect Meanwhile environmental activism has encouraged programs to conserve the historic landscapes of Rio's famous mountains forests beaches and bays While historic preservation often presumes to conserve or restore heritage sites according to a preexisting authenticity Godfrey shows how the past actually becomes a resource for present day interests Memory brokers have guided the reinvention of historic places determining whose past has been preserved Debates over the right of remembrance he argues shape place memories and identities in this spectacular if highly unequal megacity which has much to teach the world about conserving cultural diversity and urban environments **Proceedings of the International Symposium on Design Review (Routledge Revivals)** Wolfgang F. E. Preiser, Brenda Case Scheer, 2017-08-03 First published in 1992 this book collects together the papers presented at the International Symposium on Design Review which was held to address the growing tendency of local governments to institute programs of aesthetic control The editor argues that the widespread adoption of design review processes in the years preceding the conference necessitated thoroughgoing professional criticism and a number of areas of debate are identified and addressed in the subsequent papers Are the difficulties experienced by planners community activists and architects with the process due to its relative youth or inherent flaws in the entire concept How should mechanical problems like time and expense the ease with which the process can be manipulated and general inefficiencies in the system be resolved More intricate problems are also addressed such as who has the power to judge the aesthetic quality of a building whether design review infringes on the rights of the individual especially under the First Amendment whether the design review process is fair and the difficulty for the reviewer of deciding what is right and what is wrong having taken into account factors that can be highly subjective or contradict more practical concerns **Brazil**, 2003-10-07 [South American Handbook](#) Daniel Austin, Ben Box, 2025-07-14 South America is a land of superlatives Home to the world's longest mountain range tallest waterfall largest rainforest driest desert widest river and highest lake it astounds with its variety Now published by Bradt Guides the award winning legendary South America Handbook holds a world record of its own as the longest running English language travel guidebook This brand new
