The Transformation of Investigative Journalism in China Haiyan Wang, 2016-04-29 Investigative journalism emerged in China in the 1980s following Deng Xiaoping's media reforms Over the past few decades Chinese investigative journalists have produced an increasing number of reports in print or on air and covered a surprisingly wide range of topics which had been thought impossible by the standards of the Communist era In the 2010s however investigative journalism has been replaced by activist journalism This book examines how with the aid of new media technologies and in response to new calls for social

responsibility these new era journalists vigorously seek to expand the scope of their journalism and their capacity as journalists They tend to perceive themselves as more than professional journalists and their activities are not limited to the physical boundaries of newsrooms They are not only detached observers of society but also engaged organizers of social movements they are social activists as well as responsible journalists who challenge state power and the party line and point to the limitations of the more traditional conceptions of journalism in China This book analyzes how journalism in China has been gradually transformed from a tool of the state to a means of broadening calls for democratic reform *Integrated Performance Management* Kurt Verweire, Lutgart Berghe, 2004-12-23 Linking various disciplines and management functions Integrated Performance Management provides the reader with a concrete framework to manage organizations successfully The authors do not isolate a single strategy to manage performance Instead the book focuses on a range of strategies providing the reader with an introduction to each one The concepts under analysis were developed through intense dialogue with business managers While maintaining academic rigour Integrated Performance Management presents ideas that students will find relevant outside of the classroom Postgraduate and MBA students in a range of areas including strategy accounting finance operations management marketing leadership and human resource management will find this book useful
