The Heirs to the Savoia Throne and the Construction of 'Italianità', 1860-1900 Maria Christina Marchi, 2022-05-26 This book explores the evolution of the role of the heirs to the throne of Italy between 1860 and 1900 It focuses on the future kings Umberto I 1844 1900 and Vittorio Emanuele III 1869 1947 and their respective spouses Margherita of Savoia 1851 1926 and Elena of Montenegro 1873 1952 It sheds light on the soft power the Italian royals were attempting to generate by identifying and examining four specific areas of monarchical activity firstly the heirs public role and the manner in which they attempted to craft an Italian identity through a process of self presentation secondly the national royal linguistic and military education of the heirs thirdly the promotion of a family centred dynasty deploying both male and female elements in the public realm and finally the readiness to embrace different modes of mobility in the construction of Italianity By analysing the growing importance of the royal heirs and their performance on the public stage in post Risorgimento Italy this study investigates the attempted construction of a cohesive national identity through the crown and more specifically the heirs to the throne

Geographies of Federalism during the Italian Risorgimento, 1796-1900 Federico Ferretti, 2022-05-25 Combining intellectual history geography and political science this book addresses the relations between geography and the federalist tendencies of key individuals during the nineteenth century Italian Risorgimento The book investigates the development of transnational federalist attitudes amongst a political network of intellectuals and hones in on several understudied figures who played important roles in the Italian radical movements for national and social liberation Notably this includes political geographers who mobilised geographical metaphors to foster change and reorganise territories The author demonstrates how federalism anarchism and republicanism were all connected and led not only to autonomy in Italy but more locally within its regions and municipalities and more broadly across Europe

At the Roots of Italian Identity Edoardo Marcello Barsotti,2021-02-10 This book investigates the relationship between the ideas of nation and race among the nationalist intelligentsia of the Italian Risorgimento and argues that ideas of race played a considerable role in defining Italian national identity The author argues that the racialization of the Italians dates back to the early Napoleonic age and that naturalistic racialism or race thinking based on the taxonomies of the natural history of man emerged well before the traditionally presumed date of the late 1860s and the advent of positivist anthropology The book draws upon a wide number of sources including the work of Vincenzo Cuoco Giuseppe Micali Adriano Balbi Alessandro Manzoni Giandomenico Romagnosi Cesare Balbo Vincenzo Gioberti and Carlo Cattaneo Themes explored include links to antiquity on the Italian peninsula archaeology and race thinking

Geographies of Myth and Places of Identity Marco Benoît Carbone,2022-01-13 Turning to a region of South Italy associated with Greater Greece and the geographies of Homer's Odyssey Marco Benoit Carbone delivers a historical and ethnographic treatment of how places defined in public imagination and media by their associated histories become sites of memory and identity as their landscape and mythologies turn into insignia of a romanticised antiquity For the ancient Greeks Homer had set the marine monsters of the Odyssey in the Strait between Calabria and Sicily Since then this passage has been glowing with the aura of its mythological landmarks Travellers and tourists have played Odysseus by re enacting his journey Scholars and explorers have explained the myths as metaphors of whirlpools and marine fauna The iconic Strait and village of Scilla have turned into place myths and playgrounds defined by the region's heritage Carbone observes the enduring impact of Hellas on the real Strait today The continuous rekindling of cultural and visual traditions of place in the arts media travel and tourism have intersected with philhellenic historiographies shaping local policies public histories views of development and forms of Hellenicist identitarianism Elements of society have celebrated the landscape of the Odyssey appropriated Homer as their imagined heirs and purported themselves as the original Europeans pandering to outdated ideological appropriations of classical antiquity and exclusionary West centric views of the Mediterranean

Making Sense of Violence Matthew D'Auria, Mark Hewitson,2020-11-25 This book looks at the representations of modern war by analysing texts and examining the ways in which authors relate to the atrocious horrors of war Rejecting the assumption that violence is simply a denial of reason or at best a pathological form of collective sadism this book considers it a cultural act that needs to be understood as underpinned by a series of shared and accepted norms and values stemming from a society at a given moment of its history and shaped by its language Traditional vocabulary and language seem inadequate to describe soldiers

experience of modern warfare The problem for writers is to depict and render intelligible a dramatically unprecedented reality through recourse to something familiar For some historians and literary critics the absurdity of the First World War has shaped our ironic and disenchanted reading of the entire twentieth century Yet these ways of coping with the urge to communicate inexpressible feelings and emotions in most cases are not sufficient to overcome the incoherence of the sentiments felt and the events witnessed The contributors attempt to address the questions and issues that are posed by the highly ambiguous views texts and representations examined in this volume This book was originally published as a special issue of the journal *European Review of History* *Revue Européenne d'Histoire* **The Risorgimento Revisited** S.

Patriarca, L. Riall, 2011-12-16 Bringing together the work of a ground breaking group of scholars working on the Italian Risorgimento to consider how modern Italian national identity was first conceived and constructed politically the book makes a timely contribution to current discussions about the role of patriotism and the nature of nationalism in present day Italy

Non-persons. The Exclusion of Migrants in a Global Society Alessandro Dal Lago, 2009 While continually broadcasting the deaths of illegal immigrants who have drowned at sea the majority of mass media incessantly feeds the panic over the invasion of Italy by poor immigrants from the Third World This study is not merely an examination of the familiar limitations of the media but an investigation of the comprehensive attitude in Italian society of rejecting foreigners who have been transformed into public enemies through a vicious cycle of panic and exclusion Political dialogue has not proven very aware of the problem of acknowledging the civil rights of the new migrants The recent cultural rediscovery of the Italian nation and the Italian homeland that communal sentiment on which national belonging is based is not separate from these recent disturbing developments Not only does this appeal to the Italian nation prove weak but it corresponds to a process of inferiorization of other societies poorer nations the underdeveloped regions of Italy itself and the less wealthy areas in dominant regions The political left and right both display this disturbing mentality In this extensively documented polemical book Alessandro Dal Lago clearly takes a stand regarding the most profound impulses in Italian society This study reveals that what is involved in the cultural discussion on migration are the most fundamental parameters and values upon which our democracy rests *Italy's 'Southern Question'* Jane Schneider, 2020-05-31 The Southern Question has been a major topic in Italian political economic and cultural life for a century and more During the Cold War it was the justification for heavy government intervention In contemporary Italy a major part of the appeal of the Lombard League has been its promise to dissociate the South from the North even to the point of secession The South also remains a resonant theme in Italian literature This interdisciplinary book endeavours to answer the following When did people begin to think of the South as a problem Who intellectuals statisticians criminologists political exiles novelists among them some important southerners contributed to the discourse about the South and why Did their view of the South correspond to any sort of reality What was glossed over or ignored in the generalized vision of the South as problematic What consequences has the Question had in

controlling the imaginations and actions of intellectuals and those with political and other forms of power What alternative formulations might people create and live by if they were able to escape from the control of the Question and to imagine the political economic and cultural differences within Italy in some other way This timely book reveals how Southern Italians have been affected by distorted versions of a complex reality similar to the discourse of Orientalism In situating the devaluation of Southern Italian culture in relation to the recent emergence of anti mafia ideology in the South and the threat posed to national unity by the Lombard League it also illuminates the world s stiff inter regional competition for investment capital
