Philosophy Of Body

Anna-Teresa Tymieniecka, S. Matsuba

Philosophy Of Body:

The Body Yasuo Yuasa, 1987-07-01 This book explores mind body philosophy from an Asian perspective. It sheds new light on a problem central in modern Western thought. Yuasa shows that Eastern philosophy has generally formulated its view of mind body unity as an achievement, a state to be acquired rather than as essential or innate. Depending on the individual's own developmental state, the mind body connection can vary from near dissociation to almost perfect integration. Whereas Western mind body theories have typically asked what the mind body is, Yuasa asks how the mind body relation varies on a spectrum from the psychotic to the yogi, from the debilitated to the athletic, from the awkward novice to the master musician. Yuasa first examines various Asian texts dealing with Buddhist meditation, kundalini yoga, acupuncture, ethics, and epistemology, developing a concept of the dark consciousness, not identical with the psychoanalytic unconscious, as a vehicle for explaining their basic view. He shows that the mind body image found in those texts has a striking correlation to themes in contemporary French phenomenology, Jungian psychoanalysis, psychosomatic medicine, and neurophysiology. The book clears the ground for a provocative meeting between East and West, establishing a philosophical region on which science and religion can be mutually illuminating.

Recovering the Body Carol Collier, 2013-06-08 Following the metaphysical and epistemological threads that have led to our modern conception of the body as a machine, the book explores views of the body in the history of philosophy. Its central thesis is that the Cartesian paradigm, which has dominated the modern conception of the body, including the development and practice of medicine, offers an incomplete and even inaccurate picture. This picture has become a *reductio ad absurdum*, which through such current trends as the practice of extreme body modification and futuristic visions of downloading consciousness into machines, could lead to the disappearance of the biological body. Presenting Spinoza's philosophy of the body as the road not followed, the author asks what Spinoza would think of some of our contemporary body visions. It also looks to two more holistic approaches to the body that offer hope of recovering its true meaning: the practice of yoga and alternative medicine. The metaphysical analysis is accompanied throughout by a tripartite historical and epistemological analysis: the body as an obstacle to knowledge, exemplified by Plato; and our modern day futurists, the body as an object of knowledge, exemplified by Descartes and modern scientific medicine; and the body as a source of knowledge, exemplified by the Stoics and the philosophy of yoga. Published in English.

Body Consciousness Richard Shusterman, 2008-01-07 Contemporary culture increasingly suffers from problems of attention, over stimulation, and stress, and a variety of personal and social discontents generated by deceptive body images. This book argues that improved body consciousness can relieve these problems and enhance one's knowledge, performance, and pleasure. The body is our basic medium of perception and action, but focused attention to its feelings and movements has long been criticised as a damaging distraction that also ethically corrupts through self absorption. In *Body Consciousness*, Richard Shusterman refutes such charges by engaging the most influential twentieth century somatic philosophers and incorporating insights from both

Western and Asian disciplines of body mind awareness Rather than rehashing intractable ontological debates on the mind body relation Shusterman reorients study of this crucial nexus towards a more fruitful pragmatic direction that reinforces important but neglected connections between philosophy of mind ethics politics and the pervasive aesthetic dimensions of everyday life

Body and Flesh Donn Welton, 1998-03-06 The concept of the body is one of the most recent and hotly contested areas of inquiry among philosophers today

The Absent Body Drew Leder, 1990-06-15 The body plays a central role in shaping our experience of the world Why then are we so frequently oblivious to our own bodies We gaze at the world but rarely see our own eyes We may be unable to explain how we perform the simplest of acts We are even less aware of our internal organs and the physiological processes that keep us alive In this fascinating work Drew Leder examines all the ways in which the body is absent forgotten alien uncontrollable obscured In part 1 Leder explores a wide range of bodily functions with an eye to structures of concealment and alienation He discusses not only perception and movement skills and tools but a variety of bodies that philosophers tend to overlook the inner body with its anonymous rhythms the sleeping body into which we nightly lapse the prenatal body from which we first came to be Leder thereby seeks to challenge primacy of perception In part 2 Leder shows how this phenomenology allows us to rethink traditional concepts of mind and body Leder argues that Cartesian dualism exhibits an abiding power because it draws upon life world experiences Descartes corpus is filled with disruptive bodies which can only be subdued by exercising disembodied reason Leder explores the origins of this notion of reason as disembodied focusing upon the hidden corporeality of language and thought In a final chapter Leder then proposes a new ethic of embodiment to carry us beyond Cartesianism This original important and accessible work uses examples from the author's medical training throughout It will interest all those concerned with phenomenology the philosophy of mind or the Cartesian tradition those working in the health care professions and all those fascinated by the human body

The Meaning of the Body Mark Johnson, 2024-05-31 Demonstrates that the aesthetic and emotional aspects of meaning are fundamental and that the arts show meaning making in its fullest realization George Lakoff author of *Moral Politics* In *The Meaning of the Body* Mark Johnson continues his pioneering work on the exciting connections between cognitive science language and meaning first begun in the classic *Metaphors We Live By* Johnson uses recent research into infant psychology to show how the body generates meaning even before self consciousness has fully developed From there he turns to cognitive neuroscience to further explore the bodily origins of meaning thought and language and examines the many dimensions of meaning including images qualities emotions and metaphors that are all rooted in the body's physical encounters with the world Drawing on the psychology of art and pragmatist philosophy Johnson argues that all of these aspects of meaning making are fundamentally aesthetic He concludes that the arts are the culmination of human attempts to find meaning and that studying the aesthetic dimensions of our experience is crucial to unlocking meaning's bodily sources Throughout Johnson puts forth a bold new conception of the mind rooted in the understanding that philosophy will matter to non

philosophers only if it is built on a visceral connection to the world A courageous and ultimately successful book Lucas Keefer
 Metapsychology A cutting edge treatise reflecting the newest developments on the mind body and mind world problems and properly places aesthetics center stage in the study of meaning and understanding Raymond W Gibbs Jr author of
 Embodiment and Cognitive Science Energetically argued clearly written well structured admirably wide ranging and impressively well informed Richard Marc Shusterman author of Body Consciousness A Philosophy of Mindfulness and Somaesthetics

The Philosophy of Body Michael A. Proudfoot, 2003-05-16 This timely collection brings together new discussions of the body from seven leading contributors with a wide variety of philosophical outlooks The papers deal with the role of the body in the concept of the self in perceptions intention and action in Artificial Intelligence in thinking about sex and gender and in psychoanalytical thinking A collection of specially written articles discussing the wide variety of treatments of the body Timely publication bringing together new discussions of the body from seven leading contributors Investigates the treatment of the body in the pioneering works of the phenomenologist Maurice Merleau Ponty and the American Philosopher Samuel Todes

Transitions in Continental Philosophy Arleen B. Dallery, Stephen H. Watson, E. Marya Bower, 1994-01-01 This book challenges and renews the discussions that have historically characterized the tradition of continental thought in the areas of ethics feminism aesthetics and political theory The classical origins of this tradition phenomenology existentialism and hermeneutics emerged according to models that were foundational and systematic in character The book shows that continental philosophy is now woven between counter discourses and concrete interventions complicated in the relationship between theory and practice that is in the transition between concept and determination idea and intuition the ontic and the ontological experience and judgment

Persons and Bodies Lynne Rudder Baker, 2000-01-13 A detailed account of the relation between human persons and their bodies

Immersing in the Concrete Anna-Teresa Tymieniecka, S. Matsuba, 2013-04-17 The world was first introduced to the expertise and originality of Japanese scholars in phenomenology in *Analecta Husserliana* Vol IX 1979 The third generation of Japanese scholars belonging to the newly founded Merleau Ponty Japanese Circle are now presented Following Merleau Ponty's tendency the studies collected here seem to make a fresh phenomenological start in relation to classical Husserlian phenomenology turning deliberately towards the concrete the wild world flesh embodiment natural signs primal nature The rule of intentionality natural language is thereby devalued The wealth of insights the freshness of intuition and the seminal power of these fascinating enquiries well merit a close reading

Ownership of the Human Body H.A. Ten Have, J.W. Welie, 2013-11-11 This is the first book in healthcare ethics addressing the moral issues regarding ownership of the human body Modern medicine increasingly transforms the body and makes use of body parts for diagnostic therapeutic and preventive purposes The book analyzes the concept of body ownership It also reviews the ownership issues arising in clinical care for example donation policies autopsy and biomedical research Societies and legal systems also have to deal with issues of body ownership A comparison is made

between specific legal arrangements in The Netherlands and France as examples of legal approaches In the final section of the book different theoretical perspectives on the human body are analyzed libertarian personalist deontological and utilitarian theories of body ownership **Encounters in Performance Philosophy** Laura Cull Ó Maoilearca,A.

Lagaay,2014-10-16 Encounters in Performance Philosophy is a collection of 14 essays by international researchers which demonstrates the vitality of the field of Performance Philosophy The essays address a wide range of concerns common to performance and philosophy including the body language performativity mimesis and tragedy *Modern Philosophy* Roger Ariew,Eric Watkins,2019-06-24 The most widely read anthology for the study of modern philosophy this volume provides key works of philosophers and other leading thinkers of the period chosen to enhance the reader s understanding of modern philosophy and its relationship to the natural sciences of the time The third edition incorporates important contributions of women and minority thinkers into the canon of the modern period while retaining all of the material of the previous edition Included are works by Princess Elisabeth Margaret Cavendish Duchess of Newcastle Lady Anne Conway Anton Wilhelm Amo Lady Damaris Masham Lady Mary Shepherd and Emilie Marquise Du Ch telet The 3rd edition of this masterfully edited anthology incorporates important contributions of women and minority thinkers into the canon of the modern period while retaining all of the material of the previous edition Included are works by Princess Elisabeth Margaret Cavendish Duchess of Newcastle Lady Anne Conway Anton Wilhelm Amo Lady Damaris Masham Lady Mary Shepherd and Emilie Marquise Du Ch telet **Philosophy of Religion** Anne Jordan,Neil Lockyer,Edwin Tate,2002 In its second edition this text is now fully in line with the new Advanced level specifications and is also suitable for use with the Scottish Higher It provides an accessible and comprehensive look at the study of the Philosophy of Religion The book features self tests and end of unit revision pages while summaries of each topic including conclusion diagrams provide helpful study hints points for discussion and a reminder of key terms **Ethics Embodied** Erin McCarthy,2010-07-17 While the body has been largely neglected in much of

traditional Western philosophy there is a rich tradition of Japanese philosophy in which this is not the case Ethics Embodied explains how Japanese philosophy includes the body as an integral part of selfhood and ethics and shows how it provides an alternative and challenge to the traditional Western philosophical view of self and ethics Through a comparative feminist approach the book articulates the striking similarities that exist between certain strands of Japanese philosophy and feminist philosophy concerning selfhood ethics and the body Despite the similarities McCarthy argues that there are significant differences between these philosophies and that each reveals important limitations of the other Thus the book urges a view of ethical embodied selfhood that goes beyond where each of these views leaves us when considered in isolation With keen analysis and constructive comparison this book will be accessible for students and scholars familiar with the Western philosophical tradition while still adding a more global perspective **The Bloomsbury Research Handbook of Chinese Philosophy Methodologies** Sor-hoon Tan,2016-08-25 The Bloomsbury Research Handbook of Chinese Philosophy

Methodologies presents a new understanding of the changing methods used to study Chinese philosophy By identifying the various different approaches and discussing the role and significance of philosophical methods in the Chinese tradition this collection identifies difficulties and exciting developments for scholars of Asian philosophy Divided into four parts the nature of Chinese philosophical thought is illuminated by discussing historical developments current concerns and methodological challenges Surveying recent methodological trends this research companion explores and evaluates the methodologies that have been applied to Chinese philosophy From these diverse angles an international team of experts reflect on the considerations that enter their methodological choices and indicate new research directions The Bloomsbury Research Handbook of Chinese Philosophy Methodologies is an important contribution to the education of the next generation of Chinese philosophers

The Unthinkable Body Rebekka A. Klein, Calvin D. Ullrich, 2024 In the era of pandemics digitalization mass migration and precarious ecology the idea of what it means to live as a bodily creature is more important than ever Descriptions of the body in religion and philosophy have sought to integrate the sources of Spirit and Matter into a comprehensive framework of embodiment But what is the status of this paradigm today In thinking humanity as a unified being of bodily perception are there not dimensions of corporeal existence that remain constitutively unthought and what are the implications of this insight for religion politics and ethics What is one to make of the body if it is not simply a canvas for meaning but rather a transgressionary medium made up of diverse forces and affects What kinds of tensions are involved in the body's materiality and exposed existence to all forms of the natural What is now the role and limits of touch within our intersubjective social existence Do we perhaps need to retain the centrality of the lived body concept as a carrier of meaning or does the weight of the body's material existence force us to abandon it In this volume various authors have collected responses to these questions to think the Unthinkable Body both together with and beyond embodied reason

Future Seeing and Philosophy of Philosophies ... Edmund Shaftesbury, 1930

The Body and the Self Jose Luis Bermudez, Naomi Eilan, Anthony Marcel, 1998-01-23 The Body and the Self brings together recent work by philosophers and psychologists on the nature of self consciousness the nature of bodily awareness and the relation between the two The central problem addressed is How is our grasp of ourselves as one object among others underpinned by the ways in which we use and represent our bodies The contributors take up such issues as how should we characterize the various distinctive ways we have of being in touch with our own bodies in sensation proprioception and action How exactly does our grip on our bodies as objects connect with our ability to perceive the external environment and with our ability to engage in various forms of social interaction Can any of these ways of representing our bodies affect a bridge between body and self

Body and World Samuel Todes, 2001 A major contribution to contemporary existential phenomenology

Right here, we have countless book **Philosophy Of Body** and collections to check out. We additionally present variant types and in addition to type of the books to browse. The gratifying book, fiction, history, novel, scientific research, as capably as various supplementary sorts of books are readily easily reached here.

As this Philosophy Of Body, it ends going on subconscious one of the favored ebook Philosophy Of Body collections that we have. This is why you remain in the best website to look the amazing books to have.
