Philosophy Politics And Society Fifth Series Philosophy Politics Society:

Philosophy, Politics and Society Peter Laslett, James Steven Fishkin, 1969 **1964 United States Census of Agriculture: State and county statistics. 53 pts** U.S. Bureau of the Census, 1967 *Philosophy, Politics and Society* Peter Laslett, James S. Fishkin, 1979 Proceedings of the British Academy Volume 130, Biographical Memoirs of Fellows, IV, 2005-12-22 Eleven obituaries of recently deceased Fellows of the British Academy Isaiah Berlin Christopher Hill Rodney Hilton Keith Hopkins Peter Laslett Geoffrey Marshall John Roskell Isaac Schapera Ben Segal John Cyril Smith and Richard Wollheim Population and Political Theory James S. Fishkin, Robert E. Goodin, 2010-03-08 Part of the acclaimed Politics and Society series Population and Political Theory brings together leading thinkers in the fields of philosophy political science economics and social policy to address issues at the convergence of population policy and political theory Offers a single volume systematic overview of philosophical issues relating to population Represents a unique merging of discussions of population policy with political theory Broad in scope the diverse discussions will appeal to political philosophers population specialists and public policy makers **Political Theory Without Borders** Robert E. Goodin, James S. Fishkin, 2015-12-14 POLITICAL THEORY WITHOUT BORDERS Political theory has traditionally focused on governance within the confines of a specific polity but with the recent proliferation of environmental realities and national decisions that have global repercussions political theory must now be re imagined to confront globalization head on Political Theory Without Borders presents a collection scholarship that does just that Each chapter focuses on answering specific questions that have arisen from issues of global spillover like climate change and pollution and the increasingly unrestricted flow of people products and financial capital across borders With contributions from emerging scholars alongside key texts from some of the most well known theorists of previous generations this collection illustrates how the classic concerns of political theory justice and equality liberty and oppression have re emerged with a renewed significance at the global level **Making Citizens** Zev M. Trachtenberg, 2013-01-11 By analysing Rousseau s conception of the general will Zev Trachtenberg characterises the attitude of civic virtue Rousseau believes individuals must have to cooperate successfully in society Rousseau holds that culture affects political life by either fostering or discouraging civic virtue However while the cultural institutions Rousseau endorses would motivate citizens to obey the law they would not prepare citizens to help frame it Rousseau s view of culture thus works against his account of legitimacy and Trachtenberg concludes that Rousseau s political theory as a whole is inconsistent **Elements of Moral Cognition** John Mikhail, 2011-06-13 Is the science of moral cognition usefully modelled on aspects of Universal Grammar Are human beings born with an innate moral grammar that causes them to analyse human action in terms of its moral structure with just as little awareness as they analyse human speech in terms of its grammatical structure Questions like these have been at the forefront of moral psychology ever since John Mikhail revived them in his influential work on the linguistic analogy and its implications for jurisprudence and moral

theory In this seminal book Mikhail offers a careful and sustained analysis of the moral grammar hypothesis showing how some of John Rawls original ideas about the linguistic analogy together with famous thought experiments like the trolley problem can be used to improve our understanding of moral and legal judgement *A Radical Green Political Theory* Alan Carter,2013-12-16 This volume is the first systematic comprehensive and cogent environmental political philosophy It exposes the relationships between the ever worsening environmental crises the nature of prevailing economic structures and the role of the modern state and concludes that the combination of these factors is driving humanity towards destruction Innovative provocative and cutting edge *A Radical Green Political Theory* will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy **Natural Moral Law in Contemporary Society** Holger Zaborowski,2010-08 Natural law is a controversial subject but one of great significance in the ongoing and increasingly important discussion about the foundations of moral reasoning The essays of this volume examine natural moral law different natural law theories and the role that natural law can and should play in our contemporary society While some essays explore systematically the metaphysical and moral foundations of natural law others focus on questions related to the application of natural law in the political medical or legal realm or discuss historical questions that are closely related to the crisis and defense of natural law All contributors agree that natural law is a concept that cannot and must not be dismissed and that is in need of a careful retrieval While there are clearly differences in emphasis among the contributors most of them also agree that the defense of natural law the critique of the modern dismissal of natural law and of a modern non teleological understanding of nature and the proper use of philosophical reasoning are all closely related The book continues the ongoing *Studies in Philosophy and the History of Philosophy* series ABOUT THE EDITOR Holger Zaborowski is assistant professor of philosophy at the Catholic University of America He is the author of *Robert Spaemann's Philosophy of the Human Person Nature Freedom and the Critique of Modernity* and *Eine Frage von Irre und Schuld Martin Heidegger und der Nationalsozialismus* CONTRIBUTORS Joseph Cardinal Ratzinger Benedict XVI J Budziszewski Jean De Groot Jorge L A Garcia Luke Gormally Mary M Keys V Bradley Lewis Nelson Lund David S Oderberg John Rist Francis Slade and Robert Sokolowski *Autonomy, Freedom and Rights* Emilio Santoro,2013-03-09 For the author freedom is not a fixed measure It is not the container of powers and rights defining an individual's role and identity It is rather the outcome of a process whereby individuals continuously re define the shape of their individuality Freedom is everything that each of us manages to be in his or her active and uncertain opposition to external pressures *Democratic Theory and Technological Society* Richard B. Day,Ronald Beiner,Joseph Masciulli,2017-07-05 What are the chief challenges posed to contemporary democracy by modern technology and how can democratic theory best respond to or at least reflect on those challenges Inhabiting the kind of technologically advanced era in which we live what sources are available within political theory for theoretical insight concerning the problem of democratic engagement with technology The purpose of this volume is to canvas a broad range of

theorists and theoretical traditions in order to address these questions including Hegel and Marx Rousseau and John Dewey Heidegger and Simone Weil Habermas and Walter Benjamin Hannah Arendt and Hans Jonas Commentaries on all these important thinkers focused on the issue of contemporary technology as posing unique social and political challenges for democratic political life yields rich and ambitious resources for theoretical reflection *A Radical Green Political Theory* Alan B. Carter,1999 This volume is the first systematic comprehensive and cogent environmental political philosophy It will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy

John Rawls, A Theory of Justice Otfried Höffe,2013-07-25 Essential reading for all who are interested in mid century western political philosophy and the philosophy of John Rawls especially his seminal text A Theory of Justice *Equality and Liberty* J. Angelo Corlett,2016-07-27 Equality and Liberty Analysing Rawls and Nozick is an indispensable source for those seriously interested in some rigorous assessments of the ideas of America s two most popular political philosophers The essays in this volume cover a wide range of topics some engaging each other in their analyses of particular Rawlsian or Nozickian themes This collection of recent essays brings the student up to date concerning some of the more recent developments and assessments of Rawlsian and Nozickian ideas **Political Obligation in Its Historical Context** John Dunn,2002-04-11 Mr Dunn addresses the central questions of political philosophy from an unusually broad variety of perspectives *The Status of Law in World Society* Friedrich Kratochwil,2014-03-13 Friedrich Kratochwil s book explores the role of law in the international arena and the key discourses surrounding it It explains the increased importance of law for politics from law fare to the judicialization of politics to human rights and why traditional expectations of progress through law have led to disappointment Providing an overview of the debates in legal theory philosophy international law and international organizations Kratochwil reflects on the need to break down disciplinary boundaries and address important issues in both international relations and international law including deformalization fragmentation the role of legal pluralism the emergence of autonomous autopoietic systems and the appearance of non territorial forms of empire He argues that the pretensions of a positivist theory in social science and of positivism in law are inappropriate for understanding practical problems and formulates an approach for the analysis of praxis based on constructivism and pragmatism **The London Review of Politics, Society, Literature, Art, & Science** ,1863 **The Imaginary Australian** Miriam Dixon,1999 Examination of the nature of Australian national identity includes reference to Aborigines discussed in terms of violence racism guilt remorse and memory questions the characterisation of race relations through forgetting and silence Stanner and violence Rowley argues that simplified historical narratives about race relations impede reparative energy in race relations psychological understanding of racism theories of the nation crisis of history and time in Australia and its impact on identity How Does a Society Change? Ingerid S. Straume,2023-05-08 One of the most challenging questions of today concerns how human activities threaten the conditions for our very own existence With one crisis leading into the next the need for

socio political change is necessary and desirable yet so hard to imagine in practice At the heart of the matter is a deeper crisis of the socio political imagination To understand how a society produces and changes itself Ingerid S Straume points to historical and contemporary institutions and the imaginaries they embody and argues that the key to social creativity is found in the reflexive potential of institutions especially politics and education Neoliberal rationality on its part has become dominant in many parts of the world precisely by occulting the socio political capacity for self reflection This occultation takes place in academic theories policy reforms technologies and in individuals self understanding In response to the planetary eco crises and the weakening of democratic ideals a new approach is needed where collectives not individuals in isolation become the mode for living well within existing natural limits Inspired by important political thinkers such as Cornelius Castoriadis and Hannah Arendt *How Does a Society Change* develops a theoretical framework to elucidate how politics and education are two interrelated domains wherein a society may openly reflect upon itself In short a society that recognizes its capacity to change itself also recognizes the transformative instituting potential of politics and education
