Philosophy Confronting The Unavoidable:

Philosophy Frederick C. Doepke, 2003 PHILOSOPHY CONFRONTING THE UNAVOIDABLE is a broad yet highly coherent presentation of philosophy in a story like format linking successively issues in logic which using the Kantian taxonomy includes epistemology metaphysics ethics and social philosophy This book avoids the technical issues that are of interest only to specialists by following the theme suggested in the title that philosophy deals centrally with the kinds of commitments made just by living a human life With a continuously unfolding exposition of all the main areas of philosophy that is unified by the contention that philosophy is of primary value to everyone this text provides a clear sense of direction that should deepen class discussions and enhance interest in these essential issues Unstaging War, Confronting Conflict and Peace Tony Fry, 2019-07-24 This book presents the concept of unstaging war as a strategic response to the failure of the discourse and institutions of peace This failure is explained by exploring the changing character of conflict in current and emergent global circumstances such as asymmetrical conflicts insurgencies and terrorism Fry argues that this pluralisation of war has broken the binary relation between war and peace conflict is no longer self evident and consequentially the changes in the conditions nature systems philosophies and technologies of war must be addressed Through a deep understanding of contemporary war Fry explains why peace fails as both idea and process before presenting Unstaging War as a concept and nascent practice that acknowledges conflict as structurally present and so is not able to be dealt with by attempts to create peace Against a backdrop of increasingly tense relations between global power blocs the beginnings of a new nuclear arms race and the ever increasing human and environmental impacts of climate change a more viable alternative to war is urgently needed Unstaging War is not claimed as a solution but rather as an exploration of critical problems and an opening into the means of engaging with them *Confronting Evil in History* Daniel Little, 2022-10-13 Evil is sometimes thought to be incomprehensible and abnormal falling outside of familiar historical and human processes And yet the twentieth century was replete with instances of cruelty on a massive scale including systematic torture murder and enslavement of ordinary innocent human beings These overwhelming atrocities included genocide totalitarianism the Holocaust and the Holodomor This Element underlines the importance of careful truthful historical investigation of the complicated realities of dark periods in human history the importance of understanding these events in terms that give attention to the human experience of the people who were subject to them and those who perpetrated them the question of whether the idea of evil helps us to confront these periods honestly and the possibility of improving our civilization's resilience in the face of the impulses towards cruelty to other human beings that have so often emerged

Metaphilosophy Nicholas Rescher, 2014-10-23 The definitive mission of metaphilosophy is to facilitate an understanding of how philosophy works the aim of the enterprise the instrumental and procedural resources for its work and the prospect of its success Nicholas Rescher unites two facets of metaphilosophy to show that historical perspective and forward thinking

normative or systematic metaphilosophy cannot be independent of one another The descriptive or historical metaphilosophy provides an account of what has been thought regarding the conduct of philosophical inquiry and the prescriptive or normative metaphilosophy which deliberates about what is to be thought regarding the conduct of philosophizing Rescher argues that metaphilosophy forms a part of philosophy itself This is a unique feature of the discipline since the philosophy of biology is not a part of biology and the philosophy of mathematics is not a part of mathematics Ultimately the salient features of philosophizing in general including the inherently controversial and discordant nature of philosophical doctrines are also bound to afflict metaphilosophy Thus only by a careful analysis of the central issues can a plausible view of the enterprise be developed Metaphilosophy Philosophy in Philosophical Perspective challenges the static compartmentalized view of metaphilosophy providing insight for scholars and students of all areas of philosophy

The Philosophy of Play Emily Ryall, Wendy Russell, Malcolm MacLean, 2013-04-12 Play is a vital component of the social life and well being of both children and adults This book examines the concept of play and considers a variety of the related philosophical issues It also includes meta analyses from a range of philosophers and theorists as well as an exploration of some key applied ethical considerations The main objective of The Philosophy of Play is to provide a richer understanding of the concept and nature of play and its relation to human life and values and to build disciplinary and paradigmatic bridges between scholars of philosophy and scholars of play Including specific chapters dedicated to children and play and exploring the work of key thinkers such as Plato Sartre Wittgenstein Gadamer Deleuze and Nietzsche this book is invaluable reading for any advanced student researcher or practitioner with an interest in education playwork leisure studies applied ethics or the philosophy of sport

Philosophy Examined Nicholas Rescher, 2021-10-25 The book presents a detailed examination of many key aspects of philosophizing ranging from the mission of philosophy its method its dialectic and its epistemology It conveys to the reader student and scholar alike a clear account of the aspirations and potential of the discipline Readers will come away with a clearer understanding of the promise and challenges of philosophizing

Confronting the Will-to-Power Mark F.W. Lovatt, 2006-10-19 The author takes up Niebuhr's theology and presents it to be at its heart an attempt to grapple with the most powerful and most dangerous aspect of human nature a quality Niebuhr describes as the will to power Lovatt argues forcibly that Niebuhr identifies the fundamental nature of human sin as having very specific qualities and that Niebuhr over his various works develops a theology which seeks to deal effectively with this quality both theologically and practically Lovatt discusses the main areas of doctrine covered by Niebuhr and considers how his position reflects his underlying agenda to grapple with the reality of the will to power this leads to some important conclusions about Niebuhr modern theology and the present day problem of evil

Philosophy at the Limit David Wood, 2023-08-11 First published in 1990 Philosophy at the Limit was originally part of the Problems of Modern European Thought book series It pursues the theme of philosophy's confrontation with its own limits in modern philosophers from Hegel to Derrida including Nietzsche

Wittgenstein Heidegger and Gadamer The author focuses on questions of philosophical style dialogue and indirect communication the structural closure of philosophical texts and performative strategy in philosophy The book is an accessible discussion of many of the complex issues that empower continental philosophy It will appeal to students of philosophy and contemporary thought at every level and to the general reader interested in the heart of the debates in European thought

Martin Heidegger Gregory B. Smith, 2007 Since the publication of Victor Farias's Heidegger and Nazism the discussion about the political significance of Martin Heidegger's thinking has been distorted Because of his association with the Third Reich some have dismissed Heidegger out of hand while others have sought to explain away certain connections What is often lost in the writing of critics and advocates alike is an honest assessment of Heidegger as a political thinker and a frank interest in understanding his work Martin Heidegger Paths Taken Paths Opened takes Heidegger's philosophy on its own terms and explores the pivotal significance of his phenomenology for political theory Heidegger opposed at the deepest level everything that informs the global technological civilization that seems to be the fate of humanity Yet even in the liberal and technologically oriented West we cannot proceed without a confrontation with his thought In this timely addition to the 20th Century Political Thinkers series Gregory Bruce Smith shows Heidegger's thought to be an inescapable challenge to our current ethical habits and contemporary political institutions In this path breaking work Smith establishes the centrality of Heidegger's thought even to those who would claim to be his most ardent critics Smith also addresses difficult interpretative questions regarding the relationship of Heidegger's early and later work and the status of political ideas with respect to Heidegger's phenomenological project A work of broad interpretative breadth and keen political insight Martin Heidegger Paths Taken Paths Opened establishes the undeniable importance of Heidegger's thought for the future of the tradition of political philosophy

Facing Reality Joseph Grcic, Ph D Joseph Grcic, 2009-10-01 Facing Reality is an introduction to philosophy which examines central issues in philosophy from an interdisciplinary multicultural and applied manner It covers the traditional areas of philosophy such as the nature of knowledge ethics free will the existence of God life after death the nature of science and political philosophy In addition it covers topics usually not found in introductory texts such as obstacles to rationality theories of happiness world religions and the meaning of life Each chapter has a summary questions for review recommended films suggested readings and dilemmas for discussion There are also sections entitled Philosophy in Life where philosophical ideas are applied to current issues and debates

Memoirs of the Twentieth Century Ugo Spirito, 2021-10-25 Ugo Spirito's Memoirs of the Twentieth Century is the intellectual autobiography of one of the most original and anticonformist contemporary Italian philosophers In it Spirito makes an evaluation of his long career spanning from the decade of the 20s to that of the 70s of the twentieth century as a thinker who was never satisfied with any theoretical or philosophical system while constantly aiming at finding a definitive truth the incontrovertible or absolute The various stages of his search deal with different philosophical and scientific systems from

positivism to actual idealism from problematicism to omnicentrism from scientism to neoproblematicism revealing at the same time an inherent antinomic procedure that does not permit him to take any truth for granted At the end of his life Spirito realized that he could only be sure of his present state of unawareness thus challenging the validity of his lifelong investigative activity Man cannot know himself Spirito wrote Confronted with the manifestations of life and universe he could not help but feel a sense of surprise and astonishment Throughout his life he was only a spectator of his destiny not the conscious creator of it as he believed in the early stage of his career Consequently he reached a position of negating any value system bordering on skepticism and nihilism Within this context he offered a post modern interpretation of life This interpretation was also Spirito s conclusion and as such implied a rethinking about other faiths both political and ideological that for more than fifty years would develop parallel to philosophical faith Consequently he revisited some of the most important philosophical and political personalities who interpreted or materialized those faiths from Benedetto Croce to Gentile from Benito Mussolini to Giovanni Bottai from Togliatti to Pope Paul VI Spirito was not a thinker who remained secluded within the ivory tower of pure investigation but in an effort to modify society according to principle of the identification of philosophy with life he tried to act upon it by following thoughts with action Memoirs of the Twentieth Century is divided in two parts one purely autobiographical and theoretical and the other more historical where Spirito narrates his relationship with the above mentioned personalities as a way of testing the validity of his beliefs Indeed one can perceive his moment of adherence to each of the different approaches expounded only to subsequently detach himself from them For the English speaking reader the second part will appear more interesting and poignant since Spirito s involvement with history foretells the intellectual fate of a nation Memoirs of the Twentieth Century is a reflection on life in which personal history serves as a vehicle for judgment upon an entire century

and draws connections between these four landmark books in Western intellectual history **A System of Pragmatic Idealism, Volume III** Nicholas Rescher, 2014-07-14 This is the third and final volume of A System of Pragmatic Idealism a series that will synthesize the life's work of the philosopher Nicholas Rescher Rescher's numerous books and articles which address almost every major philosophical topic reflect a unified approach the combination of pragmatism and idealism characteristic of his thinking throughout his career The three related but independently readable books of the series present Rescher's system as a whole In combining leading ideas of European continental idealism and American pragmatism in a new way Rescher has created an integrated philosophical position in which the central concepts of these two traditions become a coherent totality The initial volume in the series was dedicated to epistemology the philosophy of science and the philosophy of nature while the second dealt with issues of value theory ethics and practical philosophy In Volume III Rescher examines the nature of philosophical inquiry itself seeking to affirm the classical conception of philosophy as a significant problem solving enterprise that draws on the whole range of human experience to attempt to resolve the big questions Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Confronting Torture* Scott A. Anderson, Martha Nussbaum, 2018-04-23 Torture has lately become front page news featured in popular movies and TV shows and a topic of intense public debate It grips our imagination in part because torturing someone seems to be an unthinkable breach of humanity theirs and ours And yet when confronted with horrendous events in war or the prospect of catastrophic damage to one's own country many come to wonder whether we can really afford to abstain entirely from torture Before trying to tackle this dilemma though we need to see torture as a multifaceted problem with a long history and numerous ethical and legal aspects *Confronting Torture* offers a multidisciplinary investigation of this wrenching topic Editors Scott A. Anderson and Martha C. Nussbaum bring together a diversity of scholars to grapple with many of torture's complexities including How should we understand the impetus to use torture Why does torture stand out as a particularly heinous means of war fighting Are there any sound justifications for the use of torture How does torture affect the societies that employ it And how can we develop ethical or political bulwarks to prevent its use The essays here resist the temptation to oversimplify torture drawing together work from scholars in psychology history sociology law and philosophy deepening and broadening our grasp of the subject Now more than ever torture is something we must think about this important book offers a diversity of timely constructive responses on this resurgent and controversial subject *Confronting the Crisis* Paul Piccone, 2008 *The Twenty-first Century Confronts Its Gods* David J. Hawkin, 2012-02-01 This book penetrates the assumptions of Western

technological society and exposes the powers that govern it The contributors argue that it is a mistake to think that religion and belief have been relegated to the private sphere and are no longer important in the public and political domains They assert that the twenty first century has a set of new gods the powers of globalization technology the market and military might that reign alongside those of traditional religions These are the forces to which the modern era has granted ultimacy This book looks at how major religions such as Christianity Islam Judaism Hinduism and Buddhism play an important role in politics and society on both the global and local levels The new gods of technology globalization and war are shown to exacerbate the existing cultural divisions and religious strife that mark our time By understanding the importance of that which is held sacred whether traditional belief or modern practice not acknowledged as belief the contributors help us to comprehend our present situation and challenges

Modernism, Rubén Darío, and the Poetics of Despair Alberto Acereda, Rigoberto Guevara, 2004 *Modernism Ruben Dar o and the Poetics of Despair* presents a detailed study of a neglected facet of Ruben Dar o and in general of Hispanic Modernism metaphysical and existential dimensions as preludes to Modernity Alberto Acereda and J Rigoberto Guevara approach the life and death issues in Dar o works with special emphasis on his poetry The authors demonstrate how the Nicaraguan poet takes the first steps towards poetic modernity The tragic component of Dar o works are examined in the light of Nineteenth Century philosophy especially the work of Arthur Schopenhauer Various thematic proposals are also formulated for the study of the works of Ruben Dar o

Theology and the Justification of Faith Jacobus Wentzel Van Huyssteen, Wentzel Van Huyssteen, 1989 This is a print on demand book and is therefore non returnable This book deals with the epistemological problems of rationality and of theory construction in theology Van Huyssteen analyzes the principal models of rationality examines the conceptual models of Wolfhart Pannenberg and Gerhard Sauter and finally discusses the metaphoric nature of religious language and develops criteria for the structuring of a critical realist rationality model
