The Image of Arizona Andrew Wallace, 1971 A history of Arizona from before European discovery to the 19th century is accompanied by numerous period prints and drawings **Historic Photos of Arizona** , 2009-04-01 Arizona the 48th state of the United States of America is a land of diverse environments and unbelievable natural beauty It is also a land where many cultures each with its own food architecture music and art came together as part of the American story Historic Photos of Arizona highlights the unique history of this state as captured in nearly 200 images reproduced in vivid black and white A photographic journey from the Wild West days of Arizona lore to the modern state Arizona was soon to become this book showcases landscapes as varied as those of the Sonoran Desert and the state's ponderosa pine forests From images of frontier life and copper mining boomtowns to turn of the century Grand Canyon vistas to Harvey Houses and Route 66 Historic Photos of Arizona presents a fascinating view of a changing land and the people who called it home a land to which many are still drawn to fulfill their dreams today *Picturing Arizona* Katherine G. Morrissey, Kirsten Jensen, 2005-10-01 As cultural documents as works of art and as historical records photographs of 1930s Arizona tell a remarkable story They capture enduring visions of the Depression that linger in cultural memory dust storms Okies on their way to California breadlines and ramshackle tent cities They also reflect a more particular experience and a unique perspective This book places the work of local Arizonans alongside that of federal photographers both to illuminate the impact of the Depression on the state's distinctive racial and natural landscapes and to show the influence of differing cultural agendas on the photographic record The more than one hundred images by well known photographers such as Dorothea Lange and Laura Gilpin as well as by an array of less familiar photographers represent a variety of purposes and perspectives from public to personal political to promotional Six essays and three photo essays bring together prominent authorities in history the arts and other fields who provide diverse perspectives on this period in Arizona and American history Viewed together the words and images capture a Depression era Arizona bustling with activity as federally funded construction projects and seasonal agricultural jobs brought migrants and newcomers to the state They convey the celebrations and the struggles of commercial photographers archaeologists city folks farmers tourists native peoples and others in these hard times As the economic strains of the decade reverberated through the state local photographers documented the lives of Arizona residents including those frequently overlooked by historians As this book persuasively shows photographs can conceal as much as they reveal A young Mexican American girl stands in front of a backdrop that hides the outhouse behind her a deeply moving image for what it suggests about the efforts of her family to conceal their economic circumstances Yet this image is a perfect metaphor for all the photographs in this book stories remain hidden but when viewers begin to question what they cannot see pictures resonate more loudly than ever before This book is a history of Arizona written from the photographic record offering a point of view that may differ from the written record From the images and the insights of the authors we can gain a new

appreciation of how one state and its indomitable people weathered our nation's toughest times **The Moving Picture World** ,1913 *Searching for Arizona's Buried Treasures* Ron Quinn,2013-10-01 Searching for hidden treasures in the Tubac and Tumacacori mountains few have ever heard of we discovered places that have never been visited by others to this day The four of us finally unearthed a medium size buried treasure south of Tucson Arizona which consisted of 82 pounds of Spanish gold bullion **Arizona Highways** ,1925 *Catalog* National Medical Audiovisual Center,1981 **The Planets** DK,2014-08-18 Discover places where a day is longer than a year where hailstones are made of diamonds and where a mountain looms twice the size of Everest These and more are all to be found in *The Planets* The Sun's gravity holds in thrall eight planets each with an entourage of moons as well as dwarf planets asteroids and comets *The Planets* takes you on a dazzling visual tour From the Solar System's fiery heart travel to rocky worlds such as tiny Mercury scorched by the Sun Then witness Venus swathed in a sulfurous haze and go to the outer reaches to visit planets such as gas giant Jupiter which is 120 times the size of Earth Using 3 D models and photography from NASA and the European Space Agency *The Planets* describes each one as well as the extraordinary endeavors of space exploration Edited by space scientist Maggie Aderin-Pocock this book is enthralling reading for everyone interested in astronomy and space exploration *National Geographic Traveler: Arizona* Bill Weir,2008 These information packed guides offer savvy advice and the in depth information that sophisticated travelers demand Each guide features Detailed background and site descriptions mapped walking and driving tours full service sidebars with fascinating vignettes on history culture and contemporary life a 60 page directory of visitor information including notable hotels and restaurants entertainment and shopping and foldout end flaps printed with maps and quick reference information that serve as handy bookmarks *National Medical Audiovisual Center Catalog* National Medical Audiovisual Center,1981 Films for the health sciences
