Picture-perfect Walls Home Decorating Institute (Minnetonka, Minn.),1995 Offers advice and instructions on creating wall decorations building wooden boxes and shelves creating floral wall accessories and embellishing ordinary picture frames

Picture Perfect Practice Roberto Valenzuela,2012 The author presents his advice and practice routines for composing and capturing photographs of people illustrated with examples from his own practice sessions and from his extensive work photographing weddings around the world *Picture Perfect Framing* Katie DuMont,2002-03 Provides instructions and techniques for creating your own picture frames

Picture Perfect Posing Roberto Valenzuela,2014-02-26 Photographer author and educator Roberto Valenzuela has a proven track record for teaching and explaining difficult concepts to photographers of all skill levels His remarkable ability to break down complicated ideas into understandable approachable elements that photographers can truly grasp and then use their newfound knowledge to improve their photography made his first book *Picture Perfect Practice* a breakout success In *Picture Perfect Posing* Roberto takes on the art of posing For many photographers after learning to compose an image and even light it properly a portrait can still easily be a failure if the pose is not natural elegant and serving the needs of both the subject and the photographer Instead of just showing page after page of poses like most posing books on the market Roberto actually breaks down the concept of posing by examining the anatomy starting with the core foundation the spinal chord and neck Building from there Roberto discusses every component of what makes poses work as well as fail How should the model hold her hands Bend her elbows Position her fingers Should the model look toward or away from the camera and why It all depends on what the photographer wants for the shot and Roberto discusses the entire process from the intent of the photographer through the execution of the pose For those who have been discouraged by an inability to pose their subjects or who have simply not known where to start in order to figure it out *Picture Perfect Posing* is the essential resource they need to learn how posing truly works and how they can learn to direct the exact pose they need for the shot they want *Picture Perfect Flash* Roberto Valenzuela,2024-01-22 Conquer portable strobes and hot shoe flash to create extraordinary portraits Whether you use small portable strobes or hot shoe flash flash photography has always been daunting for most photographers Without a system and workflow for thinking about and working with flash you can easily end up feeling stuck or you end up flailing randomly changing settings positions and modifiers and hoping for the best It is not surprising that this leads to failure and frustration Enter bestselling author Roberto Valenzuela and the *Picture Perfect Flash System* which he created to empower you to finally conquer your flash and create photographs that fulfill your intention and vision There are two key components to this system which Roberto calls **FACES** and **NAME** The **FACES** component provides a framework for thinking about how you want or need to use flash in a particular scene **Fix the Light** Do you need to fix a low light problem an unwanted color cast or a situation with poor quality of light **Add Light** Do you need to add more light to boost or enhance the available light or create separation **Create a Mood** Are you using

light to create a desired mood for a location or subject Effects with Flash Are you using flash for creative visual effect Sculpt the Light Do you need to sculpt the light to add drama shape and contouring Once you ve found your purpose for the light the NAME component provides an essential workflow for carrying out your flash photography in a methodical way so that you get consistent and predictable results Number of Flashes How many flashes do you need Angle of Flashes Where do the flashes need to be positioned Modifiers for Flashes How do you need to modify your flashes Energy of Flashes What power do the flashes need to be The Picture Perfect Flash System is covered in Part One The Flash Advantage which is the core framework of the book In Part Two Flash Basics Explained Roberto covers the flash features you need to know TTL Manual 1st and 2nd Curtain Sync High Speed Sync and Channels and Groups Finally in Part Three Dynamic Flash Exercises Roberto gives you a dozen lighting exercises that will substantially hone and advance your skills With Picture Perfect Flash you ll finally be able to conquer your flash and make the kind of portraits you ve always wanted to create
