Picture-tube Imperialism? Alan Wells,1972 **Latin American Journalism** Michael B. Salwen,Bruce

Garrison,2013-11-05 Produced to fill a gap in current knowledge about the state of journalism in Latin America this timely book chronicles how recent changes toward democratization and privatization in the region have influenced mass media industries and the practice of journalism Written as a tribute to earlier books about the development and status of Latin American news organizations this text provides a readable overview of journalism in the area Unlike those in previous works these chapters are divided by issues and subject matter instead of by nations and regions Each chapter concludes with a spotlight case study to illustrate the reading material These features along with several easy to follow tables topical examples suitable for class discussions and a variety of sources including original interviews with media professionals all combine to form the most up to date book currently available on this constantly changing subject *Latin American Television* John

Sinclair,1998-12-17 Latin American Television makes English speakers aware of the dimensions operation and significance of the globalization of television in the Spanish speaking world Second only in scale to the market for English language programming the Spanish language market embraces not just most nations of South and Central America but also Spain and even the United States the sixth largest Spanish speaking country in the world This intercontinental space is connected physically by satellite communication and culturally by a common language and heritage which binds it as both a geolinguistic region and an imagined community which certain media corporations Latin American and North American seek to exploit A similar phenomenon with regard to Brazil and the Portuguese speaking world is also examined with special attention to its comparable features and points of exchange with the Spanish speaking world The book chronicles and analyses the development and structure of the globalization of these markets as a Latin world **Latin American**

Broadcasting Fox de Cardona Fox,1997 The conflicts and compromises that accompanied the introduction and growth of radio and television in Latin America are explored in this comparative historical analysis of the role of foreign influence on Latin American broadcasting Documented are stories of how radio and television broadcasting developed in Argentina Brazil Chile Colombia Mexico Peru Uruguay and Venezuela from the early 20th century to the present *Molding the Hearts and Minds* John A. Britton,1994 In this work 17 essays by leading scholars examine how education has influenced the history of

Latin America from the restricted schools of the early 19th century to today s bureaucracy **A Companion to Television**

Janet Wasko,2009-12-21 A Companion to Television is a magisterial collection of 31 original essays that charter the field of television studies over the past century Explores a diverse range of topics and theories that have led to television s current incarnation and predict its likely future Covers technology and aesthetics television s relationship to the state televisual commerce texts representation genre internationalism and audience reception and effects Essays are by an international group of first rate scholars For information news and content from Blackwell s reference publishing program please visit

www.blackwellpublishing.com reference The Century of U.S. Capitalism in Latin America Thomas O'Brien, 1999-03
Traces the development of U.S. business interests in Latin America from the early 19th century to the present Empire of Pictures Sönke Kunkel, 2015-12-01 In Cold War historiography the 1960s are often described as a decade of mounting diplomatic tensions and international social unrest. At the same time they were a period of global media revolution: communication satellites compressed time and space, television spread around the world, and images circulated through print media in expanding ways. Examining how U.S. policymakers exploited these changes, this book offers groundbreaking international research into the visual media battles that shaped America's Cold War from West Germany and India to Tanzania and Argentina The Handbook of Communication History Peter Simonson, 2013 The Handbook of Communication History addresses central ideas, social practices, and media of communication as they have developed across time, cultures, and world geographical regions. It attends to both the varieties of communication in world history and the historical investigation of those forms in communication and media studies. The Handbook editors view communication as encompassing patterns, processes, and performances of social interaction, symbolic production, material exchange, institutional formation, social praxis, and discourse. As such, the history of communication cuts across social, cultural, intellectual, political, technological, institutional, and economic history. The volume examines the history of communication, the history of ideas of communication, the history of communication media, and the history of the field of communication. Readers will explore the history of the object under consideration, relevant practices, media, and ideas; review its manifestations in different regions and cultures; comparative dimensions; and orient toward current thinking and historical research on the topic; current state of the field. As a whole, the volume gathers disparate strands of communication history into one volume, offering an accessible and panoramic view of the development of communication over time and geographical places and providing a catalyst to further work in communication history *International Media Communication in a Global Age* Guy Golan, Thomas Johnson, Wayne Wanta, 2009-09-10 This volume provides a comprehensive examination of key issues regarding global communication, focusing particularly on international news and strategic communication. It addresses those news factors that influence the newsworthiness of international events, providing a synthesis of both theoretical and practical studies that highlight the complicated nature of the international news selection process. It also deals with international news coverage, presenting research on the cross-national and cross-cultural nature of media coverage of global events in the interdisciplinary context of research on political communication, war coverage, new technologies, and online communication. The work concludes with a focus on global strategic communications in the age of globalization, global economies, and cross-national media ownership. Chapters here provide readers with some of the most up-to-date research on international advertising, public relations, and other key issues in international communications. With contributions from many of the leading scholars in the field of international media communication research, this collection presents a valuable resource for

advancing knowledge and understanding of the complicated international communication phenomenon It will be of value to upper level undergraduates and graduate students in mass media and communication programs and to scholars whose research focuses on global communication research **Internationalizing "International Communication"** Chin-Chuan Lee,2015-01-13 A critical intervention in international communications in which an array of eminent scholars challenge the Western dominated conceptions of the field *Transnational Enterprises* Krishna Kumar,2019-06-04 This book represents the first attempt to conceptualize the social and cultural impact of transnational enterprises on host nations and to provide empirical and analytical material on the subject Well known social scientists focus on three critical areas social inequalities knowledge systems and lifestyles and values Collectively they advance **Coexisting Contemporary Civilizations** Guy Ankerl,2000 Some important questions are discussed in this book Are there any civilisations other than the Western one living in our so called Global Age Eastern civilisation Is the concept of East anything more than non West Or does there exist in reality a distinct Chinese Indian Arabo Muslim and Western civilisation Is the construction of large civilisation states such as China and India an unparalleled historical achievement Do economic ties always eclipse other forms of affiliation such as those formed through kinship or between speech communities What is the role of the Latin and the Jewish Peoples in our Anglo American led Western world Is English today the global language or merely an international one Is the Chinese thought pattern closely related to its writing system Is today s world one of symmetrical interdependence Or rather one of hegemony If the so called North South or East West dialogue fails in constructing a universally accepted world civilisation then what is the appropriate arrangement for reaching such a consensus within humankind **Global Transformations** David Held,1999 In this book the authors set forth a new model of globalization that lays claims to supersede existing models and then use this model to assess the way the processes of globalization have operated in different historic periods in respect to political organization military globalization trade finance corporate productivity migration culture and the environment Each of these topics is covered in a chapter which contrasts the contemporary nature of globalization with that of earlier epochs In mapping the shape and political consequences of globalization the authors concentrate on six states in advanced capitalist societies SIACS the United States the United Kingdom Sweden France Germany and Japan For comparative purposes other states particularly those with developing economics are referred to and discussed where relevant The book concludes by systematically describing and assessing contemporary globalization and appraising the implications of globalization for the sovereignty and autonomy of SIACS It also confronts directly the political fatalism that surrounds much discussion of globalization with a normative agenda that elaborates the possibilities for democratizing and civilizing the unfolding global transformation **Resources in Education** ,1973 **Research in Education** ,1973 Consumerism in World History Peter N. Stearns,2025-02-26 The third edition of *Consumerism in World History* explores the nature of consumerism and its evolution with particular emphasis on the modern consumer revolution and its global scope The book

deals with crucial interpretive issues such as whether consumerism is a natural human expression or involves other causes the relationship between consumer apparatus such as shops and advertising and human needs and the interplay between Western and other regional forms of consumerism It covers major historical moments and changes including the consumer revolution in Western society beginning in the 17th century and regional cultural patterns from the 19th century onward This is a substantially revised edition with updated suggested readings rewritten sections on premodern consumerism in agricultural societies and globalization and consumerism and expanded coverage of major regions like India and Latin America This volume is essential reading for all students of world history and will be of great value to those in business history and environmental history

Globalization in World History Peter N. Stearns,2023-11-03 In this fully revised fourth edition this book treats globalization from several vantage points showing how these help grasp the nature of globalization both in the past and today The revisions include greater attention to the complications of racism after 1500 and nationalism after 1850 further analysis of reactions against globalization after World War I and in the 21st century more discussion of student exchanges and fuller treatment of developments since 2008 including the role of the Covid 19 pandemic in contemporary globalization Four major chronological phases are explored in the centuries after 1000 CE after 1500 after 1850 and since the mid 20th century Discussion of each phase includes relevant debates over the nature and extent of the innovations involved particularly in terms of transportation communications technologies and trade patterns The phase approach also facilitates analysis of the range of interactions enmeshed in globalization beyond trade and migration including disease exchange impacts on culture and consumer tastes and for the modern periods policy coordination and international organizations Finally the book deals with different regional positions and reactions in each of the major phases This includes not only imbalances of power and economic benefit but also regional styles in dealing with the range of global relationships This volume is essential reading for undergraduate and postgraduate students of world history economic history and political economy

American Media and Mass Culture Donald Lazere,1987-12-07 On subjects from Superman to rock n roll from Donald Duck to the TV news from soap operas and romance novels to the use of double speak in advertising these lively essays offer students of contemporary media a comprehensive counterstatement to the conservatism that has been ascendant since the seventies in American politics and cultural criticism Donald Lazere brings together selections from nearly forty of the most prominent Marxist feminist and other leftist critics of American mass culture from a dozen academic disciplines and fields of media activism The collection will appeal to a wide range of students scholars and general readers
