Art and Architecture in Naples, 1266 - 1713 Cordelia Warr, Janis Elliott, 2010-05-11 Often overshadowed by the cities of Florence and Rome in art historical literature this volume argues for the importance of Naples as an artistic and cultural centre demonstrating the breadth and wealth of artistic experience within the city Generously illustrated with some illustrations specifically commissioned for this book Questions the traditional definitions of cultural centres which have led to the neglect of Naples as a centre of artistic importance A significant addition to the English language scholarship on art in Naples

The Early Reception and Appropriation of the Apostle Peter (60-800 CE), 2020-03-17 The apostle Peter gradually became one of the most famous figures of the ancient world His almost undisputed reputation made the disciple an exquisite anchor by which new practices within and outside the Church could be established including innovations in fields as diverse as architecture art cult epigraphy liturgy poetry and politics This interdisciplinary volume inquires the way in which the figure of Peter functioned as an anchor for various people from different periods and geographical areas The concept of Anchoring Innovation is used to investigate the history of the reception of the apostle Peter from the first century up to Charlemagne revealing as much about Peter as about the context in which this reception took place

The Creation of Eve and Renaissance Naturalism Jack M. Greenstein, 2016-08-23 Depicting the Creation of Woman presented a special problem for Renaissance artists The medieval iconography of Eve rising half formed from Adam's side was hardly compatible with their commitment to the naturalistic representation of the human figure At the same time the story of God constructing the first woman from a rib did not offer the kind of dignified affective pictorial narrative that artists patrons and the public prized Jack M Greenstein takes this artistic problem as the point of departure for an iconographic study of this central theme of Christian culture His book shows how the meaning changed along with the form when Lorenzo Ghiberti Andrea Pisano and other Italian sculptors of the fourteenth and fifteenth centuries revised the traditional composition to accommodate a naturalistically depicted Eve At stake Greenstein argues is the role of the artist and the power of image making in reshaping Renaissance culture and religious thought

The Church of Santa Maria Donna Regina Janis Elliott, 2017-07-05 The church of Santa Maria Donna Regina in Naples is a rare example of aristocratic convent architecture in Italy designed and built for the devotional use of the Clarissan nuns Its decorative programme rivals that of Giotto's Arena Chapel in Padua in scope iconographical complexity and quality of artistic production The first book in English on this important church this elegantly written volume is also the first full scale study to bring together innovative interdisciplinary research on the building The authors explore themes relating to the architecture decoration sculpture

iconography audience liturgy and patronage of Santa Maria Donna Regina enriching our understanding of the art patronage of royal women and the monastic experience of Clarissan nuns as well as the politics culture and patronage of trecento Naples Over one hundred illustrations many commissioned specially for the book accompany the text *Giotto the Painter. Volume 1-3* Michael Viktor Schwarz, 2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre-modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies Historical Dictionary of Renaissance Art Lilian H.
