*Modern/Postmodern* Peter V. Zima, 2010-08-05 Modern Postmodern Society Philosophy Literature offers new definitions of modernism and postmodernism by presenting an original theoretical system of thought that explains the differences between these two key movements Taking a contrastive approach Peter V Zima identifies three key concepts in the relationship between modernism and postmodernism ambiguity ambivalence and indifference Zima defines modernism and postmodernism as problematics as opposed to aesthetics stylistics or ideologies Unlike modernism which is grounded in an increasing ambivalence towards social norms and values postmodernity is presented as an era of indifference i.e. of interchangeable norms values and perspectives Taking an historical interdisciplinary and intercultural approach that engages with Anglo American and European debates the book describes the transition from late modernist ambivalence to postmodern indifference in the contexts of philosophy literature and sociology This is the ideal guide to the relationship between modernism and postmodernism for students and scholars throughout the humanities      **The Routledge Companion to Postmodernism** Stuart Sim, 2012-05-23 This fully revised third edition of *The Routledge Companion to Postmodernism* provides the ideal introduction to postmodernist thought Featuring contributions from a cast of international

Postmodernism and the Ethics of Theological Knowledge Justin Thacker,2016-04-08 This book establishes the necessary integration of theological knowledge with theological ethics It does this as a response to the postmodern critique of Christianity as exemplified in Rorty and Lyotard They argue that any claim to know God is necessarily tyrannical Contemporary responses to such postmodern thinking often fail to address adequately the ethical critique that is made This book redresses that balance by suggesting that our knowledge of God and love of the Other are so intimately connected that we cannot have one without the other In the absence of love then we simply do not know God Justin Thacker proposes that an effective theological response to postmodernity must address both knowledge and ethics in an integrated fashion as presented in this book

**Introduction to Politics and Society** Shaun Best,2002-02-15 Introduction to Politics and Society draws on examples from popular political culture in order to convey how politics operates in the contemporary world Examples illustrate the meaning of theories and show the relevance of central theoretical debates Planned and developed with an eye to the needs of students the book is an extraordinary resource for undergraduate teaching and study needs It will be required reading for undergraduate students in sociology politics and social policy

*Developments* Erica Burman,2020-07-28 How does developmental psychology connect with what used to be called the developing world What do cultural representations indicate about the contemporary politics of childhood How is concern about child sexual exploitation linked to wider securitization anxieties In other words what is the political economy of childhood and how is this affectively organized This new edition of *Developments* Child Image Nation fully updated is a key conceptual intervention and resource reflecting further on the contexts and frameworks that tie children to national and international agendas A companion volume to Burman s *Deconstructing Developmental Psychology* third edition 2017 this

volume helps explain why questions around children and childhood including their safety welfare their interests abilities sexualities and their violence have so preoccupied the late twentieth and twenty first centuries showing how the frames for these concerns have extended beyond their Euro US contexts of origination In this completely revised edition Burman explores changing debates and contexts offering resources for interpreting continuities and shifts in the complex terrain connecting children and development Through reflection on an increasingly globalised marketised world that prolongs previous colonial and gendered dynamics in new and even more insidious ways Developments analyses the conceptual paradigms shaping how we think about and work with children and recommends strategies for changing them Drawing in particular on feminist and post development literatures as well as original and detailed engagement with social theory it illustrates how and why reconceptualising notions of individual and human development including those informing models of children s rights and interests is needed to foster more just and equitable forms of professional practice with children and their families Burman offers an important contribution to a set of urgent debates engaging theory and method policy and practice across all the disciplines that work with or lay claim to children s interests A persuasive set of arguments about childhood culture and professional practice Developments is an invaluable resource to teachers and students in psychology childhood studies and education as well as researchers in gender studies **Lyotard Dictionary** Stuart Sim,2011-03-23

Transforming Exclusion is concerned with the interface between the study of religion theology and issues surrounding exclusion Religious beliefs can be important in shaping attitudes that can lead to the exploitation or marginalization of both humans and non humans At the same time religious beliefs and practices have much to offer in transforming the world creating a more equitable place for all who occupy it At other times the voices of members of religious communities are suppressed and marginalized by other more dominant religious or secular individuals or communities This book addresses all of these aspects of social exclusion and aims to demonstrate that the study of theology and religion in addressing religious communities and

society more widely have important contributions to make in creating a more just world The issue of exclusion is engaged with from a range of different perspectives by scholars involved in fieldwork with religious communities systematic contextual and practical theologians and practitioners involved in the preparation of individuals and groups for a range of ministries and professions

Digimodernism Alan Kirby, 2009-05-01 A bold new challenge to postmodern theory The increasing irrelevance of postmodernism requires a new theory to underpin our current digital culture Almost without anybody noticing a new cultural paradigm has taken center stage displacing an exhausted and increasingly marginalized postmodernism Alan Kirby calls this cultural paradigm digimodernism a name comprising both its central technical mode and the privileging of fingers and thumbs inherent in its use Beginning with the Internet digimodernism's most important locus then taking into account television cinema computer games music radio etc Kirby analyzes the emergence and implications of these diverse media coloring our cultural landscape with new ideas on texts and how they work This new kind of text produces distinctive forms of author and reader/viewer which in turn lead to altered notions of authority truth and legitimization With users intervening physically in the creation of texts our electronically dependent society is becoming more involved in the grand narrative To clarify these trends Kirby compares them to the contrasting tendencies of the preceding postmodern era In defining this new cultural age the author avoids both facile euphoria and pessimistic fatalism aiming instead to understand and thereby gain control of a cultural mode which seems as though from nowhere to have engulfed our society With new technologies unfolding almost daily this work will help to categorize and explain our new digital world and our place in it as well as equip us with a better understanding of the digital technologies that have a massive impact on our culture

Theory for Beginners Kenneth B. Kidd, 2020-11-03 Since its inception in the 1970s the Philosophy for Children movement P4C has affirmed children's literature as important philosophical work Theory meanwhile has invested in children's classics especially Lewis Carroll's Alice books and has also developed a literature for beginners that resembles children's literature in significant ways Offering a novel take on this phenomenon Theory for Beginners explores how philosophy and theory draw on children's literature and have even come to resemble it in their strategies for cultivating the child and/or the beginner Examining everything from the rise of French Theory in the United States to the crucial pedagogies offered in children's picture books from Alison Bechdel's graphic memoir *Are You My Mother* and Lemony Snicket's *A Series of Unfortunate Events* to studies of queer childhood Kenneth B Kidd deftly reveals the way in which children may learn from philosophy and vice versa

The Aesthetics of Culture in Buffy the Vampire Slayer Matthew Pateman, 2015-03-21 On the TV screen as elsewhere there is often more than meets the eye For decades television has offered not just entertainment but observations subtle and otherwise on society This book examines the cultural commentary contained in *Buffy the Vampire Slayer* a show that ran for seven seasons 1997-2003 and 144 episodes On the surface *Buffy* is the marriage of a high school drama to gothic horror This somewhat unusual vehicle is used to present via the character of

Buffy fairly typical views of late 20th century culture teenage problems issues regarding a broken home and the search for meaning and validation In addition subtler themes such as cultural views of knowledge ethnicity and history are woven into the show s critique of popular culture Organized into two sections this volume offers an in depth examination of the show first through the lens of Buffy s confrontation with culture and second from the complex perspectives of the individual characters Issues such as values ethical choices and the implications of one s actions are discussed without ever losing sight of the limitations of a medium that will always be dominated by financial concerns The final chapter summarizes what Buffy has to say about today s society An appendix lists Buffy episodes in chronological order      *The New Century* Keith Ansell-Pearson, Alan D. Schrift, 2014-09-03 This volume covers the period between the 1890s and 1930s a period that witnessed revolutions in the arts and society which set the agenda for the rest of the century In philosophy the period saw the birth of analytic philosophy the development of new programmes and new modes of inquiry the emergence of phenomenology as a new rigorous science the birth of Freudian psychoanalysis and the maturing of the discipline of sociology This period saw the most influential work of a remarkable series of thinkers who reviewed evaluated and transformed 19th century thought A generation of thinkers among them Henri Bergson Emile Durkheim Sigmund Freud Martin Heidegger Edmund Husserl Karl Jaspers Max Scheler and Ludwig Wittgenstein completed the disenchantment of the world and sought a new re enchantment      **What's the Good of Education?** Joseph Dunne, 2025-01-23 In this book Joseph Dunne exposes the damage done by obsession with measurable outcomes in schools and universities He argues for an education that respects the interpersonal fabric of learning and teaching and that takes account of difficulties in late modern societies regarding childhood citizenship the relative prestige accorded to different kinds of knowledge and the forging by individuals of a coherent identity across a whole life course To ask about good education he claims is necessarily to pose the larger question of the human good Central to the book is a concern to elucidate the kind of practices that can best help persons to pursue this good a concern that deepens through reflection in the final chapters on the challenges and fulfilments opened by the spiritual dimension of human life Making his case in a series of inter related essays Dunne draws on his decades long experience in teacher education informed by a reading of classical Greek philosophy and of several recent thinkers including Raimond Gaita Alasdair MacIntyre Iris Murdoch and Charles Taylor who are key conversation partners throughout
