Rediscovering Values Coming To Terms With Postmodernism:

Rediscovering Values Hugh Mercer Curtler,1997 Now that we have rejected the set of values inherited from our imperialist past Curtler says we must distil from the common social world a new set that can command our approval regardless of cultural and personal tastes He mounts an attack on proponents of relativity as any cost and argues for the objectivity of values in ethics literature and art His treatment is accessible to lay readers Annotation copyrighted by Book News Inc Portland OR

Rediscovering Values Hugh Mercer Curtler,2016-06-16 The author s primary purpose in this short book is to clearly define the nature of value and restore it to a central place in discussions of ethical and aesthetic problems He begins the book with a broad cultural perspective on the issue of postmodernism in general then takes a closer look at recent attempts to reduce values to evaluation to deny their objectivity The central chapter focuses on the question What Is Value after which Curtler discusses values in the fine arts and literature concluding with the question of values in education

Kensy,2001-04-02 This book combines a theoretical study of Japan s economic structures and multinational enterprises with a post modern analysis of the contemporary multinational enterprise The author considers the appropriateness of the post modern approach for discussing economic activities in particular the New Economy and also Japanese society and culture Kensy analyses Japan s economic structure interpreting its methods strategies and results in a post modern context and presents a survey of socio economic development in Japan since the beginning of westernization He goes on to discuss Japanese models for the transformation of society in the future with particular reference to the Keiretsu

Hoppe,Bruce W. Speck,2005 This issue looks at spirituality in higher education through a number of lenses examining what many view as trend towards incorporating spirituality back into the lives of students faculty and administrators Questions about meaning and purpose are as old as humans and in the earliest days of higher education the search for truth was the ultimate journey of the student Over the decades though the academy has often shunned the spiritual aspect of a student s education Whether that is to avoid controversy or to protect from acknowledging that all is not known there is a predisposition to avoid talking about spirituality

in the academy Regardless the result is the creation of what T S Eliot called hollow men who live in this world but do not know why they are here and thus do not know how to live their lives This book is responding to a reawakening of desire to avoid such creatures The issue's purpose at least in a cursory way is to look at spirituality in academe through a number of lenses Composed of chapters from both faculty and administrators this volume offers insight into the critical need for spirituality in educating the whole student while recognizing that how spirituality is viewed and taught and experienced is intensely personal The goal is not to prescribe how spirituality should be integrated but to offer multiple options and perspectives Not only will readers learn about the complex and vital role of spirituality they will also be reminded that the quest for truth and meaning not the destination is what is vitally important in shaping discussions about spirituality This is the 104th issue of the Jossey-Bass quarterly support series New Directions for Teaching and Learning Recalling Education Hugh Mercer Curtler, 2001 In this searching and relentlessly logical critique a distinguished professor of philosophy argues that the purpose of education enabling students to achieve intellectual autonomy has been largely forgotten Hugh Mercer Curtler challenges prevailing myths about education and indoctrination explains the significance of a proper understanding of education in a democracy and offers recommendations to reverse current trends Nueva sátira en la ficción postmodernista de las Américas Rosa María Díez Cobo, 2011-11-28 Aquest estudi es proposa recuperar la s tira de la tradicional postergaci a qu s ha vist sotmesa en els ltims temps En contrast amb les tend ncies cr tiques que han proclamat la decad ncia del sat ric dins de la narrativa contempor nia es pot afirmar que la s tira ha experimentat un ressorgiment ja que s m s que mai una manera inestable h brida i alliberada d anyenques prescripcions te riques A fi de demostrar aquest plantejament aquest estudi enfoca la q esti des d una perspectiva comparatista que aborda l an lisi del rellevant paper exercit pel sat ric en narratives postmodernistes de diferents proced ncies dins del marc cultural de les Am ricas D aquesta manera s endinsa necess riament en temes referents a la complexitat de les relacions Nord i Sud en l mbit de la teoria liter ria dins de l espai americ *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association, 1998 List of members in v 1 **Postmodern Perception of Ethics in Contemporary American Science Fiction Novel** Firuze Güzel, John Barth and Postmodernism Berndt Clavier, 2007 John Barth's eminence as a postmodernist is indisputable However much of the criticism dealing with his work is prompted by his own theories of exhaustion and subsequent replenishment leaving his writing relatively untouched by theories of postmodernism in general This book changes that by focusing on the relationship between Barth's aesthetic and the ideology critique of the historical avant gardes which were the first to mobilize art against itself and its institutional practices and demands Examining Barth's metafictional parodies in the light of theories of space and subjectivity Clavier engages the question of ideology critique in postmodernism by offering the montage as a possible model for understanding Barth's fiction In such a light postmodernism may well be perceived as a mimesis of reality particularly a recognition of the collective nature of self and the world
