The Syntax of Russian John F. Bailyn, 2012 An essential guide to Russian syntax which examines major syntactic structures and grammatical puzzles of the language

Advances in formal Slavic linguistics 2016 Denisa Lenertová, Roland Meyer, Radek Šimík, Luka Szucsich, 2018 Advances in Formal Slavic Linguistics 2016 initiates a new series of collective volumes on formal Slavic linguistics It presents a selection of high quality papers authored by young and senior linguists from around the world and contains both empirically oriented work underpinned by up to date experimental methods as well as more theoretically grounded contributions The volume covers all major linguistic areas including morphosyntax semantics pragmatics phonology and their mutual interfaces The particular topics discussed include argument structure word order case agreement tense aspect clausal left periphery or segmental phonology The topical breadth and analytical depth of the contributions reflect the vitality of the field of formal Slavic linguistics and prove its relevance to the global linguistic endeavour Early versions of the papers included in this volume were presented at the

conference on Formal Description of Slavic Languages 12 or at the satellite Workshop on Formal and Experimental Semantics and Pragmatics which were held on December 7 10 2016 in Berlin Annual Workshop on Formal Approaches to Slavic Linguistics Richard Compton, Magdalena Goledzinowska, Ulyana Savchenko, 2007 Approaches to the Study of Sound Structure and Speech Magdalena Wrembel, Agnieszka Kielkiewicz-Janowiak, Piotr Gąsiorowski, 2019-10-21 This innovative work highlights interdisciplinary research on phonetics and phonology across multiple languages building on the extensive body of work of Katarzyna Dziubalska Kończyk on the study of sound structure and speech The book features concise contributions from both established and up and coming scholars who have worked with Katarzyna Dziubalska Kończyk across a range of disciplinary fields toward broadening the scope of how sound structure and speech are studied and how phonological and phonetic research is conducted Contributions bridge the gap between such fields as phonological theory acoustic and articulatory phonetics and morphology but also includes perspectives from such areas as historical linguistics which demonstrate the relevance of other linguistic areas of inquiry to empirical investigations in sound structure and speech The volume also showcases the rich variety of methodologies employed in existing research including corpus based diachronic experimental acoustic and online approaches and showcases them at work drawing from data from languages beyond the Anglocentric focus in existing research The collection reflects on Katarzyna Dziubalska Kończyk's pioneering contributions to widening the study of sound structure and speech and reinforces the value of interdisciplinary perspectives in taking the field further making this key reading for students and scholars in phonetics phonology sociolinguistics psycholinguistics and speech and language processing **The Mathematical Mind of F. M. Dostoevsky** Michael Marsh-Soloway, 2024-11-19 The Mathematical Mind of F M Dostoevsky Imaginary Numbers Non Euclidean Geometry and Infinity reconstructs the curriculum and readings that F M Dostoevsky encountered during his studies and connects such sources to the mathematical references and themes in his published works Prior to becoming a man of letters Dostoevsky studied at the Main Engineering School in St Petersburg from 1838 to 1843 After he was arrested submitted to mock execution by firing squad and sentenced to penal servitude in Siberia for his involvement in the revolutionary Petrashevsky Circle in 1849 most of his books and journals from the period of his education were confiscated and destroyed by the Third Section of the Russian Secret Police Although most scholars discount the legacy of his engineering studies the literary aesthetics of his works communicate an acute awareness of mathematical principles and debates This book unearths subtexts in works by Dostoevsky communicating veins of mathematical thought that evolved throughout Classical Antiquity the Renaissance and the Scientific Revolution **Grammatical Profiles** Martin J. Ball, Paul Fletcher, David Crystal, 2019-07-15 This book brings together 12 previously unpublished language profiles based on the original Language Assessment Remediation and Screening Procedure LARSP The languages featured are Bangla Croatian Colombian Spanish Inuktitut Norwegian Portuguese Russian Slovak Slovenian Swahili Tamil and Turkish Some of these languages are included as they

are likely to be encountered as home languages of clients by speech language therapists and pathologists working in the UK the US Australia and elsewhere Others are included because they are languages found where speech language pathology services are provided but where no grammatical profile already exists The collection will be an invaluable resource book for speech language pathologists who wish to analyse and assess the grammatical abilities of their clients who speak one of these languages This new collection complements previous books in this series on the same theme and together they cover 34 languages of the world

Explorations in Nominal Inflection Gereon Müller, Lutz Gunkel, Gisela Zifonun, 2008-08-22 Explorations in Nominal Inflection is a collection of new articles that focus on nominal inflection markers in different languages The studies are concerned with the morphological inventories of markers their syntactic distribution and importantly the interaction between the two As a result the contributions shed new light on the morphology syntax interface and on the role of morpho syntactic features in mediating between the two components Issues that feature prominently throughout are inflection class case gender number animacy syncretism iconicity agreement the status of paradigms the nature of morpho syntactic features and the structure of nominal projections Recurrent analytical tools involve the concepts of competition optimality specificity underspecification and economy in various theoretical frameworks James P Blevins Inflection Classes and Economy Bernd Wiese Categories and Paradigms On Underspecification in Russian Declension

Learning to Read across Languages and Writing Systems Ludo Verhoeven, Charles Perfetti, 2017-10-12 Around the world children embark on learning to read in their home language or writing system But does their specific language and how it is written make a difference to how they learn How is learning to read English similar to or different from learning in other languages Is reading alphabetic writing a different challenge from reading syllabic or logographic writing Learning to Read across Languages and Writing Systems examines these questions across seventeen languages representing the world's different major writing systems Each chapter highlights the key features of a specific language exploring research on learning to read spell and comprehend it and on implications for education The editors introduction describes the global spread of reading and provides a theoretical framework including operating principles for learning to read The editors final chapter draws conclusions about cross linguistic universal trends and the challenges posed by specific languages and writing systems

Quantitative Approaches to the Russian Language Mikhail Kopotev, Olga Lyashevskaya, Arto Mustajoki, 2017-09-08 This edited collection presents a range of methods that can be used to analyse linguistic data quantitatively A series of case studies of Russian data spanning different aspects of modern linguistics serve as the basis for a discussion of methodological and theoretical issues in linguistic data analysis The book presents current trends in quantitative linguistics evaluates methods and presents the advantages and disadvantages of each The chapters contain introductions to the methods and relevant references for further reading This will be of interest to graduate students and researchers in the area of quantitative and Slavic linguistics

Major Trends in Theoretical and Applied Linguistics 2

Nikolaos Lavidas, Thomaï Alexiou, Areti Maria Sougari, 2014-01-31 In the three volumes of *Major Trends in Theoretical and Applied Linguistics* the editors guide the reader through a well selected compendium of works presenting a fresh look at contemporary linguistics Aimed at specialists or anyone interested in languages this publication deals with both theoretical issues and applied linguistics looking closely at discourse analysis gender and lexicography language acquisition and language disorders

Content-Based Foreign Language Teaching Laurent Cammarata, 2016-02-26 Pushing the field forward in critically important ways this book offers clear curricular directions and pedagogical guidelines to transform foreign language classrooms into environments where stimulating intellectual curiosity and tapping critical thinking abilities are as important as developing students linguistic repertoires The case is made for content based instruction an approach to making FL classrooms sites where intellectually stimulating explorations are the norm rather than the exception The book explicitly describes in detail how teachers could and should use content based instruction explains how integration of content and language aims can be accomplished within a program identifies essential strategies to support this curricular and pedagogical approach discusses issues of assessment within this context and more Content Based Foreign Language Teaching provides theoretical perspectives and empirical evidence for reforming curricula and instruction describes models and curriculum planning strategies that support implementation of well balanced FL programs explores the transformative potential of critical pedagogy in the FL classroom and offers illustrations of secondary and post secondary language programs that have experimented with alternative approaches Advancing alternatives to conventional curriculum design this volume posits meaning oriented approaches as necessary to create language programs that make a great difference in the overall educational lives of learners

Language Formation by Adults Zygmunt Frajzyngier, Natalia Gurian, Sergei Karpenko, 2021-09-13 Chinese immigrants who settle in Russia's Far East without formal instruction in the Russian language communicate with local Russians using Russian vocabulary Each immigrant forms their language to communicate with Russians not with family or other immigrants The single generation languages that immigrants form are not replications or simplifications of Chinese or Russian Grammatical systems formed by these speakers challenge some fundamental assumptions in early 21st century linguistic theories Grammatical systems of single generation languages provide a unique window into how complex grammatical systems emerge what are the first formal means of expression and what are the first meanings expressed in grammatical systems Given massive migrations in the contemporary world single generation languages are common yet understudied products of language contact

Topics in the History of Russian Ian Press, 2008

The World's Major Languages Bernard Comrie, 2018-04-17 The World's Major Languages features over 50 of the world's languages and language families This revised edition includes updated bibliographies for each chapter and up to date census figures The featured languages have been chosen based on the number of speakers their role as official languages and their cultural and historical importance Each language is looked at in depth and the chapters provide information on both

grammatical features and on salient features of the language's history and cultural role *The World's Major Languages* is an accessible and essential reference work for linguists *The Phonetics and Phonology of Geminate Consonants* Haruo Kubozono, 2017 This book is the first volume specifically devoted to the phonetic manifestation and phonological nature of geminate or long consonants a feature of many of the world's languages including Arabic Bengali Finnish Hungarian Italian Japanese Malayalam Persian Saami Swiss German and Turkish ***Second Language Acquisition of Turkish*** Ayşe Gürel, 2016-05-25 This book brings together the findings of current studies on the second language L2 acquisition of Turkish an Altaic language with more than 140 million native speakers around the world There is now a growing interest in learning and teaching Turkish as an L2 both in and outside Turkey Coordinated efforts to produce theoretical and empirical work on the acquisition and teaching of L2 Turkish are therefore an urgent need The compilation in this volume offers eleven L2 studies that explore the representation and or processing of various linguistic properties in different domains of grammar phonology morpho syntax pragmatics and their interfaces All studies involve adult L2 Turkish learners with various first language backgrounds at different proficiency levels With extensive discussions on theoretical and pedagogical issues this title will appeal to an international readership that includes L2 Turkish researchers materials designers and teachers
