Modern Concepts of Security James Ohwofasa Akpeninor, 2013-02-04 I have been associated with the security operations at various levels of jurisdictions from the National security policing covert operations to the Industrial Commercial security setup to Corporations proprietary security practice and supervision over the past three decades In this stretch I have come to be conscious of the vital necessity for comprehensive documentation of security and safety archetypes for the study of this unique profession in which reference materials for developing core and universal curricula for training or self improvement of security operatives are hard to come by Mainly because most law enforcement agents or persons charged with security managements Law enforcement officers Security Directors Fire Safety Directors the police and even Contract Security firms have hardly come to terms with the professional demands of this specialized professional calling which has assumed the centre stage of global reckoning of the present day With these concerns I have designed this book to be a working companion to personnel and agencies in the security professional vocation along with students of peace and conflicts studies criminology and security studies the Armed forces personnel and other National Security Agents DSS DIA NIA NAFDAC NDLEA etc the Para military Police ICPC EFCC Customs Excise and

Immigrations departments FRSC NCDC NEMA and a host of others In essence modern security outlook incorporates the Human Security schools of thought which is all about the practice of holistic and global security that is a shift from the traditional conception of National Security a state centred approach to focus on the wellbeing of individuals which is yet to be cultivated in the African continent resulting in enduring problems of disease poverty security adversities violence and insurgences human rights abuses and civil strives The reference volumes afford abundant valuable materials on modern concepts of security meant to offer sound basic knowledge for security practitioners contract security firms as well as for individual reading to boost security consciousness of the entire public which can be adapted modified rejected or used for the reader s own purposes I therefore entrust this book to the kind consideration of security practitioners and managers in general especially the certified national and international security and law enforcement professionals I hope that the contents will be of material benefit to the entire security community because it is only when knowledge is applied specifically to the needs of a particular skill that it becomes of true value Therein lays the reader s part

Russian Views on Countering Terrorism During Eight Years of Dialogue Russian Academy of Sciences,National Research Council,Policy and Global Affairs,Development, Security, and Cooperation,Office for Central Europe and Eurasia,2009-06-28 Few countries have endured as many attacks of terrorism during the past two decades as has Russia From bombings on the streets of a number of cities to the disruption of pipelines in Dagestan to the taking of hundreds of hostages at a cultural center in Moscow and at a school in Beslan the Russian government has responded to many political and technical challenges to protect the population The measures that have been undertaken to reduce vulnerabilities to terrorist attacks and to mitigate the consequences of attacks have been of widespread interest in many other countries as well In June 1999 the Presidents of the National Academy of Sciences and the Russian Academy of Sciences initiated an inter academy program to jointly address common interests in the field of counter terrorism Four workshops were held from 2001 to 2007 and additional consultations were undertaken prior to and after the series of workshops This report includes 35 of the Russian presentations during the workshop series Collectively they provide a broad overview of activities that have been supported by Russian institutions

Prof. Jun Yeh, Tallinn University of Technology, Estonia,2014-07-07 amount of new knowledge every day We have to acknowledge that even the smartest people among us are incapable of familiarizing himself with all these new data Fortunately we are only required to deal with a very small amount of that vast number in our work and life As those who devote himself to the field of information technology and management engineering I sincerely believe that it is our responsibility to make efforts to accelerate the advance of science in such fields The 2014 international Conference on Information Technology and Management Engineering thanks to the hard work of its committee will be held on April 26 and 27 in Hong Kong The ITME2014 covers a wide range of topics such as network protocols information theory and coding theory network security management theory project management public management knowledge management etc It is a

great honor to us that numerous people from various countries including many famous experts and excellent researchers have shown their interest in this convention and submitted their latest studies to us as their support. Among these studies we have selected about a hundred to be finally included in this proceeding after reviewing and discussing. We believe that this collection of work will be of great value not only to the participants of ITME2014 but also to those who have a chance of meeting it. The publication of this conference proceedings and the successful opening of ITME2014 owe its credit to a lot of people and institutions especially the ITME2014 committee, the editors and DEStech Publications. The committee has devoted much time to reviewing the papers submitted to ITME2014 and DEStech Publications publishing those accepted papers. I would like to thank the committee and the press deeply here for their support to ITME2014 and I am eagerly looking forward to another chance for us to be a team again. Finally let's wish together that the 2014 International Conference on Information Technology

Unifying Themes in Complex Systems Ali A. Minai, Dan Braha, Yaneer Bar-Yam, 2010-06-02 In recent years scientists have applied the principles of complex systems science to increasingly diverse fields. The results have been nothing short of remarkable; their novel approaches have provided answers to long-standing questions in biology, ecology, physics, engineering, computer science, economics, psychology, and sociology. *Unifying Themes in Complex Systems* is a well-established series of carefully edited conference proceedings that serve the purpose of documenting and archiving the progress of cross-fertilization in this field. About NECSI For over 10 years The New England Complex Systems Institute (NECSI) has been instrumental in the development of complex systems science and its applications. NECSI conducts research, education, knowledge dissemination, and community development around the world for the promotion of the study of complex systems and its application for the betterment of society. NECSI hosts the International Conference on Complex Systems and publishes the NECSI Book Series in conjunction with Springer Publishers.

Research on the Rule of Law of China's Cybersecurity Daoli Huang, 2022-01-22 This book provides a comprehensive and systematic review of China's rule of law on cybersecurity over the past 40 years from which readers can have a comprehensive view of the development of China's cybersecurity legislation, supervision, and justice in the long course of 40 years. In particular, this book combines the development node of China's reform and opening up with the construction of the rule of law for cybersecurity, greatly expanding the vision of tracing the origin and pursuing the source, and also making the study of the rule of law for China's cybersecurity closer to the development facts of the technological approach.

Security And Protection In Information Processing Systems: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read :

Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph.

Security And Protection In Information Processing Systems : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

Security And Protection In Information Processing Systems : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
