National Incident Management System Donald W. Walsh, 2005. In March 2004 the U.S. Department of Homeland Security implemented the National Incident Management System (NIMS), the country's first ever standardized approach to incident management and response. Response agencies nationwide will need to become NIMS compliant in 2005. *National Incident Management System Principles and Practice* translates the goals of the original NIMS document from concepts into capabilities and provides responders with a step by step process to understanding and implementing NIMS. Through the use of case studies readers will gain valuable insight on how to incorporate NIMS effectively into their departments or jurisdictions. As responders are faced with the tasks of reforming training curricula and incorporating NIMS into Standard Operating Procedures it is essential that they have a practical resource to guide them through the nation's homeland security strategies as well as to assist them with NIMS implementation in their own locality. *Annual Report to Congress on Initiatives Funded by the Bureau of Justice Assistance*.
