See No Evil Dariusz Tolczyk, 1999-01-01 This volume examines official Soviet concentration camp literature from the early 1920s through the mid 1960s It probes the evolution of this literature the totalitarian thinking that inspired it and the scandalous role played by Russian literary intellectuals who created it **See No Evil** Dariusz Tolczyk, 1999 **See No Evil** Dariusz Tolczyk, 1994 **Blissful Blindness** Dariusz Tolczyk, 2023-09-05 The most heinous Soviet crimes the Red Terror brutal collectivization the Great Famine the Gulag Stalin's Great Terror mass deportations and other atrocities were treated in the West as a controversial topic With the Cold War dichotomy of Western democracy versus Soviet communism deeply imprinted in our minds we are not always aware that these crimes were very often questioned dismissed denied sometimes rationalized and even outright glorified in the Western world Facing a choice of whom to believe the survivors or Soviet propaganda many Western opinion leaders chose in favor of Soviet propaganda Even those who did not believe it behaved sometimes as if they did Blissful Blindness explores Western reactions and lack thereof to Soviet crimes from the Bolshevik revolution to the collapse of Soviet communism in order to understand ideological political economic cultural personal and other motivations behind this puzzling phenomenon of willful ignorance But the significance of Dariusz Tolczyk's book reaches beyond its direct historical focus Written for audiences not limited to scholars and specialists this book not only opens one's eyes to rarely examined aspects of the twentieth century but also helps one see how astonishingly relevant this topic is in our contemporary world **The Lockhart Plot** Jonathan Schneer, 2020 This is the extraordinary story of the British plot in the summer of 1918 to overthrow the Bolshevik government in Russia murder the Bolshevik leaders and install a new government in Moscow that would re-open the war against the Germans on the Eastern Front **Critical Theory in Russia and the West** Alastair Renfrew, Galin Tihanov, 2009-12-04 This book with contributions from some of the best known and most visible specialists in the field re-examines the significant transfers cross fertilisations and synergies of cultural and literary theory between Russia and the West from the 1920s through to the present day **The Collapse of Communism** Lee Edwards, 1999-11-01 Ten years after the fall of the Berlin Wall and eight years after the dissolution of the Soviet Union experts continue to debate one of the most important political questions of the twentieth century why did Communism collapse so suddenly A comprehensive and often unexpected answer is provided in this unique volume of essays by the world's leading authorities on Communism Presidential adviser Zbigniew Brzezinski discusses the critical role of policymakers like Ronald Reagan Mikhail Gorbachev and John Paul II in the demise of Communism Richard Pipes and Martin Malia debate the importance of history and ideology Robert Conquest analyzes the deleterious impact of the Stalin years and Michael Novak delineates the missing element of faith in Communism Andrzej Brzeski exposes the fatal flaws of Communist economics Brian Crozier discusses why there was a cold war Paul Hollander concludes with a consideration of who in the academy was right and wrong about Communism These insightful essays suggest that a wide range of forces political economic strategic and

religious along with the indispensable role of the principled statesman and the brave dissident brought about the collapse of Communism

Gulag Literature and the Literature of Nazi Camps Leona Toker, 2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps shedding new light on testimony in the face of evil In this illuminating study Leona Toker demonstrates how Holocaust literature and Gulag literature provide contexts for each other especially how the prominent features of one shed light on the veiled features and methods of the other Toker's analysis concentrates on the narrative qualities of the works as well as how each text documents the writer's experience in a form where fictionalized narrative can double as historical testimony Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression Writers at the center of this work include Varlam Shalamov Primo Levi Elie Wiesel and Ka Tzetnik and others including Aleksandr Solzhenitsyn Evgeniya Ginzburg and Jorge Sempr n illuminate the discussion Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text

Discontents Paul Hollander, 2018-01-18 What ails people at the present time in Western and especially American society is an inexhaustible subject Discussion of these discontents in the United States in the last decade of the twentieth century leads to an obvious question How much and what kind of discontents are possible in a society that has experienced over a decade of economic growth close to full employment hardly any inflation falling crime rates declining teenage pregnancies and other good things Is there anything to worry about in a country that has become the undisputed superpower of the world and no longer faces another hostile superpower such as the Soviet Union used to be Paul Hollander wrestles with these and other questions in seeking to understand conditions and developments within American culture and society in the context of their relationship to political systems movements and ideas critical of the United States and Western values Hollander examines disparate phenomena such as the O J Simpson case the banning of West Side Story in Amherst Massachusetts the popularity and exposé of Rigoberta Menchu and the appeal of sports utility vehicles which shed light on the major themes of the volume Topics include conflicts among American intellectuals including disputes over the Kosovo intervention the impact of postmodernism on higher education the persisting appeal of victimhood in American society the flaws of American sociology academic specialists failure to anticipate the collapse of the Soviet Union and the new anti Americanism in postcommunist societies Among topics of historical interest are a survey of Western judgments and misjudgments of the communist systems examination of the relative neglect of political violence in communist states and analysis of officially enforced secular religious cult of communist rulers Many of these writings are linked to the author's longstanding interest in why people accept or reject particular political systems and in the contradictory human needs and desires which condition and limit the pursuit of social and political ends Sociologists political scientists and the general reader will find this book of great interest

Aleksandr Solzhenitsyn Daniel J. Mahoney, 2001-08-07 In Aleksandr Solzhenitsyn Daniel Mahoney presents a philosophical perspective on the political

condition of modern man through an exegesis and analysis of Solzhenitsyn's work Mahoney demonstrates the tremendous yet often unappreciated impact of Solzhenitsyn's writing on twentieth century thinking through an examination of the writer's profoundly important critique of communist totalitarianism in a judicious and original mix of western and Russian Christian and classical wisdom *Solzhenitsyn* Lee Congdon, 2021-08-15 In this examination of Solzhenitsyn and his work Lee Congdon explores the consequences of the atheistic socialism that drove the Russian revolutionary movement Beginning with a description of the post revolutionary Russia into which Solzhenitsyn was born Congdon addresses the Bolshevik victory in the civil war the origins of the concentration camp system the Bolsheviks war on Christianity and the Russian Orthodox Church Solzhenitsyn's arrest near the war's end his time in the labor camps his struggle with cancer his exile and increasing alienation from the Western way of life and his return home He concludes with a reminder of Solzhenitsyn's warning to the West that it was on a path parallel to that which Russia had followed into the abyss Witnessing the Witness of War

Crimes, Mass Murder, and Genocide Manuela Consonni, Philip Galland Nord, 2023-07-24 Rethinking the concepts of witnessing and witness is highly relevant to the study of war crimes mass murder and genocide Through multiple readings the volume shows the meanings and functions of witnessing in a political and historical context marked by the emergence of multiculturalism The ultimate goal is the exploration of divergent and intersectional positions of the witness and witnessing as both concrete and hermeneutical categories As a result the mechanisms of social political and psychological oppression murder and genocide will become tangible and understandable with greater precision and finesse **Alexander**

Meanings and Values of Water in Russian Culture Jane Costlow, Arja Rosenholm, 2016-11-25 Bringing together a team of scholars from the diverse fields of geography literary studies and history this is the first volume to study water as a cultural phenomenon within the Russian Soviet context Water in this context is both a cognitive and cultural construct and a geographical and physical phenomenon representing particular rivers the Volga the Chusovaia in the Urals the Neva and bodies of water from Baikal to sacred springs and the flowing water of nineteenth century estates but also powerful systems of meaning from traditional cultures and those forged in the radical restructuring undertaken in the 1930s Individual

chapters explore the polyvalence and contestation of meanings dimensions and values given to water in various times and spaces in Russian history The reservoir of symbolic association is tapped by poets and film makers but also by policy makers the popular press and advertisers seeking to incite reaction or drive sales The volume s emphasis on the cultural dimensions of water will link material that is often widely disparate in time and space it will also serve as the methodological framework for the analysis undertaken both within chapters and in the editors introduction

Photographic Literacy Katherine M. H. Reischl, 2018-12-15 Photography introduced to Russia in 1839 was nothing short of a sensation Its rapid proliferation challenged the other arts including painting and literature as well as the very integrity of the self If Leo Tolstoy and Fyodor Dostoevsky greeted the camera with skepticism in the nineteenth century numerous twentieth century authors welcomed it with a warm embrace As Katherine M H Reischl shows in *Photographic Literacy* authors as varied as Leonid Andreev Ilya Ehrenburg and Alexander Solzhenitsyn picked up the camera and reshaped not only their writing practices but also the sphere of literacy itself For these authors a single photograph or a photograph as illustration is never an endpoint their authorial practices continually transform and animate the frozen moment But just as authors used images to shape the reception of their work and selves Russian photographers including Sergei Prokudin Gorsky and Alexander Rodchenko used text to shape the reception of their visual work From the diary to the literary word imbues that photographic moment with a personal life story and frames and reframes it in the writing of history In this primer on photographic literacy Reischl argues for the central place that photography has played in the formation of the Russian literary imagination over the course of roughly seventy years From image to text and back again she traces the visual consciousness of modern Russian literature as captured through the lens of the Russian author photographer

Blissful Blindness Dariusz Tolczyk, 2023-09-05 The most heinous Soviet crimes the Red Terror brutal collectivization the Great Famine the Gulag Stalin s Great Terror mass deportations and other atrocities were treated in the West as a controversial topic With the Cold War dichotomy of Western democracy versus Soviet communism deeply imprinted in our minds we are not always aware that these crimes were very often questioned dismissed denied sometimes rationalized and even outright glorified in the Western world Facing a choice of whom to believe the survivors or Soviet propaganda many Western opinion leaders chose in favor of Soviet propaganda Even those who did not believe it behaved sometimes as if they did *Blissful Blindness* explores Western reactions and lack thereof to Soviet crimes from the Bolshevik revolution to the collapse of Soviet communism in order to understand ideological political economic cultural personal and other motivations behind this puzzling phenomenon of willful ignorance But the significance of Dariusz Tolczyk s book reaches beyond its direct historical focus Written for audiences not limited to scholars and specialists this book not only opens one s eyes to rarely examined aspects of the twentieth century but also helps one see how astonishingly relevant this topic is in our contemporary world

Poland's Transformation Bjorn Kurten, 2017-07-12 Poland has carried out two peaceful revolutions in the span of one generation first the self limiting

movement of Solidarity which undermined the legitimacy of Communism and then a negotiated transfer of power from Communism to free market democracy Today while Poland is seen as a success story and is joining political and economic associations in the democratic West Poles themselves seem downcast They ask is social anomie a price worth paying for a successful transformation In making moral compromises with an outgoing tyranny can one avoid cynicism and disappointment with democracy Zbigniew Brzezinski professor of American Foreign Policy at Johns Hopkins University has called Polish Transformation a work that provides a comprehensive as well as incisive overview of the extraordinary difficult and historically unprecedented process of transforming an increasingly corrupt and decayed totalitarian system into a modern democracy John Lenczowski director of the Institute of World Politics adds that this extremely useful volume explains the essential elements of the post communist political transition in Poland Its authors convey the cultural and ideological underpinnings that can be captured only by authorities who have developed over a lifetime that special sixth sense for detecting the elusive and unquantifiable soul of a country Radek Sikorski the executive director of the New Atlantic Initiative at the American Enterprise Institute writes that we should be grateful to the authors and editors of this thoughtful volume for asking questions which remain relevant for that uncomfortably large part of humanity that still lives under totalitarian or authoritarian regimes

The Elephant in the Room Eviatar Zerubavel, 2006-04 Citing the fable of the Emperor's New Clothes as a classic example of a situation where everyone refuses to acknowledge an obvious truth Zerubavel sheds new light on the social and political underpinnings of silence and denial the keeping of open secrets

Wingless Desire in Modernist Russia Yelena Zotova, 2020-12-10 In Wingless Desire in Modernist Russia Yelena Zotova argues that the concept of envy underwent a peculiar transformation in the Russian Modernist prose of the 1920s due to a series of radical shifts in societal values with each subsequent change thwarting Russia's volatile axiological hierarchy Industriousness and austerity inferior to playful genius in Pushkin's Mozart and Salieri became virtues while the intrinsic value of nonutilitarian art was officially nullified by the Bolshevik state Consequently a new literary type emerged and envy described as wingless desire by Russia's chief poet Alexander Pushkin obtained new ownership as the envied became the envier Superimposing twentieth century theories of envy onto Mikhail Bakhtin's Author and Hero in the Aesthetic Activity 1923 Zotova proposes that Salieri's envy could be the wingless embryo of the Bakhtinian authorship
