Segmented Work Divided Workers The Historical Transformation Of Labor In The United States

Frank Trommler, Joseph McVeigh

Segmented Work Divided Workers The Historical Transformation Of Labor In The United States:

Segmented Work, Divided Workers David M. Gordon, Richard Edwards, Michael Reich, 1982-05-31 *Segmented Work Divided Workers* presents a restatement and expansion of the theory of labor segmentation by three of its founding scholars. The authors argue that divisions with the US working class are rooted in a segmentation of jobs since World War II. They explain the origins of job segmentation through a careful and systematic historical analysis of changes in the labor process and the structure of labor markets since the early 1800s; this analysis builds in turn upon hypotheses about successive stages in the history of capitalist development. *Segmented Work Divided Workers* integrates this economics analysis with a careful historical appreciation of the complexity of working class experience in the United States.

Crossed Wires Dan Schiller, 2023 In *Crossed Wires* Dan Schiller, who has conducted archival research on US telecommunications for more than forty years, recovers the extraordinary social history of the major network systems of the United States from the nineteenth to the twenty-first centuries. Drawing on arrays of archival documents and secondary sources, Schiller reveals that this history has been shaped by sharp social and political conflict and is embedded in the larger history of an expansionary US political economy. This authoritative and comprehensive revisionist history of telecommunications argues that business, economic, and regulatory concerns influenced the evolution of this industry far more than the technology.

America and the Germans, Volume 1 Frank Trommler, Joseph McVeigh, 2016-11-11 Unprecedented in scope and critical perspective, *America and the Germans* presents an analysis of the history of the Germans in America and of the turbulent relations between Germany and the United States. The two volumes bring together research in such diverse fields as ethnic studies, political science, linguistics, and literature, as well as American and German history. Contributors are leading American and German scholars such as Kathleen Neils Conzen, Joshua A. Fishman, Peter Gay, Harold Jantz, Gnter Moltmann, Steven Muller, Theo Sommer, Fritz Stern, Herbert A. Strauss, Gerhard L. Weinberg, and Don Yoder. These scholars assess the ethnicity and acculturation of German Americans from the seventeenth century to the twentieth, the state of German language and culture in the United States, World War I as a turning point in relations between Germany and America, the political, economic, and cultural relations before and after World War II, and the midcentury state of affairs between the two countries. Special chapters are devoted to the Pennsylvania Germans, Jewish German immigration after 1933, Americanism in Germany, and a critical appraisal of current research. *America and the Germans* presents a fascinating introduction to the subject as well as new perspectives for a more critical and comprehensive study of its many facets. It can be used as a reader in the fields of German studies, American studies, political science, European and German history, American history, ethnic studies, and German and American literature. Although each of the 49 contributions reflects the state of current scholarship, they are formulated with the uninitiated reader in mind.

US Capitalist Development Since 1776 Douglas Dowd, 2016-09-16 First Published in 1994. This comprehensive work views US history through the analytical framework of the capitalist process. The highlights of the book

are it weaves together economic history with the history of economic ideas to give a new perspective on the contemporary connections between the economic and social processes provides an analytical and historical explanation of capitalism as a socioeconomic system discusses the past and present functioning of the business system as a system of power with emphasis on the 1970s 1980s and the stagnation of the 1990s analyses the relationship between structures of income wealth and power and class color and gender and critically looks at the development and nature of the capitalist state Love and Marriage Across Social Classes in American Cinema Stephen Sharot,2016-11-18 This book is the first comprehensive and systematic study of cross class romance films throughout the history of American cinema It provides vivid discussions of these romantic films analyses their normative patterns and thematic concerns traces how they were shaped by inequalities of gender and class in American society and explains why they were especially popular from World War I through the roaring twenties and the Great Depression In the vast majority of cross class romance films the female is poor or from the working class the male is wealthy or from the upper class and the romance ends successfully in marriage or the promise of marriage

The Limits of Labour David Bright,2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary s reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s **Social Economics** John Eatwell,Murray Milgate,Peter Newman,1989-03-01 This is an excerpt from the 4 volume dictionary of economics a reference book which aims to define the subject of economics today 1300 subject entries in the complete work cover the broad themes of economic theory This extract concentrates on social economics **Employment Relations in the United States** Raymond L Hogler,2004 This book presents an overview of the economic political and social forces that shaped contemporary employment relations practices in the United States Proletarians of the North Zaragosa Vargas,1999-03-02 Between the end of World War I and the Great Depression over 58 000 Mexicans journeyed to the Midwest in search of employment Many found work in agriculture but thousands more joined the growing ranks of the industrial proletariat Relating the experiences of Mexicans in

the workplace and neighborhood and showing the roles of Mexican women the Catholic Church and labor unions Vargas enriches our knowledge of immigrant urban life Publisher's description

Self-management and the Crisis of Socialism Michael Wayne Howard, 2000 While some conclude from the revolutions of 1989 that socialism is dead interest in socialism continues because of persisting problems of contemporary capitalism In this exciting text Michael W Howard offers critiques of liberal communitarian postmodern and some Marxist perspectives in order to develop a left liberal defense of a model of self managed market socialism that includes a basic income for all Specific applications of his view include analyses of its implications for the global marketplace the changing nature of workplaces and media restructuring and ownership This work is sure to be of interest to social scientists public policy makers and economists as well as to feminists ecologists and others concerned with how market socialism is relevant to their social issues

Handbook of Sociology of Aging Richard A. Settersten, Jr., Jacqueline L. Angel, 2011-05-11 The Handbook of Sociology of Aging is the most comprehensive engaging and up to date treatment of developments within the field over the past 30 years The volume represents an indispensable source of the freshest and highest standard scholarship for scholars policy makers and aging professionals alike The Handbook of Sociology of Aging contains 45 far reaching chapters authored by nearly 80 of the most renowned experts on the most pressing topics related to aging today With its recurring attention to the social forces that shape human aging and the social consequences and policy implications of it the contents will be of interest to everyone who cares about what aging means for individuals families and societies The chapters of the Handbook of Sociology of Aging illustrate the field's extraordinary breadth and depth which has never before been represented in a single volume Its contributions address topics that range from foundational matters such as classic and contemporary theories and methods to topics of longstanding and emergent interest such as social diversity and inequalities social relationships social institutions economies and governments social vulnerabilities public health and care arrangements The volume closes with a set of personal essays by senior scholars who share their experiences and hopes for the field and an essay by the editors that provides a roadmap for the decade ahead The Handbook of Sociology of Aging showcases the very best that sociology has to offer the study of human aging

Theories Of Comparative Political Economy Ronald H Chilcote, 2018-02-05 Professor Chilcote has written an extraordinary comprehensive comparison of mainstream liberal views and alternative radical views of history development class government and democracy This book will be extremely valuable to both students and scholars Howard Sherman University of California Riverside Theories of Comparative Political Economy builds on the proposition that the study of politics and economics has evolved into political economy in a number of significant ways and that the new issues and ideas that became prominent in the 1980s and 1990s will carry on into the new millennium This book is a sequel to Chilcote's Theories of Comparative Politics Westview 1981 which was substantially revised and published in a second edition in 1994

US Economic History Since 1945 Michael French, 1997 Since 1945 the US economy has evolved from an expanding consumer society in which affluence

was more widely distributed than ever before Mike French's volume examines the principal economic developments and social changes in the US since 1945 including those in business regional dynamics protest movements and population distribution Social movements based on the civil rights demands of African Americans ethnic minorities and women are also examined The elements of continuity to pre 1945 trends and the points of departure notably in the post 1970 period are discussed to provide a more complete examination than previously available *The Great Exception* Jefferson

Cowie,2017-04-18 How the New Deal was a unique historical moment and what this reveals about U S politics economics and culture Where does the New Deal fit in the big picture of American history What does it mean for us today What happened to the economic equality it once engendered In *The Great Exception* Jefferson Cowie provides new answers to these important questions In the period between the Great Depression and the 1970s he argues the United States government achieved a unique level of equality using its considerable resources on behalf of working Americans in ways that it had not before and has not since If there is to be a comparable battle for collective economic rights today Cowie argues it needs to build on an understanding of the unique political foundation for the New Deal Anyone who wants to come to terms with the politics of inequality in the United States will need to read *The Great Exception* *Origins of the Federal Reserve System* James

Livingston,2018-08-06 The rise of corporate capitalism during the late 19th and early 20th centuries has long been a source of lively debate among historians In *Origins of the Federal Reserve System* James Livingston approaches this controversial topic from a fresh perspective asking how during this era a new order of corporation men made itself the preeminent source of knowledge on all significant economic issues and thereby changed the character of public and political discourse in the United States The book seeks to uncover the roots of the Federal Reserve System and to explain the awakening and articulation of class consciousness among America's urban elite two phenomena that its author sees as inseparable According to Livingston the movement for banking and monetary reform that led to the creation of the Federal Reserve System played an important role in the general transition from entrepreneurial to corporate capitalism it was during this struggle for reform that a group of business leaders first emerged as a new corporate social class This interdisciplinary account of the social cultural and intellectual *Origins of the Federal Reserve System* offers both a discussion of the sources of modern public policy and a persuasive study of upper class formation in the United States The book will interest a wide audience of historians economists political scientists sociologists and others who wish to understand the rise of America's corporate elite the class that has played a large if not dominant role in 20th century America *Foundation of the Force*

Mark R. Grandstaff,1997 A study of how Air Force enlisted personnel helped shape the future Air Force and foster professionalism among noncommissioned officers in the 1950s **Class in America** Robert E. Weir,2007-06-30 In the United States social class ranks with gender race and ethnicity in determining the values activities political behavior and life chances of individuals Most scholars agree on the importance of class although they often disagree on what it is and how it

impacts Americans This A Z encyclopedia the first to focus on class in the United States surveys the breadth of class strata throughout our history for high school students to the general public Class is illuminated in 525 essay entries on significant people terms theories programs institutions eras ethnic groups places and much more This useful set is an authoritative fascinating source for in demand information on key aspects of our culture and society and helps researchers to narrow down a broad topic Class is revealed from angles that often intersect through history with entries such as Founding Fathers the Industrial Revolution Westward Expansion through economics with entries such as Dot com Bubble Robber Barons Chicago School of Economics Lottery Wage Slaves Economic Equal Opportunity Act Stock Market Inheritance Taxes Wal Mart Welfare through social indicators such as Conspicuous Consumption the Hamptons WASP Homelessness Social Climbing through politics with entries such as Anarchism Braceros Heritage Foundation Communist Party Kennedy Family and through culture through entries such as Country Music The Great Gatsby Television and Studs Terkel Class is also approached from ethnic sexual religious educational and regional angles Special features include an introduction timeline suggested reading per entry cross references reader s guide to topics and thorough index Sample entries Immigration Education Labor Movement Pink Collar Workers AFL CIO Strikes Great Depression Jacob Riis Literature the Rockefellers Slavery Music Academia Family Suburbia McMansions Taxation Segregation Racism Ivy League Robber Barons Philanthropists Socialites Religion Welfare the American Dream Dot com Millionaires Equal Opportunity Founding Fathers Wage Slaves Industrial Revolution Capitalism Economics Appalachia Horse Racing Gender Communist Party Country Clubs Religion American Indians Conspicuous Consumption Studs Terkel Film Class Consciousness Work Ethic Media Television Puritans Homelessness Status Symbols Assimilation Melting Pot Art Westward Expansion Poverty The Great Gatsby Stock Market Working Poor Gated Communities the Hamptons Social Climbing Crime Lottery Elitism WASP American Dream Noam Chomsky Fortune Magazine

Encyclopedia of American Social Movements Immanuel Ness,2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice

Worker Voice Greg Patmore,2016 The book aims to understand work participation in the workplace or worker voice by examining the inter war experience in Australia Canada Germany the UK and the US

Radical Political Economy: A Concise Introduction Charles A. Barone,2015-03-26 This straightforward introduction to radical political economy strikes a balance between breadth and depth and was written for the beginning student and others interested in a relatively short text on radical economics
